

TEXAS PRESERVATION TRUST FUND GRANT PROGRAM

Texans have inherited a wide array of historic architecture and archeological sites that reflect the diversity of all those who have called Texas home. The most serious problem facing historic preservation in Texas is the rapid deterioration and destruction of thousands of Texas' historic and pre-historic sites. To meet this challenge, the 71st Texas Legislature established the Texas Preservation Trust Fund (TPTF) in 1989.

Background

The fund is currently managed by the Texas Treasury Safekeeping Trust Company. The investment earnings are distributed as matching grants to qualified applicants for the acquisition, survey, restoration, preservation or for the planning and educational activities leading to the preservation of historic architectural and archeological properties and associated collections of the State of Texas. Competitive Grants are awarded on a one-to-one match basis and are paid as reimbursement of eligible expenses incurred during the project.

Applications are available as announced by the Texas Historical Commission (THC) to public or private entities for projects involving eligible historic properties, sites or projects. There are two steps in the grant application process. First, all applicants are required to submit brief application forms for the THC to review prior to each year's deadline. The THC will select the highest priority projects from the initial applications and invite those applicants to move forward to the second step. Successful applicants will continue the process by submitting detailed project proposals and budgets. Full project proposals will be

considered by the Commission at a scheduled quarterly meeting. The exact timetable will be published on the THC web site as grant cycles are announced.

The Texas Preservation Trust Fund Grant program is an opportunity to save and protect Texas' threatened historic structures and significant archeological sites. For additional information and to be placed on the grant application mailing list, please contact the Texas Historical Commission, Architecture Division, P.O.
