1	We discuss often the difficulty in accounting for hours, but given the number of hours donated by museum volunteers, geneology sleuths, historians, archaeologists, preservationists and authors, we think this is a valid (and probably understated) number.	Jun 13, 2012 3:03 PM
2	zero entered above because submitted written report had no answer	Jun 13, 2012 10:59 AM
3	3 people did not have any hours. 6 people only had less than 50 hours. One deceased member did 50 hours before they passed away in May. 7-8 people did the work.	Jun 7, 2012 3:59 PM
4	Nearly every member is a volunteer, docent, chief operator etc. of a museum, or doing research, or giving speeches to schools, etc.	Jun 7, 2012 3:50 PM
5	Please note that NCHC had an increase of 904 more volunteer hours in 2011 than in 2010.	Jun 7, 2012 3:28 PM
6	Total hours include 2717 reported by commission members, 15 for Friends of KHC volunteers, and 82 for 1 A&M student intern.	Jun 7, 2012 3:04 PM
7	Hours were on Marker research, Cemetery research, assisting visitors with their research, one member is a host of the county's genweb site, tours, marker dedications and so forth	May 6, 2012 1:14 PM
8	Includes an estimate of hours for a major event.	Apr 24, 2012 1:43 PM

5	From: Betty Cash [mailto:bbtcash@yahoo.com] Sent: Monday, April 23, 2012 3:40 PM To: Amy HammonsSubject: Re: Pecos: Question about CHC Report EXCERPT We received 10,300 which is the same as we have gotten the past two years.Of that amount 3000.00 is for repairs and maintenance and 3000.00 is for professional services.Both of those line items are for the upkeep of the three county buildings we are responsible for.These are the Rollins Sibley House, the Hovey School, and the Historic Old Jail 1883.The county precincts that the buildings are in mow the grass and that is all.If there is a plumbing or electrical problem as is often the case we are responsible for the expenses instead of taking funds from the individual commissioner's budget since not every commissioner has a historic building in their precincts. This year's budget was cut back some,but we are very grateful for what we receive.	May 6, 2012 1:21 PM

43	A request for a budget increase, along with a new budget, was presented to the Commissioner's Court for 2011 by our CHC. The money given to our CHC had been the same, \$500, since 1955. We were then told by the County Treasurer and the Tax Collector that to receive our CHC money, receipts were now required for everything. We presented the receipts we had, which were mostly THC Conference expenses because we had been saving CHC money for our Brochure project. The County gave a check made out to the Chair for \$1,000 and nothing to the CHC. The Chair donated \$700 of it back to the CHC since they had not received any money from the County for 2011 or 2012. We realize they were trying to help the Chair with expenses, but in the process the CHC didn't receive the \$1000 for 2011 and 2012 that they were counting on. 	Association to maintain museums and handle historic preservation. The county provides \$5000 per year towards utility bills at the museums. Typically this money is depleted by August or September and the FCHA covers the balance.	
46	In past years donations have been made for purchase of a building for a county museum or to build one. The balance reflects those donations and we would very much like to get a permanent building as soon as there are sufficient funds. We are very careful with expenses so that we can build up the amount needed to accomplish the above goal. web site. We found in the past, if such a structure was recognized in public, that the structure came down overnight. The solution has been to ask the owners to attach a historic registration of some kind (City/County/State/Federal) or designation to the site or building. The process is slow but good. Historic markers are also providing a resource to preserve endangered buildings and sites. Publication of history on the web, in local magazines, and news also helps to preserve the historic landscape.

1	Get groups to attend commissioners court when our issues are being addressed	Jun 7, 2012 3:53 PM
2	One of the County Commissioners is a member of the Washington County Historical Commission and he serves as a member to report to the Commissioners Meeting.	Apr 19, 2012 10:10 AM
3	The current gift of \$1,000 yearly is far less than the original \$20,000 yearly originally provided. I am uncertain as to why that was changed (many years ago), but I believe it to be personality differences at the time. The historical commission continues to support the museum and its projects yearly - much given through individual gifts for projects as they arrive. We currently give half of our support to the museum.	Apr 11, 2012 12:35 PM
4	does not apply	Mar 29, 2012 2:45 PM
5	Unfortunately, since Mason doesn't have a very good tax base, we would not ask the Commissioners for more money to fund a particular project unless they were directly associated with it; i.e. in 2008 when we held monthly Sesquicentennial events, they were able to help us out somewhat.	Mar 28, 2012 1:44 PM
6	Work with the Hotel Motel Assoc. to enlist their support in our efforts to bring visitors to and not thru El Paso (Hotel/Motel Tax Funds and their positives as it pertains to visitation.)	Mar 20, 2012 2:44 PM
7	KHC is self sustaining.	Mar 20, 2012 7:14 AM
8	We repeat, Concho County does not provide any money to CCHC because CCHC has an adequate bank balance; however, if CCHC wants to make an expenditure that exceeds our budget, the County Treasurer (with CCHC permission) secures permission from the County commissioners to amend the CCHC budget to cover the over-budget expenditure, provided the expenditure does not exceed the CCHC bank balance. 13	Our membership can not afford "out of pocket" funding since the majority of us are retired.	Feb 28, 2012 12:23 AM
14	WE HAVE A LIMITED FUNDING SOURCES BUT PROVIDE SOME BENEFITUAL PROJECT SUPPORT. WE ARE BELESSED WITH THE LOCAL SUPPORT PROVIDED BY SUL ROSS BIG BEND NATION PARK AND VARIOUS RANCHING FAMILIES IN BREWSTER COUNTY. THE SUPPORT PROVIDED TO THE SCHOOL HISTORY PROGRAM IS VITAL. THERE ARE SOME SCHOOLS EVEN WITH OUR SUPPORT DO NOT FIND THE TIME TO SEND STUDENTS TO THE HISTORY FAIR. EXTRA WORK FOR SO MANY WITHOUT THE INCREASED PAY IS ABOVE THEIR DEDICATEH SERVICES.	Feb 28, 2012 12:01 AM

**Page 19, Q41. If your CHC budget or services are reduced or cut, how will your CHC most likely respond? Please check all that apply.**

	WE WOULD SURVIVE WITH A REDUCED COUNTY FINANCIAL SUPPORT. THE COUNTY POLITICAL AND MORRAL SUPPORT WOULD CARRY THE BREWSTER COUNTY HISTORICAL COMMISSION FORWARD.	
15	Annually during the budget workshops, a budget is presented to the Judge and Commissioners and a presentation discussing the budget items happens. The budget for 2011-2012 was not reduced.	Feb 27, 2012 9:56 PM
16	We are a partner to the Court. We requested a 13% cut in our funding -- on our own -- for 2012 to be in line with the major cuts all departments and officials were faced with. One job lost vs our reduced funding. We felt every job saved was important!! Reduced funding means we take a sharper look at what we can accomplish and how we approach the goal. Reduced funding in major areas meant we could spend more time on research (little funding required to do this). Marker repair and refinishing requires a very small amount of funding... but does require more free time and good weather. Sometimes, a tight budget means you address the important small projects that you had been pushing off the list while working on bigger, more publicly visible events. We are not daunted by the funding reduction because we will accomplish more smaller projects that have importance. Demonstrating we want to be a Partner of the Court, we feel they will consider a higher funding level for us in the future when county funds are more available.	Feb 27, 2012 9:39 PM
17	Since the County provides mainly administrative expenses, a budget cut would not affect us appreciably. Our biggest project is the Gibbs-Powell House Museum, and we fund our expenses from donation, grants and fund raising projects. In the past two years we have replaced the roof, repainted the exterior and renovated the front hallway and main dining room with funds from a private donor, City of Huntsville HOT Board, and County contingency funds matched by the City of Huntsville funds. We are also adding a handicap access ramp with donate labor and materials donated by Home Depot. Renovations are essentially complete except for replacing an aging air conditioner for which we will seek private donations.	Feb 26, 2012 4:35 PM

The web site now displays about 1/2 of our County historical markers along with directions and an online map for each. Developed rack cards that use a cell phone scan code to access web pages providing additional information. Working with City Tourism to develop a scan code accessible cell phone tour of Huntsville historical sites. Developing an online MySQLdatabase of members, friends, donors and guests, including the ability to print address labels.	
14	This year we made a concerted effort to keep in contact with our county commissioners court. We have a new County Judge and we wanted to make sure he and the commissioners were aware of our preservation work and to inform them about the history in our county. We have been working with the El Camino Real de las Tejas Association and the NPS to help mark the trail in Milam County and to promote the trail with information in the papers, on our web site, through school visits and with distribution of maps and brochures that we have developed. county and a notebook with photos was made depicting that inventory. Another notebook needs to be placed in the HCHC office. The present one is housed in the library collection. 4) An inventory of all unclaimed marriage licenses was completed and those licenses were boxed by years and placed in the HCHC office so they might be claimed by interested family members. Articles were run in local and area newspapers advertising the completed project and the license availability. 5) Hill County Heritage Book Vol 2 won a state award. 6) New Cemetery and RTHL's were awarded. 7) We began a project to create a research resource pamphlet (similar to that done by Bell County several years ago). This will also help us to better organize a complete inventory of county and city records, historical documents, mementoes etc.

26	Planning for identifying more historical sites; planning a tour of county which will include historical markers	Feb 14, 2012 10:13 AM
27	Development of a strategic plan using the statewide plan as a guide.	Feb 8, 2012 3:08 PM

35	Provided Guest speakers Had 4 work shops - on the history of Medina County	Jan 21, 2012 2:30 PM
36	I cannot say we made a concerted effort to improve our relationship with the county commissioners as we regard our relationship to be great - but we did work more closely with them in 2011. We worked more closely with all of our partners in 2011 coordinating events/activities held on October 8, 2011.	Jan 15, 2012 3:48 PM
37	The Wheeler county CHC had been inactive for several years--no people approached the County Judge and Commissioners and new life was breathed into program and all of the County Officials are very supportive of our projects and goals.	Jan 14, 2012 4:59 PM
38	We are improving in reaching out to our region. For example, we have provided assistance to Karnes County on Courthouse application, meetings and other issues. We are working on the El Camino Real de los Tejas organization and are proud that we are researching our area for ranches on trail and planning an event in April-May 2012	Jan 10, 2012 11:41 AM

6	Membership increase was acted by their interest, some are interested in this because of their profession, and this time is very unwise.	Apr 19, 2012 10:13 AM
7	Our programs at regular meetings have all been history related for sometime now - with an emphasis on area history. When possible, we get articles written prior to the meetings in the local paper which helps attendance. The newspaper, however - like so many - are cutting back so our ability to use space at no cost has greatly deminished. We have also enlist a history professor at the university as a new member and hope that we may get college students involved to a degree.	Apr 11, 2012 12:43 PM
8	Imput from newly recruited members	Apr 11, 2012 7:38 AM
9	Bylaws are reviewed and updated every two years, membership is reviewed and new appointments are made every two years with emphasis on diversity, members are selected to represent all areas & ethnic groups of the county.	Mar 30, 2012 10:08 AM
10	Sine area if the county were not well represented, now each area gets to bring their ideas and issues forward. The court has their questions answered and the spot an issues involves RCHC.	Mar 30, 2012 7:39 AM
11	We began with a THC Cemetery Workshop in Mason on March 26th. Cemeteries in Mason County that are in dire need of help were pinpointed. We began with plans to clean and clear the area, replace a portion of fencing, and repair tombstones and cairns at the Old Pontotoc Cemetery which was abandoned in 1887 after a terrible typhoid epidemic. Very little had been done since a clearing/cleaning in the late 1970s. We are continuing working on this cemetery which is taking a lot more time than we anticipated. We also hope to begin on the Todd Mountain Cemetery and the Simon Cemetery this year. We are also working on designating these 3 cemeteries with the state historical designation.	Mar 28, 2012 1:46 PM
12	To boost interest in CCHC from all parts of the county annoucements were made in all papers in the county of meetings and programs. Attendance included visitors who came with particular interest in the program such as the program in	Mar 27, 2012 3:05 PM

13	To recruit and attract people to become members in the Historical Commission that are dedicated and have experience in preservation, construction, archeology, and photographer. Educating the local community on historical projects and buildings and to inform people on what their historical commission has accomplished. Working with the county commissioners in preserving the Old County Jail and County Court House build in the late 1800s and acquiring office space for the Bandera County Historical Commission.	Mar 24, 2012 12:20 PM
14	Bylaws were outdated (Did not match budget year) More active members are needed. Members presented programs to organizations to educate on historical facts of the county. New project needed to improve area of centennial marker and to improve co. archives.	Mar 22, 2012 8:00 AM
15	Our bylaws have been lost and were old. New ones were drawn up and approved by THC and by Upton County Judge and filed. We are always recruiting new members. Some appointed members find they don't really have time or in some case the desire and just drop by the way side. We had one pass away this year. We got helpers outside of the commission and they remain active and interested they are suggested to the judge to be appointed.	Mar 20, 2012 8:17 AM
16	We have to get new/younger members interested in our commission.	Mar 20, 2012 7:58 AM
17	Web site creation to develop public education regarding history of the county, marker preservation, dedication, inventories, and tourism. Mission: to celebrate Harris County history. Initiated Videos of marker dedications and placement on web site. A "comcast" company is now professionally making videos of all the Harris County CHC marker dedication programs. 23	We have had a problem with getting a quorum for our regularly scheduled meetings. so we amended the by laws in order to drop members who missed meetings regularly--miss three in a year and they are now dropped.	Mar 10, 2012 1:44 PM
24	Need to update bylaws, Need broader representation in the county. Partnered with Gonzales Memorial Museum Board for restoration and education efforts.	Mar 2, 2012 3:44 PM
25	By-laws were not consistent with Statutes. Added more volunteers and associates to flesh out committees and improve activity and reach. Utilized some of our in house professionals to educate new Commission members. Tapped into on-site visitation from other counties. Tapped into individuals pointedly to representative all of our communities. More support has they see us following Statutes and developing plans to include all county citizens.	Mar 1, 2012 9:34 PM
26	Because our depot was placed on the MOST ENDANGERED list we worked hard to educated and inform the public, and the Burlington Northern RR concerning the importance of this distinction. The depot also turned 100 in 2011 and a birthday party for the depot was held. This project was met with enthusiasm but by the end of 2011 (after 6 years) all efforts with BNSF were to end with no resolution and the building continues to deteriorate due to neglect.	Feb 29, 2012 8:50 PM
27	CHC bylaws were amended to allow more members on the board in order to accomplish our goals. We are currently planning the county's centennial anniversary book, video, and celebration for 2013.	Feb 28, 2012 5:00 PM
28	WE SELF-LIMITED OUR MEMBERSHIP NUMBER TO 11, AND INVITED OTHERS, WHO COULD NOT ATTEND TOO MANY MEETINGS, TO BE VOLUNTEERS AND COMMITTEE MEMBERS INSTEAD OF APPOINTEES. THIS HAS GREATLY HELPED US ACHIEVE OUR QUORUM AT MEETINGS.	Feb 28, 2012 2:32 PM
29	Had several lengthy talks with county judge and commissioners one-on-one to show role that CHC and history preservation has in tourism and economic development in our very remote area. Several members attended THC conference and most attended regional conference held here. Had all officers and several members trained in Robert's Rules of Order and Open Mtgs Act. Gave copy of THC handbook to all members and reminded Judge of his copy for reference. Trying to utilize methods learned at conferences one step at a time.	Feb 28, 2012 12:25 PM
30	Efforts are being made to gain new members, recognition, and appreciation for role of CHC. Howard CHC continues to search for new avenues of partnering with local officials. A member of the local economic development board often attends meetings to learn about initiatives and seek input from members.	Feb 28, 2012 10:17 AM

WE NEED TO SHARE OUR KNOWLEDGE, GET PEOPLE INVOLVED, MAKE THEM BE A PART OF OUR HISTORY, DON'T BE A GOLF PLAYER WITH LITTLE TO NO VALUE TO THE PRESERVATION OF OUR HERITAGE. BE FRIENDLY, KNOW YOUR SUBJECT, PASS ON YOUR KNOWLEDGE .

