May, 1924 CONCRETE HIGHWAY MAGAZINE 105

Shall it be Gravel or Single Track Concrete?

By J. W. REESE
County Judge, Rockwall, Texas

He is a "booster" for concrete roads

THOUGH available funds for road construction in Rockwall County were not sufficient for building standard width pavements, the taxpayers of Texas' smallest county would be satisfied with nothing less than concrete. The solution was found in the construction of single track concrete pavement which provided sufficient mileage to place every farmer in the county within an average distance of one mile from a hard-surfaced highway.

When road improvement was first contemplated, it was expected that only 13½ miles from Royce City through Rockwall would be paved. On this stretch—an 18-foot concrete pavement—Government and Federal Aid amounted to $348,000 and the county's share was $350,000. The balance of the $800,000 county bond issue voted in 1919 originally was to be used in gravelling the other important roads in the county. The change from gravel to single track concrete pavement for these roads was made after careful deliberation based on estimated costs.

As there is no gravel deposit in the county, all of this material must be imported over a haul of from 40 to 50 miles. Under these conditions a gravel surface 16 feet wide would cost $11,000 per mile, exclusive of bridges and grading. The maintenance of a gravel road would add five or six hundred dollars yearly expense per mile while expensive scarifying and reshaping would be necessary every eight or ten years. Texas laws permit a county to issue bonds for only 25 per cent of its

RODEO
OUTING CLOTHES
For Men and Women

THE reason why motorists and vacationists who wear RODEO OUTING CLOTHES always look so trim and neat is simply that these popular clothes are made to FIT—a feature that adds to their comfort.

There's real style in Rodeo clothes. They are as carefully cut and finished as the much higher priced wool garments. There are no raw, unfinished edges. Buttons fit the button holes. Pockets are accurately and carefully turned. Every garment is hand pressed.

Rodeo Outing Clothes are carried in stock by dealers in practically every town shown in this "Roads of Romance" book from El Paso to San Antonio as well as most every where in New Mexico, Arizona and California.

When you buy outing clothes you'll get the kind you really want if you make sure that you are buying RODEO.

Activities along the Bankhead Highway

Did you, your family, or friends travel on the Bankhead Highway? If so, when, how often and for what reason?

Did new businesses open when the highway was built? If so, what kind of businesses were they and when were they in use?

Did the highway pass through the downtown area? If so, did any events take place on the downtown section of the highway, and what were they...fairs, parades, community celebrations?

What impact did paving the highway have on local business and movement from town to town? Did tourism increase?

What happened to businesses in your community when the interstate was built?

Buildings and Structures along the Bankhead Highway

Do you remember any buildings or places that highway travelers used, such as tourist camps, tourist courts, motels, gas stations, repair garages? If so, what and where were they, and when were they used? Do they still exist?
