The 28-county Texas Independence Trail Region features rich heritage, diverse culture, and unforgettable history, including 10 Texas Historical Commission state historic sites. Travel and tourism are vital to the Texas economy, and the Independence Trail Region is no exception. In 2021, direct travel spending in the Independence Trail Region accounted for roughly $25.1 billion of the overall $76.6 billion spent by visitors to the state.

Visiting historic sites, communities, and museums is a significant component of the state’s and region’s travel industry. A 2015 study by The University of Texas at Austin and Rutgers University determined that more than 10.5 percent of all travel in Texas is heritage-related.

Following devastating declines due to the pandemic, the Texas travel industry experienced a significant rebound in 2021. Travel spending increased an estimated 35.7% compared to the prior year, and all economic indicators are approaching a pre-pandemic level.