34	As CHC members continue to age there is need to bring in younger members and to continue to make sure that the CHC has diversity and all areas of the county are represented.	Feb 27, 2012 9:56 PM
35	Each new member receives THC Handbook information, completes Open Meetings Act training, and numerous handouts on local historical markers/ historic sites, subscription to the Medallion, and one on one mentoring. Partnerships are developed with organizations seeking information and skill sets we can provide. We try to be "The Partner Other Organizations Want to Partner With".	Feb 27, 2012 9:55 PM
36	Clarified membership status and numbers to permit more accurate determination of a quorum during monthly BCHC meetings.	Feb 27, 2012 8:29 PM
37	CHC volunteers began opening the museum two days a week. As a result from the opening about July 15th we experienced an average of six visitors per day until the end of December.	Feb 27, 2012 2:07 PM
38	Membership - find members with diversified talents and made sure they are placed on committees that are suited to their aptitudes and have knowledge of history and preservation. Presevation education - supplied handbooks. Community outreach - had meetings in seven different communities. Set up tables at various festivals to promote CHC. Attended preservation workshops and the annual THC meeting. Relationship with county commissioners court - we meet with the commissioners court and have been able to appoint the members to the CHC that we wanted. We meet with the commissioners court concerning our funding each year and invite them to our various meetings resulting in a better working relationship. Initiated new projects - produced historic calendar for 2012. It has helped us make additional money for commission. Established committee to research all rural schools in county.	Feb 27, 2012 11:09 AM
39	Involve more students in Annual Essay Contest, Began Annual Christmas Ornament to recognize History of county and improve funds. Provided Christmas Gift Baskets for Senior Citizens.	Feb 27, 2012 10:31 AM
40	The internet connection at the House will make it easier for members to do productive work there and provides hosts something to do when guests are not present. The web site, scan codes and cell phone tour will permit a new generation of tourists to more easily access our historical assets. The telephone answering system will permit us to more promptly respond to public inquiries. The database will replace note cards and will make our organizational, outreach and funding efforts more effective.	Feb 26, 2012 4:37 PM

willingly uses new avenues to make researching easier, information more accessible, the museum more interesting, and making the community aware of the great resource available to them locally. Membership: The museum receptionists encourage all local visitors to volunteer. Several articles are written for the local newspaper telling about the many HC projects and how volunteers can use their skills to help us achieve those project goals. All regional preservations workshops are reported and NCHC members encouraged to attend at our bi-monthly meetings. If at all possible at least one NCHC volunteer attends area SETMA, Heritage Trails Program, SFA Historical Preservation, and other regional Historical Society meetings and workshops. Partnerships: NCHC partners with the NISD to develop projects and programs for students. NISD classes are sent a certificate of appreciation for visiting the museum. NCHC partners with the Public Library in giving presentations during the summer break. NCHC also partners with the Newton Chamber of Commerce/Visitor Information Center in promoting local businesses and events to history center visitors and in turn NCHC's history center and museums are listed on the Chamber's website and rack cards. Community Outreach: To encourage children visitors, certificates of appreciation are personalized and given when they visit the museum. Age-appropriate genealogy charts and coloring pages with pictures pertaining to artifacts on display are freely handed out. Articles regarding Newton's history are written weekly for the local newspaper. Any visitor investigating family history is asked to donate their findings as well as copies of important papers, documents and photographs to our Family File Folder Section. NCHC now has a website so potential visitors can find us by way of the internet. Relationship with County Commissioners Court: NCHC has an excellent rapport with our County Commissioners Court. The Commissioners occasionally use our facilities for their meetings. We are now on "first name basis" with all of them. The County Judge agreed to write a chapter for NCHC's project of publishing a pictorial history of our historic County Courthouse. Initiated a new project: The Cemetery Committee investigated and entered updated information for all cemeteries. Pictures were taken of all headstones in the county. Now all this information is available to researchers. Also, because of this endeavor, NCHC published a resource book of all buried Veterans including their pertinent military information. All of the above efforts have increased the number of History Center visitors as well as more requests for information regarding genealogy and Newton history by phone and email.

| 43 | We wanted the new County Judge to be aware of the importance of what our commission does. We have had great results. The County Judge is open to our ideas, he listens when we have questions or need help. He and the commissioners have publicly stated that they appreciate our efforts and show that by attending events we host, helping with preservation issues in the county (working to save Worley Bridge) and budgeting \$5,000 for our Preservation Grant Fund. The El Camino Real Trail is important! It could mean more tourism for Milam County and Texas. The MCHC wants to support and promote the trail throughout our community and we feel that community outreach is the best way to do that. We have funded signage for the trail and hope that will be a visual for citizens to recognize the sites and importance of the trail. We are continuing to provide brochures and maps that recognize the trail and significant sites in Milam County. | Feb 26, 2012 4:02 PM |

communities in our county. We have participated in parades, shown our documentaries to groups around the county and our Oral Histories. Invited our County Commissioners to our meetings and participated with them on projects that both the commissioners and our CHC can have a common ground to initiate conversations on. I believe that we have a closer relationship with our County Commissioners than we have had in years past, because of our planning of projects together.

| 45 | The Jack County Historical Commission is relatively new. Because of this fact, a concerted effort has been made to enlighten individuals, organizations and local government of our goals and objectives. We have increased our membership to include representation from all geographic areas of the county. These new members have provided additional insight into potential historical projects.  | Feb 26, 2012 11:45 AM |
| 46 | To help publicize the work of the CHC and to encourage others in our county to become more involved in preservation efforts, we have begun having articles published in the local media concerning our monthly meetings and projects. We feel that these efforts have made more people aware of the work of the CHC. We have had more people asking about our projects and was asked to give one presentation in 2011 and have already been asked to give at least two in 2012. We have also had a couple of people ask about how they can be appointed to the CHC. We initiated an oral history project this past year. We felt that we have such a valuable historical resource in those who lived the events of our county's past. Our plans included interviewing older citizens of the county and to make their oral histories available to the public. We feel that the project is progressing well. We currently have several volunteers who have volunteered to participate and several wanting to participate. | Feb 25, 2012 8:42 PM  |
| 47 | Preservation education for appointees was made because since I became a member of Pecos County Historical Commission there had been no explanation of our purpose to new appointees except to read the handbook. We had a program for new appointees as part of our regular meeting. It appeared to be helpful for new appointees as well as the "old timers". As part of an effort to increase our community outreach we offered the Rollins Sibley House as a place for the Water Carnival Board to meet with the contestants for Water Carnival contestants and judges. We conducted a tour of the building and served lunch to the contestants and out of town judges over a period of three days. This was a much younger group than usually tours the Rollins Sibley House which is always a positive result for our museums.   | Feb 25, 2012 4:16 PM  |

68	The CHC is always working to engage our commissioners and our County Judge. Our County Judge initially had no real interest in preservation (to the extent of deleting our funding from his initial proposed budget); however, through a concerted effort to engage him in the preservation of our historical resources, he has admitted that he is now a fan of history. He was our only elected official to attend our historical marker dedication and he has used the CHC as a resource on several occasions. He even voted for our funding in the final version of the budget.	Feb 17, 2012 8:18 AM
69	--Make public aware of resources available at the museum. --Published a pictorial history book in an effort to preserve photos and acquaint citizens with museum artifacts and little known information about the county.	Feb 16, 2012 1:07 PM

74	We begin 2011 with 21 appointees. Of those, five were not attending our scheduled meetings. After attending the Workshop for CHC's in San Angelo, Texas June 24, I visited with each of the five and we discussed the situation. Four chose to withdraw their position on the commission because they were over-committed. The fifth one had a major health problem develop and they wanted to be removed.	Feb 15, 2012 7:07 PM
75	When attending any event in the city or county, BCHC members mention projects ongoing such as the markers, honoring local celebrities, always include media in events as well as Commission Court	Feb 15, 2012 3:07 PM
76	Our presence at various meetings gives a face to the County Historical Commission and our outreach to the various organizations in the city, county, and heritage has increased our communication and collaboration in a broader concept.	Feb 15, 2012 8:50 AM
77	We are making every effort to locate and record all the historical articles in our county. Some people are very quick to report and have their information included. Others are reticent to participate. Still others, say they want to help but don't. We will be successful....we hope.	Feb 14, 2012 4:04 PM

79	These efforts were made in order to have a more effective board and to make the community aware of our efforts	Feb 14, 2012 10:13 AM
80	Wrote articles for the local paper telling about the historical cemetery designation program and as a result we had 8 approved for the designation, and 3 others are in the process. Two of these went on and were approved for markers this year.	Feb 9, 2012 10:08 AM
81	Members were educated on the marker processes, open meeting training and the resources available in the county. Members also developed a strategic plan. Partnerships and contacts were made with various organizations including the Comal Settlement Association, Schertz Historic Preservation Group, City of New Braunfels, Comal County Genealogical Society, Sophienburg Museum and Archives, NB Chamber of Commerce and the El Camino del las Tejas National Historic Trail group. Survey of our CHC group to find out what organizations they are members of and what areas of expertise they provide concerning our county. Community outreach provided by help with marker research and historical articles in the Herald-Zeitung and other newsletters. Developed effective working relationship with county judge and commissioners which resulted in money budged for the new CHC project which will be a countywide survey of historical resources. 8	We met in Terrell County. Travis Roberts brought us up to date on THC and its future along with Amy. I can remember counties: Crane, Upton, Pecos, Terrell, Brewster, Crockett, for sure and I know there were others, but can't remember and don't have a list. I do think El Paso was represented. Each member told of their projects, successes and near misses, sharing many ideas. It was very interesting and informative. This chair has met regionally at least twice in the last few years and possibly more times. **I belong to Pecos Trail, UCHC, and Texas Federation of Women's Clubs and many of these cover like activities and needs and it is hard to remember which was which.**	Mar 20, 2012 8:21 AM
9	We met with the Runnelle County Historical Com. They helped our com. with their idea on how we can get new members.	Mar 20, 2012 7:59 AM
10	Hayes, Gonzales, and Comal. local history and websites.	Mar 19, 2012 9:20 AM
11	I did not meet with any of the regional CHC except the Lakes Trail meeting in Decatur along with Kerry Clower, where we had representatives from Jack, Parker, Denton and Montague Counties.. Kerry is a very active member of the Wise County Historical Commission and attended a meeting "Training for Texas Museums where he was a member of the discussion panel. He and member Sallie Andrews made a meeting in Denton, and he made one in Weatherford, I do not know the counties involved. Over the years I made every meeting anywhere in Texas of the annual THC, but have not in the past few. It would be nice if some of them could be closer to home.	Mar 19, 2012 7:25 AM

18	THE MOUNTAIN - PECOS REGIONAL MEETING STARTED BY BREWSTER COUNTY , NOW 12 YEARS AGO, PROVIDED A METHOD TO DISCUSS, MEET, REVIEW WHAT OTHERS ARE DOING AND GET NEW IDEAS ABOUT WHAT WE COULD BE DOING THAT OTHERS HAVE ALREADY FINISHED. LOCAL AREA AND STATE PERSONAL CONTACTS ARE MADE. MOST PROJECTS THAT REQUIRE OUTSIDE SUPPORT ARE SUCCESSFUL IF THERE IS CONTACT WITH WHO YOU KNOW, IT's NOT WHAT YOU KNOW. WE STILL HAVE SEVERAL COUNTIES IN THE THC DESIGNATED MOUNTAIN PECOS REGION THAT DO NOT ATTEND ANY LOCAL OR STATE FUNCTION. WE DO NOT RECIEVE ANY EXPRESSED INTEREST BY SOME IN ANY OUTSIDE CONTACT WITH THEIR LITTLE COFFEE CLUBS. THIS FEELING APPEARS TO EXTEND UP TO THE COUNTY ELECTED OFFICIALS .	Feb 28, 2012 12:45 AM
19	Attended Lavaca County annual historic conference.	Feb 28, 2012 12:30 AM
20	Telephone calls and email discussions are more prevalent than face to face meetings. However, meetings such as the Edwards Plateau Historical Association meeting we hosted in October brought CHC chairs and members from Concho, Runnels, McCulloch, Menard, Kimble, Williamson, Llano, Mason, and San Saba Counties. We discussed member development and recruitment, historical marker projects, cemetery issues, and regional events we could share in and promote. Catch the moment -- where ever it appears.	Feb 27, 2012 10:03 PM

