of corn, oats, peanuts, soy beans, melons, vegetables, fruits, and feed crops. About one-fourth of the land is used as pasturage for dairying and livestock industry.

Bastrop, the county seat, is centrally located near the Colorado River. The city is a trade center for a wide area and a shipping point for cotton, pecans, turkeys and other products. Lignite is mined nearby. Smithville, in the southeast part of the county, is the principal commercial center. Other towns are Elgin, in the northern part of the county, Paige, and McDade.

COTTLE COUNTY

Description of County: Cottle County is located in Northwestern Texas. There is some black land in the east central part of the county where cotton is produced. In the remainder of the county sandy loams predominate, making this area more adaptive to livestock production. Paducah, the county seat, is the principal market.

SCHOOL DISTRICT MAP OF MORRIS COUNTY

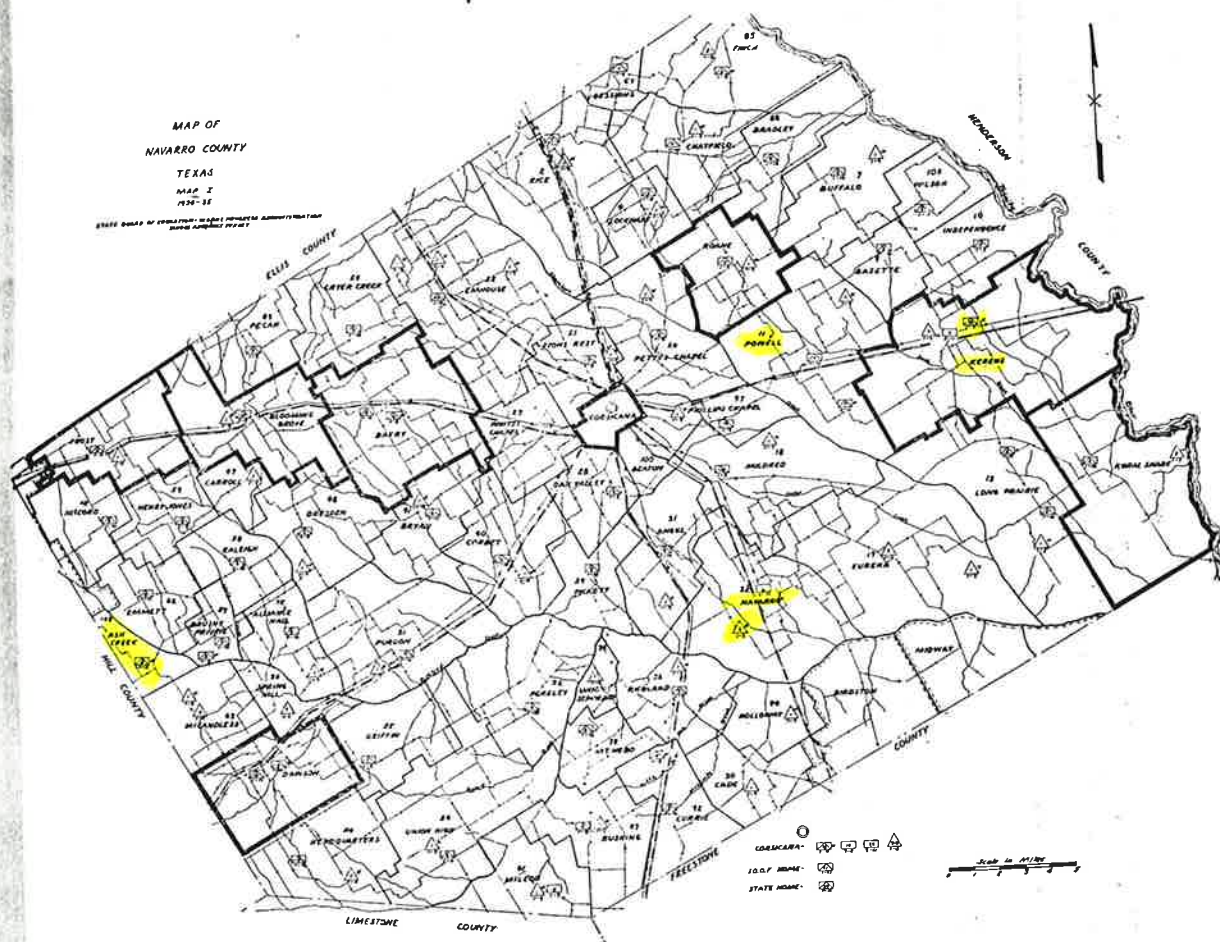

## NAVARRO COUNTY

*Description of County:* Navarro County, located in Northeast Texas, is the oldest oil producing county in the State. Cotton and corn are important agricultural products. This county is the leading mule-raising county of Texas and has a considerable production of beef cattle, hogs, and sheep.

Corsicana, the county seat, because of its proximity to rich oil fields and because of its varied industries, ranks above the average city of its size.