1	Conducted an Oral History Workshop on November 17, 2011. Workshop was conducted by Dan Utley, Professor of History at Texas State University. The half day workshop focused on developing and conducting an interview, doing background research, creating appropriate questions, and managing the interview as it proceeds. The Commission also purchased a recorder to increase our ability to gather oral histories, which is kept at the County Courthouse for checkout by my members of the CHC or other qualified interviewers. 2	Black History Month event in February. CHC Member Othea Harrison met with school officials and got permission for several grades to attend a presentation about Buffalo Soldiers at the Caldwell Civic Center. The kids were bused in several groups for most of the day. That night a public presentation was held, attended by 20-25 people. The event was well covered in the local newspaper, and well recieved by everyone who attended. The man doing the presentation was still talking about the great response of the kids several months later. A display was also done in Feb. at the courthouse in a display case in the hallway for Black History Month. Everything was free. Ms.Harrison also arranged for myself and a lady from the library in Bryan to speak with a group of people representing black churches and cemeteries, to get them interested in starting family, cemetery, church and community histories....this was the start of filling in a huge gap of our county history!! 3	175 th anniversary of March 2, Texas Independence day attended by over 60 people; celebrating the 175 th anniversary of San Jacinto Day with a program attended by 30 people with a folk tale "artist" doing a history of Sam Houston (bring out awareness to the public of Texas Independence and San Jacinto to people who did not have any knowledge of the importance of them; historical markers for Blanket Cemetery(program), Greenleaf Cemetery, and Jenkins Springs Cemetery; Obtaining historical marker for Charlie Webb( killed by John Wesly Hardin)--completing a five year goal; making a new plan for the county museum of history to move all the exhibits into more of a time line approach than just a collection of old things (a long time project that is just in the planning stages); doing a bi-weekly newspaper article about county history; creating brand displays; numerous hours with the Brown County Museum of History, Blanket Museum, Lenhis Train Museum, and Zephyr Historical Association to create exhibits from donated items and create them for a learning experience; speaking at various groups, organizations, schools etc. to broaden the knowledge of our county history. Although we do not have an actual oral history program, we are have interviewed people or gotten them to write down stories. We are exploring methods of getting correct equipment for an actual oral history system. Eight of us have attended oral history work shops given by the Texas Historical Commission over the last few years. We have make headway with the general public and the county and cities of the importance of local history and tourism and have gotten a lot of attention about preservation issues	Jun 7, 2012 3:53 PM

8	Washington County Cemetery - we looked for the 1936 markers for years, we knew where they were located but no one was able to go in the woods to locate them. Never learned why they were moved from the Washington-on-the-Brazos State Park. Finally someone with a chain saw was brave enough to find these markers, clear a path and had a dedication. These need to be moved closer to the road so they can be viewed by more people. This has made a great impact on the community. Members of the Washington County Commission as far as Houston were present for the dedication.	Apr 19, 2012 10:16 AM
9	We are currently working with other groups to preserve the site, tell the story and promote public and tourism awarness for the Plainview Man prehistoric kill site on the Running Water Draw that runs through Plainview. We have presented design work for the site to the SIFE program (Students in Free Interprise) at Wayland Baptist University who are working directly with city, museum and mainstreet officials to begin fundraising efforts. We have visited with our county judge who is also in support of bringing this project to completion to preserve our history and promote additional tourism to Plainview and Hale County. The completed project will serve as an outdoor museum to tell the story of the prehistoric migrant hunters which followed the prehistoric bison across the plains of Texas and the Llano Estacado. The completed project will be available for touists as well as locals and student of public and private schools. Sadly, not many local citizens are even aware that a prehistoric man has been named after Plainview because little has been done to tell this story since its discovery back in the 1940s. We now have the right combination of city officials, museum director, county judge and the youth of college students to bring this project forward.	Apr 11, 2012 1:00 PM

Assisted the local DRT chapter, owners of the house, in providing accurate history and displays at the annual event. The 500 - 1000 annual attendees are provided an accurate history of the house, the El Camino Real and other early pioneer history of the area. Attendees are given accurate history and the opportunity to participate in the history presentations presented. Partnerships for this initiative involved chamber of commerce, city council and county officials. The signs lead the public to preserved historic sites filled with Robertson County history or to events related to historic events. This modern presentation attracts the "digital" generation who might otherwise have been unaware of the rich county history.  | Mar 30, 2012 7:48 AM  |

| 16 | Our biggest project of the year was to begin the restoration project of the Old Pontotoc Cemetery in Pontotoc which is in the northeast part of the county. The cemetery was abandoned in 1887 following a horrific typhoid epidemic and basically little has been done since the 1970s. Two hundred fifty feet of fencing has been torn down by feral hogs and many of the tombstones were knocked over by them. There are also many, quite deep holes that the hogs made. We have raised a little over \$2000 to replace the fence. This will be an on-going project as it will take over a year to clean and clear all the brambles, prickly pear, and weeds as well as trimming trees, filling in the holes, and burning brush. Many of the cairns are knocked down as well as many tombstones. And, many of the tombstones are broken and we hope to get a group from the RIP to help us in restoring the tombstones. We feel this is important because the pioneers who are buried there were important to the settlement of this part of Mason County and their resting places should be treated with respect and should be maintained on a regular basis. We hope this will benefit the citizens not only of the Pontotoc area but the community of Mason because it will show that the citizens are cognizant of their past and to show that we value the pioneers who settled here and show our respect to those who have gone before us. It will show younger family members that we still care about our ancestors no matter how long ago it was; after all, many wouldn't be here today if it weren't for those folks buried there! We will eventually apply for this cemetery to be designated as a | Mar 28, 2012 1:50 PM  |

Texas Historic Cemetery which will show that we are proud of our history and of the people who settled in this county over a hundred years ago. We are hoping that folks in the Pontotoc community will take up where we leave off and maintain the cemetery and take pride a very historic area. We have had help from the people of Pontotoc as our cemetery work days and hope to incorporate the help of the Boy Scouts and other school groups to help in the labor. (We also have two other cemeteries that are on our list of historic sites that need a lot of work as neither of them have cemetery associations to care for them).

| 17 | Volunteers updated a survey on RTHL(Registered Texas Historic Landmarks) sites in Colorado County for the Texas Historical Commission. RTHL data forms provided by THC were completed by these volunteers and photos and GPS data were taken at each of the sites. Partnerships involved were between CCHC volunteers interacting with residents or landowners at the sites and individuals in the communities of Columbus, Weimar, Eagle Lake, and Oakland who were long time residents and provided some needed information or additional information. Volunteers were made aware of the efforts involved in obtaining these markers and the need to get other qualifying sites designated. It is important to visit these sites to appreciate what the owners have done to maintain them. Conversation with owners on a casual basis provided opportunity for outreach. The updated forms and photos were provided to the THC by the CC Marker Chairperson.   | Mar 27, 2012 3:06 PM  |
| 18 | The Bandera County Historical Commission finished placing Western Trail Markers throughout Bandera County in 2010. In 2011 the final stage of this project was completed - placing a Bronze Western Trail Story Plaque in the Western Trail Heritage Park on Main Street in the City of Bandera, Texas. David Burell, BCHC Western Trail chairman, received donations for 3 trail markers from the descendants of Polish families who settled in Bandera County in the late 1800s, and 2 donations from families who came to Bandera in the mid 1950s. All 5 trail markers have a metal plate attached with donors name. The City of Bandera Economic Development Corporation and the City Council of Bandera partnered with the BCHC to install the Bronze Story Plaque The information on the Bronze Story Plaque was written by Rudy Robins and proofread by David Burell and installed in the Western Trail Heritage Park on Main Street in the City of Bandera, Texas. Bandera County is the first county in Texas to place Western Trail Markers throughout the county, from north to the South. The Western Trail Markers and Heritage Park with Story Marker provides historical information about Bandera County for tourist and residents. | Mar 24, 2012 12:21 PM |
| 19 | One of DeWitt County Historical Commission's major projects for 2011 was to restore the Texas Centennial Marker at the east entrance of Cuero on Hwy. 87. This marker was one of the 15 that was erected by the State of Texas which has a bronze plaque on the face designed by Raoul Josett. A partnership was formed with the Keep Cuero Beautiful Committee (KCB) which had recently received a grant for approximately \$30,000, the City of Cuero and the Texas Highway Department. The highway dept provided an architect for planning, the KCB provided the plants, walkways and manpower for the landscaping, the City provided water and electricity and the DCHC members worked on cleaning, restoring the monument and sold 8X8 pavers to be placed in the 12X12 area in front of the monument. The pavers are engraved with family names, dates,  | Mar 22, 2012 8:08 AM  |

businesses and early communities of the county. Since the project has begun citizens have become aware and proud of a marker that is in only 12 counties out of the 254 in the State. Commission members have given programs to organizations concerning the project. The community has responded with enthusiasm. Over 259 pavers have been sold. A dedication of the area is planned for April. (The park was originally made through the WPA and CCC programs.) This project not only serves to preserve the historical area but welcomes visitors to the area and furnishes history of the county.

Artwork, pictures, and video will share with them the period of time between 1850 and 1915 when El Paso was growing to its prominence in the history of the Southwest. The intent is to set it up in such a way as to allow us to keep the information fresh, giving cause for these visitors to desire to see "what is new in Old El Paso."   | Mar 20, 2012 2:51 PM  |
| 22 | First weekend of June each year we produce a Cowboy Breakfast where we honor pioneers and/or pioneer families of Upton County. We get a family member to write a 15-20 minute story of the family and then read it to the audience. It is then reported in our local newspaper. HONORING! The partnership is within the UCHC. We have done this for years and each member has his or her job and things go along smoothly. Choose honorees, send invitations, shop for food, carry utensils to site (McCamey or Rankin), cooks get busy, feed honorees and friends, families and hungry folks. The public not only learns about the families honored, but what the county was like when they came into it, how times have changed, what brought them to this country, what needs to be saved for historic reasons and how they can help and how important it is for them to record their history as they go along. The communities have learned how much fun, how much learning is available, and see some folks in a different light. In my opinion it opens the eyes of some of the importance of preservation and what it will mean to others in time to come. | Mar 20, 2012 8:31 AM  |

Researched the history of 2 bldgs. that were saved from demolition and restored, then incorporated into the judicial center. We partnered with Livingston Main Street and Polk County Heritage Society. There was a great deal of excitement when workers covered an old sign "OK Grocery" painted onto the brick surface and paper artifacts found in the store's basement. This generated a number of articles in the "Polk County Enterprise," our local newspaper, further educating the public regarding preservation.  | Mar 20, 2012 7:31 AM  |

We have spent in the neighborhood of over \$300,000. and still have work to do there. We have had the good fortune to have many people interested in seeing the building restored, from bankers to ex-students, and the general public. In the beginning we have skeptics who thought we had lost our minds to try to save the building, time and weather had taken its toll and it was in very sad shape, sometimes most discouraging We have compiled three histories of the county, creating much interest. When we began restoring the rockwork on the outside of the ad building interest really began to grow in the preservation of our historic building. The ad building was build in 1893, deeded to Wise County Historical Society, 1967, some \$300,000 has been spent in restoration. Many people have shown an inerest in seeing it restored. It was in poor shape when it was acquired. Preservation has created much interest. | Mar 19, 2012 7:35 AM |

Following the completion of this project, the Goodnight Cemetary will be researched. Historical Markers have been charted. The historical marker for Goodnight College has been sought and not found. The historical marker for the first battle of the Red River War has disappeared, been hunted and found and replaced and disappeared again. The Town of Goodnight was designated as historic town of Texas in the early 30's. The roadside parks of Armstrong County have been closed and we were invited to move the large granit marker which was the historical marker at the time. We moved it to the Community Center of Goodnight and relace it there in front of the building. We also place the historical school bell there.   | Mar 18, 2012 8:07 PM |

Funding from Humanities Texas helped us to advertise the events and prepare handouts for visitors where participants dressed in character and told about their life as they stood by their gravesite. 300 people came in March and 400 in November and were enlightened and educated about a forgotten time period of our county history as well as a forgotten cemetery in the heart of Corpus Christi along with the Corpus Christi Veterans' band. The events yielded a further desire by community members to understand more about a cemetery that holds the some of the oldest military burials west of the Mississippi and needs our help in preserving the history and restoring broken head stones. One of our goals is the restoration of broken head stones These outreach events have inspired leading members of the community to form a group to see how we can partner together to preserve this site. We determined to set aside half of our annual budget for that purpose--with an enthusiastic approval by our county commissioners. We had a grant committee come up with a set of guidelines for application and we host a workshop on grant writing to help all groups have an oportunity to receive a grant.This past year we approved 10 projects for funding--totalling \$23,000. plus another \$2500 in an emergency grant ---\$25,500 in all. Projects included fencing around historic sites , conservation of a portrait, digitizing old newspapers, displays in museums, preservation of historical videos, gravestone preservation, gravestone marker repair, security doors on old churches, and an animated milking cow for education at a farm museum.This grant program is open to all participants of our "Coalition". the historical commisssion calls a quarterly meeting of all preservation groups in the county to share information and activities with one another. We share county information also. To all who participate--we invite them to apply for the grant. Our reaching out to local preservation groups has made a tremendous impact on their ability to work on projects and promotes a comradery with-in the County. We are all in this preservation work together and this shows great support from the county. Publicity inturn follows and the Coalition is growing. | Feb 28, 2012 10:00 AM |
| 49 | Cultural resource surveys Our Commission, through our Certified Local Government Committee, has initiated a series of cultural resource surveys in Travis County outside of the Austin city limits. The survey projects are supported by the Travis County Commissioners Court and involve officials and individuals in the various County communities. with experienced cultural resource firms in the county and the CLG program staff within the Texas Historical Commission. The projects have resulted in the identification of historical resources still remaining in the county – ahead of future development. They have also created a new awareness of cultural resources for residents and local officials in the County. The greatest impact from the projects is a new appreciation by the Commissioners Court of the cultural resources that still exist in the county precincts.

50	The CHC initiated a commemorative glass Christmas ornament annual sale. This year's ornament had a picture of the 1885 Courthouse on one side. The ornaments were placed in two gift shops in Center and one in Shelbyville. 500 ornaments were ordered and 130 have been sold. The profits will go toward the renovation of the old clerk's building. The ornament sale was well-received by the public, and the shops wish to sell again in 2012. This year's ornament will feature a picture of a different historic building.	Feb 28, 2012 6:26 AM

51	THIS PROJECT IS THE DEVELOPMENT OF HISTORIC INFORMATION SIGNS PLACED AT SITES ALONG THE EXISTING HIGHWAYS IN BREWSTER COUNTY. THE INFORMATION PRESENTED ON THESE SIGNS IS BOTH IN TEXT AND PICTURES WRITTEN TO INFORM THE LOCAL AND VISITING TOURIST ABOUT PAST HISTORIC ACTIVITIES THAT OCCURRED IN THE LOCAL SITE AREA. THE PRESENTATION SIZE IS APPROXIMATELY 3 FEET BY 5 FEET ON A MATERIAL THAT WITHSTANDS PUBLIC ABUSE. IT IS MOUNTED ON A STEEL FRAME AND PIPE SUPPORT POST. THE UNIT IS LOCATED ALONG THE HIGHWAY SO AS NOT TO CREATE A TRAFFIC HAZARD. THE PICTURES ALLOW THE YOUNG SCHOOL STUDENT TO UNDERSTAND THE IMPORTANCE OF WHAT HAPPENED IN THE PAST AT OR NEAR THIS LOCATION. THESE ARE UNLIKE THE THC MARKERS, THESE SIGNS ARE SIMILAR IN STYLE, EASY TO RELATE TO THE PUBLIC AND SLOW DOWN THE TOURIST FOR MAYBE ONE OR TWO MORE DAYS SPENT DOLLARS IN THE AREA. THEY ARE TO INFORM AND ALSO CREATE AN ECONOMIC BENEFIT TO AREA BUSINESS. THE COST OF THESE SIGNS ARE PAID FROM THE TOURIST HOTEL MOTEL TAXES THAT COLLECTED FROM THEIR ROOMS. THE ABILITY TO DEVELOPE THIS TYPE SIGN IS MUCH EASIER THAN A THC MARKER. THEY PROVIDE A DIFFERENT TYPE SERVICE FROM THE THC METAL MARKER. THE PICTURES ADD INTEREST TO EACH UNIT. A ROAD LOG IS BEING DEVELOPED TO PROVIDE SITE LOCATIONS FOR THE GREATER THAN 400 MILES OF ROAD LENGTH IN BREWSTER COUNTY. THE LOCAL HISTORY IS OVER A PERIOD OF SOME 400 MILLION YEARS, FROM ROCK'S TO MANKIND. AT THE PRESENT TIME ABOUT 30 SITES ARE DESIGNATED FOR A SIGN. THE HISTORIC EVENTS OR NATURE CONDITIONS DESCRIBED IS ASSEMBLED BY PROFESSIONAL PERSONS WITH KNOWLEDGE ON THEIR SUBJECT. THIS PROJECT INVOLVES PERSONS FROM THE BREWSTER COUNTY HISTORICAL COMMISSION, THE CENTER FOR BIG BEND STUDIES, THE ARCHIVES OF THE BIG BEND, THE MUSEUM OF THE BIG BEND, HISTORICAL RESEARCH AND GRAPHIC DESIGNERS. WE HAVE MADE PRESENTATIONS TO OTHER CHC AND COUNTY COURTS THAT HAVE EXPRESSED INTEREST TO START A SIMILAR PROJECT ALONG OTHER WEST TEXAS ROADS. PRESENTATIONS HAVE BEEN MADE TO REPRESENTATIVES FROM TX DOT, ELECTED REPRESENTATIVES' BOTH LOCAL REGIONAL AND STATE AND THE GENERAL PUBLIC. EACH SIGN	Feb 28, 2012 1:41 AM

IS PRESENTED TO THE CHC REVIEW AND COMMENTS PRIOR TO FABRICATION. TX DOT REVIEW IS ALSO IS ALLOWED TO MAKE THEIR COMMENTS ON EACH UNIT. A GENERAL WRITTEN AGREEMENT BETWEEN BREWSTER COUNTY AND TX DOT IS NOW IN PLACE FOR THE 30 PLUS SITES.

| 52 | <p>. Burnam Ferry 1936 Centennial Monument - This monument was taken from Fayette County in the 1960s and the verbiage was cut out and changed. It was then placed in Weimar (Colorado Co.) without the permission of the THC. In 2008, the CHC was advised of the missing monument. After 4 1/2 years of effort, it was returned to Fayette County as a 2-sided monument since it was deemed that the Fayette &amp; Colorado County sides were now both part of the history of the monument. It was re-dedicated in November 2011. . Partnerships - County Judge, Commissioner's Court, 5 local newspapers, American Legion, TexDot . Education - 150 students from 7th grade Texas history classes and at least that many others learned about who Jesse Burnam was and why the ferry crossing needed to be burned. . Impact - It was hard not to impact this group. With their Colors blazing, the American Legion led the speakers down the highway to the monument site. Speakers included the County Judge, State Senator, THC Deputy Director, THC Marker Coordinator, and the CHC Chair. Commemorative items and programs were given to participants. The ceremonies concluded with a cannon firing. Approximately 30 members of Jesse Burnam's family were in attendance. Lunch was served after the ceremonies and a time of visitation with the Burnams was enjoyed by all.</p> | Feb 28, 2012 12:48 AM |
| 53 | <p>The 175th Anniversary of the Texas Revolution 1835 - 1836: no event occurred in our county during the Revolution. We brought the major events and the heroes of the Revolution to Tom Green County by conducting a major Texas Independence Day (March 2) event. County Judge, Commissioners Court and large group of citizens attended and participated in ceremonies. Speakers told of individual heroes and their roles leading up to independence. Flags of the Texas Revolution were paraded and posted by the Tom Green County Historic Honor Guard. Rifle volleys were rendered by Fort Concho troops and the Sons of Confederate Veterans Honor Guard. Flags were flown daily at the courthouse on the correct historical date. Brochures detailed the history of the flags and the events associated with the flag and the people involved in the important battles of the revolution. Our county namesake, Tom Green, was honored for his many roles in the fight for independence. Men who came west and settled in our part of Texas after the Revolution were honored. Historical exhibits of the Texas Declaration of Independence, photos of the heroes of Texas Independence were included as were historic maps of early Texas were included. Harrison County communities show a high level of creativity and ingenuity in recognizing and preserving their authentic Texas sense of place. The presentation will continue to be made annually during Preservation Week in May at the historic 1901 Harrison County Courthouse in partnership with the HLPB annual preservation awards. The community learns about the different buildings and people awarded through the media coverage. The media coverage brings the restoration and rehabilitation of historic buildings and the preservation work of volunteers to the forefront and allows the public to gain the knowledge of the importance of preservation and county history.

| 55 | The Bell County Historical Commission produced and distributed a map showing locations and information on over 170 cemeteries in Bell County. Each cemetery is identified by an appropriate symbol, which identifies the entity that has responsibility for the cemetery. These range from cemetery associations, commercial cemeteries, cities, private, church, federal (some are on Fort Hood), and the county. This was a partnered endeavor with contact being made with several land owners, cemetery associations, cities, and other entities. The City of Temple and the Central Texas Council of Governments provided some labor and equipment to assist in this Bell County Historical Commission Cemetery Committee effort. Several of the 40 x 52 inch maps were laminated and mounted on foam boards for display in county offices where deeds and maps are recorded or maintained. Several were also placed in public libraries, and museums. Agencies not desiring the large wall-mount map were presented 36 x 42 inch foldable maps to use as they desired. Additionally, these maps are now on sale at the Bell County Museum for anyone who desires. These maps, while informational, condense many pages of information to a single document where information on the county cemeteries is available to the public. | Feb 27, 2012 8:32 PM  |

We emphasized the progress and changes of our county from 1981 in order to preserve our present history for the future generations. We have a comprehensive list of veterans from Parmer County who have faithfully served our country. A copy of the history book was presented to each of the county schools to encourage the appreciation and use of the book.   | Feb 27, 2012 2:16 PM  |

We had a small ceremony of dedication and invited the members of the committee who designed the flag to be present. We also invited the community and school. The school children were very intrigued to hear the history behind the flag and are still talking about it. This has initiated an interest to include some of our pictures in the hallways of the school depicting our history.  | Feb 27, 2012 12:38 PM |

The work is a collaboration between the Museums and local photograph Carl Oberman who took the modern photos and other citizens who provided some of the historical images. The book educates the reader on changes in the history of the city of Denton by depicting what remains and what has been lost. The authors hope to encourage the community to continue to preserve the remaining historical structures and events in the city of Denton.   | Feb 27, 2012 10:22 AM |
| 62 | Several cemeteries in the City of Del Rio and Country of Val Verde are in desperate need of restoration due to erosion. The erosion is due in large part to the flood of 1998. A "Friends" group is working to restore the old Loma De La Cruz Cemetery and several of the comssion members are working with the group. However the San Felipe Cemetery is also in need of repair but it does not have a Friends group. We have donated the Friends of the La Loma group \$500 to assist them in the purchase of some wrought iron crosses to replace lost grave markers. Unfortunately the County Commissioners have not seen fit to share with the VVCHC in the Hotel Occupancy Tax. We only receive 1200 a year from the Commissioners. We would like to get assistance in the restoration of both cemeteries, our best avenue is in the partnering with the existing Friends group. The Friends group is attempting to secure donations and we do what we can to help them. | Feb 27, 2012 3:33 AM  |

With in the first few months of 2011, Phase one of the project, involving stabilization of the walls and foundation and the addition of a new roof and window lintels, was completed.To show off the Jail's new look and raise additional funds, the Commission welcomed about 200 guests to their "Jailhouse Rock" Gala September 24. The successful event gave the community a first hand look at the exterior renovation and generated excitement about plans to complete the interior restoration and turn the historic structure into a county museum.  | Feb 26, 2012 5:29 PM  |

This project has provided positive feedback for the both the JCHC as well as the Boy Scouts.

Through joint efforts with this important program, we were able to construct a very usable map of our county which includes all the important historical areas of our county as well as colorful photos of various areas. It is our belief that this map will serve to peak the interest of visitors to our county and instill a sense of pride in those who inhabit these varied communities. It will also serve as a reminder that populations vary according to the ability to engage in commerce or manufacturing as well as the social and religious mores of an area. This map enhances the historical marker book which was compiled through the efforts of several HCHC members and which may be used as a guide along with the map for self-guided tours.</p>   | Feb 26, 2012 4:24 PM |
| 67 | <p>Project 1 was and continues to be NCHC publishing a book about Newton County's historical courthouse by means of text and photographs. To accomplish this, the Courthouse Book Committee is made up of one person from each of the following NCHC's committees: In-House Publishing, Finance, Properties, Transcribe, Historical Marker and the NCHC Chair. Non-NCHC members are the County Judge, a photographer, an editor and a retired Newton Co. District Attorney. All members of the Courthouse Book Com. were either born and raised in Newton County or are married to a Newtonite and have lived in the county many years. The courthouse's story begins with its conception in 1845 to its completion in 1903; to being nearly razed by fire in the year 2000 and its restoration that continues today. The last chapter will tell of its Re-Dedication Celebration. As stated in THC's Preservation Plan for Newton County Courthouse of 1902: "The county courthouse, the earliest permanent building to appear on the public square, represented organization, prosperity and, perhaps most important to newly independent Texans, self government. " "Historic county courthouses do not just symbolize county pride and prosperity, they ensure it..." which continues to be the case with Newton County's courthouse. NCHC truly believes this pictorial history book will have a lasting impact on the community's awareness and admiration of their historic county courthouse.</p> | Feb 26, 2012 4:16 PM |

| 68 | <p>The MCHC has always considered preservation a main priority for Milam County. Much of our effort is visible through the MCHC Preservation Grant. The Preservation Grant Fund (PGF) is funded by donations from Milam County, cities/communities in Milam County (Rockdale, Thorndale, Buckholts) and from citizens in Gause. The Preservation Grant committee awards the matching grants for preservation within Milam County using the funds that were donated, following guidelines of the grant process written in 2008, when the PGF began. In 2011 \$13,700 in grant money was awarded to 9 preservation efforts in Milam County. The public knows about the PGF because of news releases (radio and newspaper) reporting the application process, the grants that were awarded and often what the completed work looks like (pictures in the newspaper/articles). Applications for the grant are available on the MCHC web site and in businesses and Chamber of Commerce in Rockdale and Cameron. The impact of the PGF in Milam County is tremendous. We report all information about the grant to the Commissioner's Court. The \$13,700 awarded to nine preservation efforts in 2011 resulted in \$27,400 of preservation work. (Over the last five years , over \$100,000 dollars of preservation work has been completed in Milam County.) Citizens throughout Milam County can see the results of work in/on buildings that received the grants in different areas of the county (the Gause Community Center, the Baily Bank Building in Milano, the La Esculita School in Rockdale, the Kay Theater in Rockdale and the SPJST Hall in Buckholts), the two markers that will be at Apache Pass and Sugarloaf Mountain, restoration on a dining car at the Rockdale Depot Museum, signage on the El Camino Real de las Tejas National Trail and storage for historical papers in the Milam County Museum. Citizens in Milam County see that preservation is important to their communities because scarce money is used for preservation! We work with the government entities in each community sharing previous preservation successes, reporting to city councils and through letters and presentations requesting funds for the PGF.</p> | Feb 26, 2012 4:02 PM |
| 69 | <p>We initiated an oral history project this year. We felt that we were losing valuable historical information each time one of our older citizens died. We began by asking people to participate in interviews which were recorded. The recorded interviews are being transcribed and will be published on our CHC website. Currently we only have one online, but plan to have at least 10 ready to go online by June. In the future, we may also publish these in book form. We have not partnered with any other organization on this project except the lady who has voluteered to transcribe the interviews. We have talked with the director of the Confederate Reunion Grounds, a THC site, on possibly doing some interviews jointly. We believe that the public will benefit from the information provided by this project. We feel it will provide information that is currently not available in public records, published works, local libraries, and archives. People have responded well to the project. We are now having people asking to be interviewed so they can share their stories.</p>  | Feb 25, 2012 9:00 PM |

| 71 | Project 1: Completion of Texas Historical Commission Texas Plains Trail Grant "The Native American Experience on the Plains through the Eyes of Quanah Parker" This project fulfilled the requirements of the grant from THC. The work on the grant included 306.95 hours completed by Jacquie James as part of her employment by the museum. The grant required the City of Crosbyton to produce a logo, a brochure, a website, and four signs for kiosks in Crosbyton and at Silver Falls. The work included 1. Researching the Quanah Parker story through CCPMM holdings, Southwest Collection holdings, and biographies. 2. Selecting information that expanded the understanding of the role of Crosby County in the Quanah Parker saga. 3. Selecting graphic artist, Angeline Collier, and working with her to develop a logo, a theme in the art work, and art for the brochure, website and kiosk signs. 4. Selecting artifacts in the museum collection to use in the artwork. 5. Writing text for the brochure, website and signs. 6. Reporting to the Texas Historical Commission. The work has involved many of our board and members spending time examining contents of our space, and finally getting to the point of filling papers in the appropriate filing cabinets. Scanning of the Neyland Collection of early Anderson Co. History was accomplished by one member. Others made decisions to put some items in storage out of office. Unusable items were discarded, with pictorial notes made on every step. This has already helped our staff be able to find some requested articles and information. A ceremony was held at near site of the historical marker that included the Sons of the American Revolution, the Daughters of the American Revolutions, Sons of the Republic of Texas, Daughters of the Republic of Texas, Mayflower representatives and members of the Laredo Guard, and men dressed in period clothing, shooting their flint rifles. A symposium was in Pleasanton following the dedication ceremony. The public was invited with very good attendance. Speakers were Al McGuire, TX-Dot archaeologist, Richard Santos, and Norman Porter. | 77 | In 2007, the Jefferson County Historical Commission was informed by the Golden Triangle Storage Company (GTS) (a subsidiary of AGL Resources, Inc.) that they would be conducting cultural resource investigations on a portion of a GTS's project located within the boundary of the Lucas Gusher/Spindletop Oil Field (listed on the National Register of Historic Places (NRHP) and as a National Historic Landmark) south of Beaumont in Jefferson County. Being considered a federal undertaking needing to be in compliance with Section 106 of the National Historic Preservation Act of 1966 (NHPA), the purpose of the cultural resource investigations was to identify specific historically significant cultural resources in the area GTS was seeking authorization to construct and operate the GTS Project which included excavating the salt dome under Spindletop for the use as a natural gas storage facility. From the beginning of the project, the Jefferson County Historical Commission (JCHC) has been kept abreast of the archaeological surveys and excavations being conducted at the site of the original Spindletop oil field by GTS. In February, 2011, a tour of the site was arranged by GTS for JCHC members at which time an invitation was extended by James Karbula, Ph.D., RPA, (Regional Project Director of the Williams Self Association, Inc.) to participate in an eight-day excavation of two of the more promising areas for cultural resource discovery with several JCHC members including JCHC Advisor County Commissioner Brent Weaver accepting. In March, 2011, several JCHC members along with several County laypeople and Boy Scouts participated in the archaeological excavation resulting in the find of items such as buttons, glass, pottery and even a leather shoe. With two local newspapers and two television stations covering the work, a renewed interest in the Spindletop oilfield took place. The artifact collection was processed and by the end of the year a report was in the final stages of completion by Dr. Karbula. The JCHC has asked consideration of lesser significant finds from the site be allowed to be viewed in an exhibit in the JCHC Mini Museum located in the Jefferson County Courthouse after which the finds be donated to the Spindletop Museum on the Lamar University Campus in Beaumont. | Feb 23, 2012 1:19 PM |

78	We are involved in an ongoing project with the District Clerk and County Clerk to preserve and restore the oldest records in the county. All of our funds are expended on this project. We have been involved in this project for five years.	Feb 23, 2012 1:05 PM
79	MCHC continues to hold History Roundtable Forums across the county. These forums, well promoted, are open to all. Often a speaker presents a talk on which they are "expert" which is followed by an open exchange of the sharing of stories on local history. Some come to share, other to listen and learn. Other times there has been the situation where people just sit around a big room and exchange tales. Some bring items or pictures to support their story. The stories are open to anytime period and any place. As this project is in it's second year, hundreds of people have gained greater insight into the colorful history of Montague County. Most of the times, these forums have been recorded. The more of these forums we hold, the more information, we, commission, learn. There are always lots of great stories told.	Feb 22, 2012 10:56 PM
80	Two of our members (Jay Moore and David Gibson) are actively involved in making videos about "History in Plain Sight", which gives local history information. These are shown on local TV after a premier showing somewhere in the community, with great support from citizens from all ages and walks of life. On June 9, 2011 during Art Walk, the Abilene Public Library hosted the event for "Abilene Beginnings". It was shown that evening and was well attended by the public as well as by the Commission members. Jay was even given a national award for his work. People in Taylor County are much more aware of the history of the county and like to see that much of the historical sites are still standing, like rail roads, dams, power plants, etc. With the local TV station showing these videos many comments are given showing the pride the citizens of the county have over their history that many were not aware of before. Videos are available for sale through the Abilene Preservation League.	Feb 22, 2012 9:34 PM
81	2011 Tomato Fest, Jacksonville Chamber of Commerce At the Jacksonville Tomato Fest members of the Cherokee County Historical Commission provided a 'look back' at the tomato industry in the county. Historical photos, documents and newspaper clippings from the early 1900s were displayed in order to 'tell' the story of the tomato as it relates to the county's history. A multimedia presentation included a slide show of local farmers in the fields and videos of local tomato producers and businessmen. On site at the Festival CCHC conducted oral/history video recordings with those who worked in the tomato sheds in the 1920s. A portion of the exhibit examined the history of the Jacksonville Chamber of Commerce and its role in the festival over the years. CCHC members were on hand to answer any questions and to assist with the preservation of family stories and historical photographs; this information was included in our county archives. For many years CCHC and the Chamber of Commerce have worked diligently to ensure that the history of this major event is preserved and shared with the community.	Feb 22, 2012 4:48 PM
82	The MCHC bylaws were revised to follow the suggested THC model. The emphasis is on committees in order that THC preservation goals may be met. Before revision, our "management" style was very much from the top down and there was poor communication among members and there were many unfinished projects. Appointees indicated their committee preferences and have participated willingly in identifying committee goals and projects. The bylaws	Feb 22, 2012 3:38 PM

| 84 | Our CHC has been working to recognize all of the historic cemeteries and churches in the four communities in our county: Panhandle, White Deer, Groom, and Skellytown. Although this is an ongoing project, in 2011, we were able to recognize the White Deer United Methodist Church with the dedication of a subject marker in April and the White Deer Cemetery with the dedication of a Historic Texas Cemetery marker in November. The Sacred Heart Cemetery submitted their application and received their designation as a Historic Texas Cemetery, and submitted an application for a subject marker for the Sacred Heart Catholic Church, founded by the Polish settlement in White Deer. The First Baptist Church of White Deer received notice from THC that their church, built in 1920, was approved for a Recorded Texas Historic Landmark marker. We are also working with the churches and cemeteries in Groom and one in Panhandle. Multiple partnerships were formed including: The Administrative Council of the White Deer UMC; Northwest Texas Conference of the UMC; White Deer Cemetery Association; Sacred Heart Parish Council; Sacred Heart Cemetery Association; FBC Board and Congregation; White Deer Mayor and City Council, and Carson County Judge, Lewis Powers. We educated the public about preservation and county history through these projects by getting them excited to work together and gather histories of their churches and cemeteries; putting all of the information in the local and area newspapers; working on the application and dedication process with the different groups; and helping them to preserve the history they have gathered through the markers that preserve their history for future generations. We helped them to realize how much of the history of our small communities is associated with our churches and found in our cemeteries. | Feb 21, 2012 10:13 PM |
| 85 | The Henderson County Cemeteries were updated with new burials. Member worked with Cemetery Associations to accomplish this. This project preserves the history of the cemeteries cataloged for easy access of people trying to find their ancestors. This also is far reaching for people in other counties and or states looking for ancestors in this county  | Feb 20, 2012 12:10 PM |
| 86 | This year the Franklin CHC/FCHA hosted a paper quilt show utilizing the talents of the 3rd and 4th grade students from our local elementary school. The project consisted of the (120) children decorating two 3x5 index cards with a depiction of something they felt represented the town and county. The cards were collected, arranged and secured to a backing of bulletin board paper to create a "quilt" for each teacher's home room class. The quilts were then hung in one of our museums for display during the county's arts and crafts fall festival. This project was a great opportunity to work with the school and provided a new source of volunteers (parents). Prizes were given to the top 3 class quilts as voted by the FCHA board of directors/CHC appointees. The prizes included historically themed books that were donated to the children's classroom library. By hosting this event, we sparked a new interest with our school children in preserving and celebrating history in our county and in general. The event also brought over 300 new exposures for our facility. We also served as a treat stop for the city's   | Feb 20, 2012 10:46 AM |

| 87 | Over all the marker program, the LCHC is now able to help fund most or all of the cost of all marker types. We have started a "adopt a rural school, cemetery" within the LCHC. This gives the membership to reach out and contact the sometime few students that are left from the rural school system in the country. The rural school system in Lavaca County educated 90 percent of the residents from the 1890's to the 1950's. Three of the rural schools now remain as Independent School Districts. The LCHC partnership with our rural cemeteries as well as the small towns in the county has been and continues to be a source of not only enjoyment to our members but it gives everyone in the LCHC a chance to learn more about the counties history. Besides the historical marker program, the LCHC refers to our projects as the "Reach Out and Touch Local History" directive.   | Feb 20, 2012 10:12 AM |

| 89 | In 2009 members of the Mineola Landmark Commission and the Jr. Historians were unable to continue cleaning and restoring the old abandoned cemetery, The Ford Green Cemetery west of Mineola. A private group including Lou Mallory, Chmn. of the Wood County Historical Commission, began work on organizing a cemetery association, a tax-exempt 501(c)3 designation to be secured, and in November of 2009 the District Judge, Tim Boswell, by order of the court authorized this association. This group of four people with the assistance of local citizens who have volunteered to help with locating unmarked graves, the county commissioner, Jerry Gaskill, donated one of his workers and a small back hoe for use to find unmarked graves. Several newspaper articles have been written about the cemetery and letters have been sent to local residents telling them the restoration being done and asking for financial assistance. We have been somewhat disappointed about the lack of interest from local people and lack of financial assistance given. We hope that by restoring and maintaining the cemetery will remind everyone of the duty we all have to preserve the resting place of those who came before us. The biggest disappointment we have had is that Bethel Church of Christ who originated the cemetery and later moved in to Mineola and formed the Broad Street Church of Christ has not responded to requests for both help in maintaining the cemetery and providing financial assistance. | Feb 19, 2012 10:20 AM |
| 90 | The commission, with the help of the County Commissioners, has set up a Cemeteries of Austin County office. We have a staff person, paid by the commission, with a computer, telephone, internet and records for more than 250 cemeteries in the county. We have been pleased with the community response and the many questions asked to the staff person.  | Feb 18, 2012 7:34 PM  |

Griffin Echo, when the newspaper was moved to Fort Griffin in the 1870s. It is now The Albany News. Commission member, Shirley Caldwell, partnered with the current newspaper owners, in the research and writing of the marker text. The Civilian Conservation Corp camp marker highlights the CCC camp's work in building the Fort Griffin State Park facilities, from 1939-41. The marker will be located on the site of the former camp which is now part of the current Fort Griffin Historic Site.

95	Oral History Project Utilized funds from a major fund raising project to pay for the transcription of 6 oral histories. This included transferring the interview from tape to digital storage. These oral histories are stored in the Local History Section of the Victoria College/University of Houston Victoria Library. 97	An annual project our CHC participates in is the Historical Lecture Series that is free and open to the public. This initiative was started in 2004 and is in partnership with the Rockwall County Historical Foundation and Rockwall County. We meet monthly February-May and September-December on the second Friday of each month at noon in the courtroom of our downtown historic courthouse. The County donates the meeting space. Average attendance is 40 community members. Each month, either the CHC Chair (Sheri Fowler) or a guest speaker presents a program about one aspect of Rockwall County History. This is a visible presence for the CHC and provides valuable preservation information to our community. Interestingly enough, we have an avid following of "regulars," but each month--depending on topic--we also draw in many guests. We also partner with our local media to run stories about these programs--both before and after--and this also contributes to a very public presence in our community.	Feb 17, 2012 8:25 AM
98	A pictorial history book was published. Photos were solicited from the community, along with statements of historical significance of the photos. Photos from the museum archives were also used. This book was a way of preserving photos and making them available to the public. The impact was immediate, as people purchased the book and then came to the museum, seeking more information on the book's subjects. This book caused citizens to be more aware of the CHC' purpose. Also, additional historic photos were donated to the museum after people had a chance to see the importance of old	Feb 16, 2012 1:19 PM

photos in preserving our history.

The CD can be used for presentations about historical buildings.   | Feb 16, 2012 11:42 AM |
| 100 | CHC was invited by UDC chapter to speak about a man who had died on the Matador Ranch in 1902 and was buried in an unmarked grave. The resulting research uncovered the colorful past of Ridge Greathouse who was tried for treason in The Chapman Affair of 1862 for outfitting a schooner to be used as a privateer to secure gold to help the Confederacy buy arms, ammunition, and supplies. CHC was invited to speak to the South Plains Geneaological Society and they also became interested in Greathouse and marking his grave near Matador. Both organizations donated to the monument and participated in the program and dedication of the marker. The event was covered by the Lubbock newspaper and resulted in much interest. CHC will make a presentation to the West Texas Historical Assn. in Alpine in March. A little known character in Motley County history has sparked much interest in his involvment of the Civil War and many events following including the Panama Riot of 1856, the secessionist movement in Canada, California, Central and South America, and Mexico, and a trail drive in Texas . | Feb 15, 2012 10:51 PM |
| 101 | The restoration of 1757 Presidio de San Saba was funded by a grant from the Texas Historical Commission. Part of the golf course had to be relocated, land purchased for an entrance, and archeologists helped define walls and historical significant places. An architect developed a plan, a CHC member volunteered to oversee the project, and the county and individuals provided in-kind help. Newspaper articles kept the public informed about the historical significance, project, progress, and celebration program (featuring THC, Congressman, Catholic Priest, descendent of a mission occupant, CHC chairperson, and others) in November. Many visitors have toured the facility. They are impressed with the interpretation signs and size of Texas' largest Spanish Presidio. The community has a positive perception and appreciation of preservation of Menard County History.   | Feb 15, 2012 10:21 PM |
| 102 | The Mills Co. Courthouse Restoration Project was completed in August 2011. Members were involved in the Restotation Committee for 3 years. They served as tour guides, greeters, and helpers wherever nedded. The history room was made accessable for a meeting room and research. This History Room was designated by the Mills Co. Comessioners Court "The Wallace Johnson History Room" in memory of our former Treasurer.  | Feb 15, 2012 8:03 PM  |
| 103 | We record and document all burials in Runnels County. We started to work in getting our eligible county cemeteries designated as a Historic Texas Cemetery. More and more, there are people being buried on private farms and ranches here in the county and we are trying to keep up with these.The Lutheran Cemetery has been designated as a HTC, and we have two other cemetery associations that want us to help get others designated., The Crews Cemetery has just been designated. We had a dedication ceremony for the Lutheran Cemetery, and the older residents came. It was a time to remember, and the   | Feb 15, 2012 7:21 PM  |

ceremony lasted much longer than planned. Persons are becoming aware and it has sparked interest in the community. We have just been made aware of a "lost cemetery" just outside of Ballinger. Ten acres was given by the GCSF Railroad for a cemetery when it came through Ballinger in 1886. We are contacting people that may have some connection to help us. As of today, there is no evidence of the headstones etc.

| 104 | BCHC is appreciative of all the excellent staff involvement any time we email THC. We did the RTHL survey for THC. We regularly do presentations about various ethnic groups and invite media to participate. There were 6 marker ceremonies in 2011 that were videoed and digitized for the archives in the Central Library. There is an inventory that extensive with our archives in the Central Library. Members serve on all the major historical associations in Bexar County (SACS, special exhibits for ITC, Los Bexarenos, NTHP local location, judging history fairs, TSHA education committee, Brackenridge Park Conservancy, Founders Day, guided tours of special areas such as cemeteries, downtown, teach Texas history classes at UIW. We do have good relations with the media and receive telephone calls from around the country for historical information. Our website is kept up to date. The support of THC is vitally important for us --just knowing all your historians are available whenever we need help--in record time. | Feb 15, 2012 3:26 PM |

| 107 | The Mission Nuestra Senora de Guadalupe was established in Nacogdoches in 1716. Although the present NCHC has very active heritage and archeological members, we do not have the staff and funding to fully prepare for the 300th anniversary, so our outreach program is including other organizations, city, university, and county officials to dream and scheme to make this celebration a statewide and national event. Part of our specific projects in our work plan is to systematically promote THC markers and signage which will provide historical information about our early Spanish heritage, most recently "El Atascosita," "Rancho of Bernardo D'Ortolan," "Rafael D'Ortolan, slave," and "Lazarine Cemetery."  | Feb 15, 2012 9:49 AM |
| 108 | An inventory of all Hill County unclaimed marriage licenses was completed and those licenses were boxed by years and placed in the HCHC office so they might be claimed by interested family members. Articles were run in local and area newspapers advertising the completed project and the license availability. The County Clerk had turned over the records to two Commission members and the process began. One of those members has since passed away but his legacy continues through the vast amount of information he left for future researchers. The project was completed by a few other Commission members and the records are now protected in a way that might benefit any future family from those marriages. Many of the original licenses have now been returned to their rightful families yet the information is still recorded for our county or future researchers.  | Feb 14, 2012 4:11 PM |

110	Dedication of Palo Duro Church site. This is the site of the earliest religious site in the county and various religious groups used the site/buildings. This is an important part of our county/local history. Locating all historical markers in the county and sharing this information with other entities in the county. Each marker holds an important place in our county's history. Plans are being made to recognize other buildings and/or sites in the county. Plans are in the making to have recorded interviews with early day teachers who taught in the schools within the county..of which there have been an estimated 70 such schools. DSCHC members are on the agenda to make presentations about our goals/work to various clubs, societies and local government groups	Feb 14, 2012 10:22 AM
111	Our CHC has had a booth at the ByGone Days sponsored by the Stephenville Museum each fall for several years, but this year we had an exhibit called Strollin' For Sweets (patterned after the old cake walks!). Members donated "sweets" and participants paid \$1 for tickets to try to be on the lucky number when the music ended. Then they got to choose their goodie from the table of desserts. All members donated prizes, and four manned the booth which was open from 10-3. Perhaps we didn't educate the public about the CHC in specific ways, but our large banner and the publicity helped identify us and everyone had a really good time. We gave the \$100 profit to the museum for their projects.	Feb 9, 2012 10:24 AM
112	The CCHC did not have a strategic plan and had not set goals to be accomplished. Two of our members had attended the THC Preservation Conference in Austin in the spring of 2011 where the statewide plan was unveiled. Our group decided to use the outline of the statewide plan to develop our own plan. We created a worksheet to review current activities and to develop the vision and goals for the group. We had a strategic planning committee to compile the results however all CCHC members participated in the survey process. We partnered with the THC on the project by using THC resources to develop our plan. The project was important because it allowed us to define who we were and determine our actions towards preserving our county history. A significant portion of our plan involved public involvement and education. The group felt it was important to know your vision and goals before you can impact the community's perception and appreciation of preservation in the county. Developing the plan gave our group a sense of worth and members became real excited about our future. The feelings were contagious to our County Judge and Commissioners who developed a real respect for the group.	Feb 8, 2012 3:08 PM

school children research their school projects, We are open on special days such as the Azlea and Fall Festivals and give tours as well as talks on the history of the courthouse and the old jail. We keep the morgue for all the old available newspapers of the town which gives the public better knowledge of the history. We have hosted one THC workshop and several local in order to inform the public of the importance of preserving the history and buildings of the county. I feel that it has been beneficial as we have seen an increase in inquiries into markers from different areas of the county which before never showed an interest.

| 115 | Replaced stolen Mclaren Massacre Marker. Re-dedication ceremony was held December 18, 2011 at marker site with approximately 30 people in attendance. County Judge Garry Merritt was actively involved and donated the limestone used to erect a stone monument on which to attach the marker. Beatie Rubio and other Txdot employees provided the materials and labor for this project. The Mclaren Massacre which occurred in 1892 was the last Indian raid in Real County which resulted in loss of lives. Hopefully this marker (set in stone) will remain in place for years to come to help inform the public of this tragic and historic event in our county's history.   | Feb 5, 2012 1:08 PM  |
| 116 | Oral History. Our efforts are currently geared towards recording the oral history of many of our county's elderly population. With the aging population, we feel it is ever more important to get their stories told before it is too late. This initiative is performed solely by the members of our CHC. Transcripts of these interviews are prepared and archived at the county museum which uses them to educate our children as to "how things used to be around here" and why we are who we are. The community has been receptive to our initiative and most interviewees are happy to participate. We try to cover important events in the county such as the big flood, integration, building of the highway, dams, etc. | Feb 4, 2012 12:59 PM |
| 117 | The Dallas County Historical Commission had not published its newsletter on a quarterly basis in several years. In 2011, we published a newsletter in October and began preparations for the January 2012 issue. We also began updating the mailing list to phase out paper copies and convert to electronic transmission. As part of this process, we formed a committee to update our mailing list and expand the range of our readership. We also began looking at statistics regarding the number of visits to the Commission website and how this information can be used to expand our community outreach.   | Feb 4, 2012 11:51 AM |

121	Restoration of the old Hardin County State Bank Building, which was built circa 1916. The CHC, The City of Kountze, Texas and Hardin County made contributions of planning and or funding, direct or indirect ,to get this project started prior to 2011, but work continued through 2011 and into 2012. Restoration of the building is a visible and positive success story in local historic preservation. It is doing a grate job of educating the public about much of our County's history. The CHC partners with the newspaper, museum, various organizations and families who help provide information for the articles. The weekly articles cover a variety of topics to appeal to a wider audience covering agriculture, archeology, black history, businesses, cemeteries, churches, education, people, plantations, communities, etc. Regular feedback is received from the newspaper readers expressing interest in the articles. The event commemorated the 100 anniversary of the Jeff Davis County Courthouse, the 100th anniversary of the Jeff Davis County Jail, the 100th anniversary of the Fort Davis State Bank, and the 50th anniversary of the authorization of Fort Davis National Historic Site. The CHC was responsible for publicity, activities, program of events, invitations, arrangements, etc. The CHC was totally responsible for activities at the county jail and the courthouse. At the jail, member (appointee) Lonn Taylor conveyed some of the colorful history and the many different uses of the building. the public to view by CHC members. Other events included speeches at the bank - a mock bank robbery in which the "robbers" were hauled off to the county jail; a BBQ lunch on the courthouse lawn; numerous activities (featuring the U.S. Army 1st Armored Division Band from Fort Bliss) in the afternoon at Fort Davis NHS; and a dance at the Union building sponsored by the Fort Davis Chamber of Commerce in the evening. Hundreds of people attended. It was a great educational, entertaining, community event that the JDCHC was proud to sponsor and coordinate.

| 133 | Spearheaded the meticulous and contested process to begin the disinterment of the Richland-Chambers slave/freedman graves and litigated the re-interment to their descendants in the Woodland Cemetery in Corsicana. This was done after much difficulty as at first there was no support coming from a state level. After involving the media, the process finally got started but still involved going to court to make sure that the persons being relocated ended up in a cemetery where we believe relatives are located, this also was done with no support from a state level. The Navarro CHC had support and was in partnership with many groups on this project. The City of Corsicana, The Navarro NAACP, the Woodland Cemetery Association, and more on a smaller level. The public has learned much more about our counties slave history due to all the press coverage that this project has received. A memorial to honor these persons is planned to be erected at the location they will be reburied in. This will become an area to educate and reflect. We foresee visitors coming to our community to see this memorial much like Freedmans cemetery in Dallas. | Jan 15, 2012 9:28 AM  |

| 135 | We have begun researching the 100+ historic cemeteries in Wharton County. As in other counties and states, cemeteries can be found just about anywhere and everywhere. The primary task is to locate the property owner and enlist his help in completing the THC Historic Cemetery designation form. Our County Historian has urged us to fan out over the county and try to record at least a few each year. Once the work is done, we hope to publish a book or booklet about the cemeteries, the families on whose land they were located, and particularly the people who are buried there. We could, at intervals, publish such information in the two Wharton County newspapers and provide educational materials to the public schools for their use. In order for us to see this project to fruition, though, we are going to need to recruit help from the public schools and interested parties in the county.   | Jan 14, 2012 2:10 PM  |

1	Preservation of historic Poll Tax records. The Commission was alerted by the Lubbock County archivist of the discovery of poll tax records from the 1930's. The records not only detailed collections, but how the county dealt with helping citizens during the Depression. The information includes names, amounts, and what expenditures were for. The LCHC purchased archival boxes to preserve the information, and is working with the Texas Tech University Southwest Collection for permanent placement.	Jun 7, 2012 4:15 PM
2	Burleson County Heritage Week in March, to celebrate the county's birthday. This was the 9th year we've put up a display in the courthouse for a week, and had the museum open all week. School kids tour all museums in town (4 of them), plus visit city hall, the fire station, etc. We pushed a theme of looking for little known history in our county, and to not always accept the same routine stories. We did not have a public presentation, but asked the local historical society to host such an event, and they had a genealogy speaker during that week. We had a lot of traffic in the museum that week, and made sure our historical marker and cemetery brochures were updated beforehand. The Rotary Club provides cookies or cupcakes for the kids, who have lunch on the courthouse lawn that day. This is more of an educational event, not just entertainment....making the public aware of our history and getting them interested in telling us about theirs.	Jun 7, 2012 4:02 PM

6	Replacing a damaged marker that was struck in an accident by someone who had no funds to replace it. The county does not have funds for this and finally a student from Bryan High School used this as his school project to raise funds and have a casting of the marker. Of course the marker has not arrived to have the dedication. Looking forward in receiving the marker and schedule the dedication in the near future.	Apr 19, 2012 10:18 AM
7	We have recently provided a support role to the local cemetery association to have our cemeterys included with historical markers. Our committee - that used to be so active in this - has mostly died away and the couple that remain are unable to continue such projects. We were happy to provide that support for them to ensure this came to be.	Apr 11, 2012 1:02 PM

10	At the annual Milam Settlers Day event that draws from 3,000 to 5,000 visitors the CHC provides history displays, docents, presenters for the two day event. Museum items are loaned for display in the historic Causey House (built circa 1835). Docents and handouts are provided for the house. Three local CHC members serve on the Milam Settlers Day Committee. Thousands of visitors pass through and gain insight into early Texas history at the history displays. Hundreds of local community members hopefully gain a new appreciation for local history.	Mar 30, 2012 10:15 AM

12	Through funding and research, our commission facilitated in the establishment of a marker for Heard's Prairie Cemetery. The commission partnered with the local Heard's Prairie Cemetery Association as well as Robertson County Commissioners Court. This marker not only denotes the early settlers and their way of life, but it also indicates the decline of the community and the re-purpose of the land. This marker should bring awareness to community members of the toils and sacrifice those who settled the land, many of whom were their own ancestors.	Mar 30, 2012 7:51 AM
13	Veterans' Monument – We began working on having another veterans' monument erected several years ago and should be able to erect it this year. In 2011, we received several grants as it is costing almost \$5000. We have been collecting names of Mason County veterans who have served our country from the Korean War until the present. This will help to complete the Veterans Memorial monuments that are located on the southeast corner of the courthouse square. Our County is blessed to have so many proud veterans and this memorial is just one way that we try to honor and remember all that we owe to their strength and service.	Mar 28, 2012 1:50 PM
14	The dedication of the Trinity Lutheran Church Cemetery Marker in the rural community of Frelsburg preceded a church service in the church's outdoor chapel. The former county judge spoke of the cemetery history and members of the CCHC (part of the church choir) sang a song in German. The marker chair talked about the importance of the marker program to perpetuate knowledge of and interest in local history as reflected by the cemetery. There was a strong sense of celebration and pride in the German heritage in this gathering.	Mar 27, 2012 3:06 PM

the Bandera County Polish descendants who entered Texas through the Port of Indianola. Cost of the granite monument was \$2100. The Calhoun Historical Commission and Museum worked with the Bandera Historical Commission in supplying information and securing the placement of monument below the La Salle Statue located in Indianola. The ceremony took place at the La Salle Statue during the Indianola Commemoration of the hurricane that destroyed Indianola in 1887. Many Bandera County Polish descendants attended the event. The monument is a historic reminder of the Polish Silesian people who scarified everything by leaving their homeland to come to Texas for a better life. In early 1855 eleven Polish families left Panna Maria for Bandera County (Bexar) enduring many weeks of travel on foot in the wilderness and harsh conditions." More Polish families came later. Bandera County can be proud of the Silesia Polish immigrants who settled in Bandera and helped build and construct many of the limestone buildings still standing in the City and County of Bandera. One particular building is the Bandera County Court House located on Main Street, In Bandera, Texas.

| 16 | DCHC members have partnered with DeWitt County in an effort to have Archives Building which will be open to the public. After the County restored their 1896 courthouse, a building on the annex property was designated for an archives building. Commission members have volunteered at least one day a week to help organize and microfilm the records. A member of the DCHC was also a member of the regional organization of the Texas Settlement Region which was dissolved in 2011. Through the member's efforts, the new computer and copier belonging to the Region was donated to the DCHC which in turn donated it to the DeWitt County Archives. The remainder of the money which DeWitt County had donated to the Texas Settlement Region was given to the Chisholm Trail Museum who in turn donated to the Historical Commission to be used in the archives in the amount of \$4,500. The DCHC has designated funds for the improvements of the archives and has spent over \$7,000 to have the early records of the county (1846-1860's) preserved and restored. Commission members have presented programs to various organizations showing the books that were in bad condition. The public is very interested in reviewing and reading the early books. One citizen donated an original newspaper of 1895 which was included in the restoration and placed in a leather binder. A reception is being planned to invite the public to the archives to view the newly bound books - a total of nine books. The commission feels this reception and viewing will spark more interest and help future project to restore more of the original records. | Mar 22, 2012 8:14 AM |

Our CHC has become the liaison between the "Trust" and the City as it pertains to historical significance. To that end, we succeeded in negotiating the preservation of two of the buildings on site.   | Mar 20, 2012 2:53 PM |

19	That National Day of the Cowboy is another annual project of UCHC. It is geared to the very young citizens of our county. We have stations where they are introduced by hands on to the workings of early day cowboy. There is: Branding (bandanas), making tortillas, and burritos, roping, rope twirling, rope jumping, leather tooling, sling shot lessons, horse shoe pitching and stick horse racing. The parents are partners: They bring the young buckaroos and lead them around to all of the stations paying close attention knowing that they will have to repeat some of these at home. They are good partners. It educates both young and parents on the way things were, how they have changed and the importance of retaining those skills for historic reasons. They are still many ranches and cowboys in Upton County in and around the oil rigs and pump jacks. The community learns how important it is to preserve our past as they attend these and remember grandparents telling about these activities.	Mar 20, 2012 8:35 AM
20	Researched the history of each of Polk County's Courthouse and other judicial buildings. (5 courthouses, 2 jails) Located photographs or sketches of each building. Put together a large collage with a brief history and the photos. This collage was unveiled at the Grand Opening of the Judicial Center on September 20, 2011 and hangs on a prominent wall in the rotunda today. The collage tells a story for employees as well as visitors to the building. Printed brochures with history of all historic judicial bldgs. for handouts and keep sake of dedication of the Judicial Center. *Same project reported in 2010.	Mar 20, 2012 7:34 AM

23	The preservation of the Woody Cabin. One of the first built in Wise County. It was located about eight miles from Decatur, in a rather secluded area, and people began to go into it, pulling down the door, cutting the fence surrounding it. The owner decided it would be wise to give it to the Wise County Historical Society, in an effort to preserve it. It was in storage for over a year, until Texas' Log Cabin restoration person could do the work.. Since there are many descendants of the Woody family still around, and Wise County citizens were interested in seeing it preserved we had no problem securing the funds to have the cabin placed on the grounds of the Wise County Heritage Museum. We have many youngsters who have never seen a log cabin, and this is of great interest to them. We have many people who come to the grounds to take pictures. It increased their interest to see our pioneers lived in these small structures, and how they didn't have the conveniences we have today. The Woody Cabin was one of the first built in Wise County about 1853. Was moved because of vandalism to the grounds of the Wise County Heritage Museum. Restored by a Texas Log Cabin restoration person. Draws many people to see how pioneers lived and to take pictures.	Mar 19, 2012 7:36 AM

| 27 | Our Historical Marker Program includes review of applications and we met our goal of five to submit in 2011, and we cleaned and repaired three damaged markers, and relocated endangered markers within the county. Dedications in 2011 included the Corpus Christi Academy, and the Hides, Tallow and Packeries, the marker for Theodore Merchant Lawrence which was damaged and replaced and reinstalled at the new location, NAS Corpus Christi and the INternment Camp of WWI Prisoners at NAS and the relocation of the Four Bluff School marker all at Parker Memorial Park, the 1861-1865 Confederate States of America marker was moved to 309 N. Water Street from the old Chamber of Commerce building on Shoreline Avenue and installed with a new 5" post, and the South Texas Cattle Drives marker is still undergoing repair. Additional marker dedications this year included the St. Paul Lutheran Church in Bishop, and the Travis Baptist Church. The Patrick Dunn marker that was damaged was removed from Park Road 22 and relocated at Packery Channel Park and we removed the John Dunn marker from a refinery location and is being restored, plus we removed and the damaged marker from the old endangered Nueces County Courthouse. Partners include Corpus Christi Parks and Recreation Dept. GSA, NAS Corpus Christi, local land owners, City of Bishop and TxDOT. Gonzales, Texas- On Friday, January 14, the Gonzales Memorial Museum and the Gonzales County Historical Commission will host a 60-minute documentary about artist Buck Winn. Free and open to the public, the event includes a 4:30-6:00 reception at the Gonzales Memorial Museum to view the two murals and visit with the documentary director, Richard Kidd and art conservator, Robert Marshall. Attendees are asked to RSVP to <a href="mailto:info@gonzalesmemorialmuseum.com">info@gonzalesmemorialmuseum.com</a> The film LARGER THAN LIFE, The Story of Buck Winn (1905-1979) tells the life story of Buck Winn and shows all of his existing artwork, basrelief sculpture, architectural designs, and inventions. Winn was an internationally recognized painter, sculptor, inventor, muralist, and architectural artist. Winn specialized in doing large artwork for building decoration, and all of his projects were "larger than life." He worked with Eugene Savage and others to create the murals in the Hall of State for the 1936 Texas Centennial. In 1937 he completed two murals for the Gonzales Memorial Museum, one of nine Texas museums built to celebrate the Centennial. The two Gonzales Memorial Museum murals, each 20-foot-long by 7 foot-high, depict Gonzales' role in the formation of the Republic of Texas. The museum's murals are awaiting restoration. In all, Winn completed more than 50 projects, many of which were the first of their kind in material usage and size. Winn's work can still be found in bank buildings, libraries, theaters, and on university campuses throughout the region, although a substantial portion of his large public works have been lost as buildings were razed for new development. Larger Than Life, directed by Richard Kidd and produced by Kate Johnson for the Hays County Historical Commission, was shot in 18 locations in the Southwest and is the first complete coverage of Winn's major work. | 43 | ACC historical programs For many years, our Commission conducted an essay program for elementary schools in Austin and Travis County that featured student work on cultural and family history. We have recently refocused this program on students attending Austin Community College campuses. We work with ACC staff members who supervise student projects and compile the resulting studies, and organize the final recognition ceremonies. This program creates a new awareness of county history by among ACC students by requiring them to develop projects on topics related to Travis County history and to present their work for review by other students and the public. The goal of this program is to develop new student interest in county history and to encourage them to share their discoveries with family and friends in the community. | Feb 28, 2012 9:49 AM  |

The public at large has remained uniformed about the work of the CHC and has viewed the organization as an elitist group. This view is being dispelled by more communication through the media and in person.   | Feb 28, 2012 6:29 AM  |

THIS YEAR BETTER THAT HALF OF THE STUDENTS WERE FIRST YEAR PROJECTS. JUNIOR HIGH AND HIGH SCHOOL LEVEL STUDENTS ATTEND. THE FIRST AND SECOND PLACE WINNERS IN EACH CATAGORY ADVANCE TO STATE FOR FUTHER JUDGING WITH THE STATE TOP WINNERS ADVANCING ON TO NATIONAL IN WASHINGTO. THIS PROJECT PROVIDES THE STUDENT AND THE CHC MEMBERS TO ASSOCIATE WITH EACH OTHER. SCHOOLS LIKE TERLINGUA, SAN VANCTIA AND SANDERSON HAVE STUDENTS THAT GET TO GO TO THE BIG PLACES. THE STUDEND WORK KARD AT THESE EVENTS ALL DONE AFTER HOURS ON THEIR OWN TIME. THIS PROJECT TRAINING HELPS THE TODAY SCHOOL STUDENT LEARN HOW TO DO RESEARCH ON HISTORICAL EVENTS, WRITE A REPORT WITH A LIMITED 500 WORD DESCRIPTION. TERM PAPERS ARE NOT OF MUCH INTEREST IN TODAYS SCHOOLS PROGRAMS. THIS MAY BE THE ONLY TIME A STUDEND IS EXPOSED TO THE RESEARCH, WRITTING AND PRESENTING THEIR WORK BEFORE A JUDGE. WE IN BREWSTER COUNTY INCLUDING THE COMMISSIONER COURT AND CHC BELIEVE THIS IS IMPORTANT TO THE LOCAL IN COUNTY AS WELL AS THE REGIONAL OUT OF COUNTY SCHOOL STUDENTS. IT PROVIDES PUBLIC APPEARANCES, STUDIES, HARD WORK AFTER SCHOOL AND A OPPORTUNITY TO GO TO STATE IN SOMETHING BESIDES SPORTS. WE HAVE TRIED TO GET THE OTHER CHC's THAT COUNTY SCHOOLS ORIGINATE FROM TO JOIN WITH US IN BC. FUNDING FOR THIS IS LIKE FUNDING FOR THC, IT IS SHORT.

| 46 | . Since the town of 258 which boasts 300+ structures on the National Register was lacking an ordinance to protect them, a draft was written and submitted to the City of Fayetteville. The draft moved on to the city's attorney and was enhanced to provide ultimate protection for the town's square. Citizens and businesses were informed of the upcoming ordinance, informational meetings were held and the ordinance was passed in early January 2012. . Partnerships - CHC, City of Fayetteville (Mayor and City Council) . Educate - public learned why the ordinance was necessary to protect their historic structures and maintain the integrity of the town square. Meetings were well attended and standing room only. . Impact - the community was impacted and concerned about what an ordinance would mean to them. Most went away with concerns that the city would be doing something bad to them but others understood why the ordinance is necessary. | Feb 28, 2012 12:57 AM |
| 47 | San Jacinto Day - April 21, 1836 - was the final victory in the Texas Revolution. Tom Green, citizen, soldier, patriot, participated at the battle manning the Twin Sisters Cannon. Our colorful event featured keynote speaker Philip Kemp, Texas Ranger. Kemp spoke on the role of the Rangering Companies and their importance in the Texas Revolution. A parade of all the flags of the Texas Revolution was conducted. Each flag was introduced and explained. The Texas Legislature was in session and our Rep. Drew Darby sent his office manager, Cheryl deCordova, to present his words for the day. County Commissioners   | Feb 27, 2012 10:45 PM |

Steve Floyd, Aubrey deCordova, and Yantis Green attended. Commissioner Floyd spoke. The audience learned about Gen. Sam Houston's battle plan of the day, the roles of the 'Texas Rangers' in the post revolution era, and the importance of Tom Green and other figures of the day. The colorful flags brought a new perspective to Texas Revolution History which is seldom discussed. A six foot banner stayed on the Courthouse lawn from October 2, 2010 through April 22, 2011 commemorating the Texas Revolution and reminding the public daily of the important battles that brought Independence. We received hundreds of comments and inquiries from organizations, school teachers, and business people seeking information about the flags and Gen. Tom Green. Newspaper and television coverage promoted the significant events of the Revolution and the importance of the CHC in promoting Texas history. We deemed this a very successful event as inquiries continued to come in until the end of school session in May.

| 48 | <p>Holiday Tours of newly restored historic 1901 Harrison County Courthouse. 45 minute guided tours of the interior and exterior were given over a period of three three-day weekends in December, 2011. They were to enable citizens of the county and visitors to look at the restoration of the building and to give them a history of the county, the building and the restoration. CHC, Main Street, Harrison County History Museum, Marshall Chamber of Commerce, Marshall Convention and Visitors Bureau, Harrison County Sheriff's office and the Harrison County Commissioners County and County Maintenance worked together to make this a successful project. A local business provided the building holiday decorations. Various holiday music played from the restored District Courtroom throughout the Courthouse atrium. Approximately 500 people (from the United States and Internationally) participated in the tours. The local media - print , radio, television and internet - did stories on the tours and the Courthouse. All who attended enjoyed and appreciated the tours and remarked that they would return when the history museum has completed the installation of their exhibits and would attend other tours offered.</p>  | Feb 27, 2012 9:57 PM |
| 49 | <p>For at least the last 11 years the Bell County Historical Commission has made small grants to non-profit Bell County agencies to assist them in preserving and promoting the history of Bell County. This year the commission approved four grants. These were to the Railroad and Heritage Museum, the Central Texas Area Museum, The 1874 Church Committee, and the Bell County Museum. The Railroad and Heritage Museum requested assistance to provide electricity to some of the railroad rolling stock so that the stock could be opened to the public. The Central Texas Area Museum was in need of archival supplies to complete an effort to preserve historical records, mementos, and artifacts gathered in a concerted effort over the past two years. The 1874 Church Committee is working with the city of Belton to save the oldest church building in Bell County and needed funds to provide safety and security lighting for the site. The Bell County Museum sponsored a 7-week long, county-wide Quilt Crawl with seven sites setting up displays of historic quilts and quilting equipment. The grant provided funds to advertise this effort along Interstate Highway 35 and Federal Highway 190 through the county. The selection of these grants is initiated with a grant application. The Grants Committee then sets up an on-site visit with each applicant. Applicants show and explain their project and so that the committee may learn and visualize the effort through the eyes of the applicants. In addition to partnering with each applicant, several of the applicants also partnered with</p> | Feb 27, 2012 8:32 PM |

Includes 21 photos and list of home owners who agreed to the easement with the WPA and City of Denton. Records show that the ditches in this study were from Bernard Street, between Mulberry and Sycamore, eastward to the 500 block of Wainwright. The creek bed is referred to either as a branch of Pecan Creek or Mill Branch, a tributary of Pecan Creek. Unfortunately, some of the ditches have been recently covered over. In corporation with both the current land owner as well as descendents of the original owners the JCHC is working to clean and clear both the Ham Springs Cemetery and research the location of the original stage station. The cemetery is claimed to include a stage driver from the original Butterfield Stage. A significant amount of research will be required to confirm the identities of the individuals within the cemetery. Once completed the rich history of the area will be communicated on our web site and via the local newspapers. The sharing of this information will create a curiosity within the local community about not only Ham Springs but other historical items within the county.  | Feb 26, 2012 5:45 PM |
| 59 | Restoration of Gibbs-Powell House Museum In 2010 we began to plan and raise money for restoration of the Museum. We painted the exterior in 2010, and in 2011 we replaced the shake shingle roof and restored the entry hall, removing the 1930s era wallpaper and repainting the bare boards with the original color paint. In 2012 we are continuing the restoration with the main dining room, and we are adding a handicap access ramp to the rear of the House. We were able to achieve this by partnering with a private donor, the City of Huntsville and Walker County, all of whom provided funds. Since the Museum is on the main street near downtown, it is very visible to visitors, and the restorations will be an attractive addition to the City. We use the Museum for our meetings to which the public are invited, and we open it to the public two days each week. The year 2012 is also the 150th anniversary of the House, and the renovations will be ready to for our celebration and related events. We believe that the renovations that restore the House to its earlier interior configuration will provide visitors a deeper understanding of the House and the families that lived there. We are especially proud of the Heritage Tours that bring Huntsville third graders to the House to see how people lived over 100 years ago. | Feb 26, 2012 4:37 PM |
| 60 | In 2011, the HCHC membership committed to the reprinting of Miss Eliza Bishop's book History of Houston County which covers the years 1687 -1979, and includes the genealogy of many of the early Houston County families as well as tales of Indian trepidations, murders, and other things that will catch the interest of both the younger and older reader. We felt that this was an important tool and fund raiser for the 175th birthday of our county in 2012. Since this book was no longer in print, we also felt that we were doing a service to our community by providing this marvelous book to those who didn't have the opportunity to secure one when it was printed the first time. We are very proud that each of these books now contains a copy of the note, "Houston County, where Texas began", written in Miss Eliza's own hand writing.   | Feb 26, 2012 4:24 PM |

There are only three swing bridges remaining in all of Texas and one of them is located in Newton County. NCHC board member Ed Gallagher took on the challenge of getting the Deweyville Swing Bridge designated as a national historic site. dedication ceremony held in early 2012 included all those mentioned previously plus the Deweyville High School Band, two local pastors, DAR members, and Newton County Chamber of Commerce representatives. NCHC's Public Relations Committee wrote before and after event articles for the newspaper. NCHC's In-House Publishing Committee published and printed the invitations, posters and programs. The local TXDOT installed the marker and cleaned the site before the dedication. The celebration was attended by all of Newton County's county commissioners, a State Representative, the county sheriff, as well as residents of Deweyville and nearby communities. This project clearly impacted the community's perception and appreciation of their county's history.

| 62 | <p>The MCHC provided Archaeology Month Activities in Milam County in 2011. Members of the Archeology Committee and other members visited all fourth grade students (Texas History is taught in the 4th grade) in Milam County and in some cases other grades were combined with the fourth grade groups. We also went to the Wood Juvenile Justice Center and presented to all of the residents - grades six through twelfth. Archaeology is discussed with the students and the early Native American history of Milam County is presented using artifacts (many from Milam County) from the MCHC Educational Trunk (available to teachers and schools throughout the year), maps, photographs and brochures. We always leave Archaeology posters, planning information and other archaeology literature with students and teachers. A CLG member, a fifth generation Texan, whose great-great-great grandfather fought with Sam Houston at the Battle of San Jacinto dressed in 1800 period clothing, from head to toe. He used his authentic clothing/accessories, including a Bowie knife and rifle, to tell about life in early Texas. The students and teachers LOVED this presentation, where the students participate in the program. MCHC sponsored a free program at the Milam County Courthouse given by THC Director of Architecture, Stan Graves. Mr. Graves gave a visual presentation on the Courthouse Restoration Program in Texas. All of these activities are publicized in the paper and on radio in Milam County and on the THC website. We know that these programs are well received, students and teachers are eager for us to come AND they make time in their busy schedule for us to come. Teachers tell us that students remember history and appreciate it when they can actually see what they have read about in the history books. Our Educational Trunk has a Teacher's Guide with wonderful references and links for teachers and students to use. Citizens enjoyed the Courthouse Presentation, one person read about it in the Temple newspaper and came to the presentation.</p> | Feb 26, 2012 4:02 PM |

We actually found two that were not erected where they were supposed to be. We were successful in finding them. We also surveyed the condition of each marker and made a list of those that needed to be cleaned and repainted. We repainted about 20 markers in 2011 and have at least 15 more that we plan to do in 2012. We did not partner with anyone on this project. We feel our efforts on this project have made the markers more attractive and hopefully will encourage more people to take the time to stop and read them. We have had several positive comments from community members.</p>   | Feb 25, 2012 9:10 PM |

schools as well as community members to the cemetery to honor both the veterans from various wars, including one veteran from the Civil War, who are buried there and those living veterans from Sheffield and Iraan who have served their country through military service. Two service members are asked to share their military experiences with those attending. Students from the Iraan/Sheffield Schools participate either by essays, art work, or music. Awards are presented. A lunch is served at the Sheffield Community Center. PCHC members are in charge of the day's activities as well as the refreshments for lunch. Sanderson schools have attended in the past, but they have asked for assistance in having their own Veterans' Day Observance. Nothing indicates success better than another CHC wanting to expand on another CHC's activity.

| 65 | Project 2: High School Community Heritage Internship "Finding the Location of Rural Schools That Once Existed in Crosby County" The Crosbyton Chamber of Commerce provided a stipend to one high school student to work with Jacque James to complete a Heritage Project. The student was required to complete certain benchmarks before receiving the stipend. Tori Garcia was chosen as the first intern. Jacque James completed 62.5 hours assisting the student finish the work. Tori worked for six weeks on the project. The project required that she research the location of rural schools, find community members in Crosbyton, Lorenzo, and Ralls that could help her find schools and their locations, complete a chart with directions to the schools, complete a rough map of locations, and present a presentation to the Crosby County Historical Commission. Tori located thirty-three schools that existed in Crosby County. One school named Murphy was mentioned in an 1876 document, but no location was found. Tori used her information at school to prepare a project for FCCLA and other organizations. Jacque James wrote an article for the Crosby County News that continues to lead to information about the schools. Tori and her friends in high school were amazed that so many schools once existed in this corner of the Plains. | Feb 25, 2012 2:03 PM  |

We determined it was contemporary and had no historic significance and OKed its removal. We approved the removal of 9 historical markers to a special spot on the river walk with OK from THC. We worked with the City of Orange and THC and a local archaeologist and the local news paper. The 9 marks depict Orange County history. Announcements were made in the area newspapers and at other organization's meetings. Board members, armed with digital cameras, a scanner, made appointments with county residents to capture history from THEIR perspective, through their pictures, their documents, their stories. | 71 | Just weeks before the effects of the stock market crash and the Great Depression of 1929 would be felt across the country, Jefferson County's citizens passed a \$1,000,000 bond issue to replace the old, inadequate, outgrown red brick courthouse. Due to the effects of falling prices and depression-scale wages, the new 14-story Art Deco Courthouse was finished under budget and within a year's time. Again in 1977, a bond issue was passed for improvements to the 46-year-old courthouse and to construct additional court and jail space in the form of an attached Annex joined to the courthouse by a two story-connector approved by the Texas Historical Commission. In 1999, the Texas Legislature and Gov. George W. Bush created the Texas Historical Courthouse Preservation Program which, when qualifications were met, was a joint effort in the form of matching funds between State and County for grant funding to help preserve and restore Texas' county courthouses. Even though the Jefferson County Courthouse is a Recorded Texas Historic Landmark, a State Archeological Landmark and is listed on the National Register of Historic Places, the County did not qualify for THC's matched grant funding because the Courthouse did not stand alone due to the attached Annex originally approved by the THC. Even with the continued efforts of Master Plan architect, Gerald Moorhead, of Bailey Architects in Houston, and County, City and (local) State lawmakers, along with local citizens, requesting reconsideration of THC's ruling of points being deducted from our grant application score due to the approved attached Annex, no funds have been awarded to Jefferson County. Jefferson County's Commissioners Court decided it could no long wait to repair years of termite and water damage to the Courthouse and thus began to educate the public through budget hearings and workshops on the drastic condition and immediate need for necessary restoration work to weatherproof the courthouse. Under the direction of Gerald Moorhouse of Bailey Architects, County officials diligently carried out THC requirements for courthouse restoration with hope of possible future changes in THC grant fund scoring. Within days of 2011 year's end, Jefferson County was proud to announce that the work replacing the heavily damaged roof (from Hurricane Ike in 2007) and weatherproofing the 14-story structure with a | Feb 23, 2012 1:23 PM  |

THC approved roof and restored spire, masonry and windows to the tune of \$7.4 million was just days away from completion. After several years of continuous Courthouse exterior restoration work being carried out including the inconvenience of outdoor scaffolding, office relocations with County departments and the decrease in available Courthouse parking for staff as well as the public, the year 2011 ended with Jefferson County residents and staff appreciating and admiring the beautiful "new" 1931 courthouse. With years of wear and tear restored, lightening strikes repaired, and dirt and grime washed away, county officials and residents ended 2011 knowing the task of budgeting for the interior restoration of the Jefferson County Courthouse still lies ahead.

The tour, well publicized, focused on the southwest portion of the county. Those touring were given a hand-out discussing the historic sites to be seen to support the tour guide on each bus. This was a five hour tour with several stops including a picnic at the local lake. Following the tour a evaluation form was distributed to each participants could help us assess the tour. The only negative response we had was it was too long. At the following CHC meeting the tour was addressed with decisions of what worked and what needed improvement. Two more tours are currently in the planning stages for this year. Each will be in different quadrants of the county. As this tour was so well received it served to re-enforce that the public is seeking ways to learn about their county's history. And... we enjoy sharing.  | Feb 22, 2012 10:56 PM |

Such was the case at Central High School where CCHC worked with the local community and the Home Demonstration Club to raise money to repair their early 1900s school building. The school is currently being used for Home Demonstration meetings and community/school reunions. One special event in 2011 was the 80th anniversary of continuous Home Demonstration Club meetings at the school. Members of CCHC developed poster displays, slide shows and videos of old images of the school as well as the Home Demonstration Club members engaged in various activities especially quilting. One CCHC member presented the key note address, 'History of Quilting in Cherokee County and the Influence of Home Demonstration Clubs'. Friends of Brady High School, a volunteer organization, had abandoned their efforts to save the school because they could not submit a "business plan" for its repurposing that satisfied the school board. With demolition imminent, FBHS renewed its efforts joined by MCHC. MCHC members appeared before the school board, gave radio interviews, and wrote letters to the newspaper. They advised FBHS concerning its radio/newspaper campaign and the organization of a protest rally. All efforts failed, however, and in December, 2011 historic Brady High School was torn to the ground. During 2011, the Panhandle committee members have been hard at work on oral history interviews of their Korean War Era Veterans; The Groom committee has been interviewing their World War II Era Veterans which they just finished in December; and White Deer/Skellytown has formed a new committee, compiled a list of their Viet Nam Era Veterans, and is ready to begin their interviews. After the interviews are completed, CDs are made for the family of the veteran, the Carson County Square House Museum, and Southwest Collections at Texas Tech. Our CHC also worked on the Veteran's program at the museum and helped with the list of veteran names for the plaques that were placed on the wall of the War Memorial Building and dedicated in September. CHC partnerships included: Carson County Square House Museum; Panhandle Herald, White Deer News, and Groom News; Panhandle, White Deer, and Groom Schools; Southwest Collections at Texas Tech; Senior Citizen's Groups in all four communities; Judge Lewis Powers, and the committee members from each community. We educate the communities with this project by periodically putting articles and pictures in the newspapers, working with senior citizen's groups on names, working with the schools on their veteran programs, and by getting a lot of people in the county involved, which brings awareness to our history. Honoring our veterans in all of the above ways always has a big impact on the communities, the veterans for their service to our country, and the programs given at the schools which are awe inspiring to all of the school children involved as well as the adults in attendance. | Feb 21, 2012 10:14 PM |

sponsors an essay contest that lines up with this curriculum. The students write an essay in the format of one or more journal entries from someone residing in North America during the Civil War. The students are free to choose whose point-of-view that they will be focusing on. This is an in-depth way to get students involved in learning history. The top 10-15 essay writers are invited to attend a formal banquet highlighting their achievement. Being able to partner with our local school to open history's doors and excite a passion in our students is very important to the vitality and continuation of historical preservation.

| 82 | In 2005 Lou Mallory was asked to have a Wood County History column in the Holly Lake Gazette which was only published every two weeks. I continuously have had a column in each issue of the newspaper. The articles were drawn from each area of the county, and the articles were mainly about historic communities, important people in the history of the county, articles from various time periods of people and events that occurred. After a column appeared, many times we would receive a telephone call commenting on the story or asking questions. In 2009, Bill Jones, former chairman of the Wood County Historical Commission, and a resident of Winnsboro, known there as the town's historian, began to write a column entitled Historical Reflections. on people, buildings, and events of Winnsboro. The column has been well received. These newspaper columns are a great way to educate the public on our local history and its importance. This, with others, has provided a way for the public to learn and hopefully appreciate the colorful history of the county. | Feb 19, 2012 10:20 AM |
| 83 | The commission is continuing to designate historic cemeteries. Articles have been placed in local newspapers and the community has responded by giving us locations of cemeteries not previously surveyed. In 1974, it was moved to its present location on the downtown bank park. No one has ever claimed ownership of the structure, and several local organizations maintained it, for a period of time. About 6 years ago, our local commission took over the care and maintenance of the structure. Structural repairs have been made, and the house is open, for tours, on special occasions. This is an ongoing project for our commission.Volunteers, from outside our commission, help us keep the house open during opur Fort Griffin fandangle season.  | Feb 18, 2012 7:02 PM  |

We partner with Rockwall ISD to make sure that students in our 2nd grade classes (when Rockwall history is taught) have access to visuals and on-site activities that promote Rockwall County history. As CHC chair, I personally go to classes and show dozens of historic photos. In addition, the CHC offers these educational services to any age group or community organization. As CHC Chair, I have taken Rockwall County history into the middle schools, high schools, senior citizen homes and churches. I personally volunteer more than 50 hours each year to present these programs for free throughout our community.   | Feb 17, 2012 8:30 AM  |
| 91 | Each year the CHC conducts a county-wide Youth Essay Contest. Participants are asked to write or design a project on local history. The project ranges from oral history interviews to an essay on the history of a building or an event that took place in the County. The project promotes interest in historical research. Parents, teachers, and librarians help students with projects. Last year \$1,740 were awarded for 1st, 2nd, 3rd place and honorable mentions. | 92 | The Quanah Parker Trail initiative has forged a relationship with many members of the Quanah Parker family, resulting in cross visiting, sharing of knowledge and culture. Several Parkers came to the Motley County Museum to see the photographs of Quanah when he made a speech in downtown Matador, he and some of his wives visited the Matador Ranch and camped near the Jail, and local ranchers gave them beeves to butcher. The 2011 visitors also helped identify many photographs of Comanches taken on the reservation by a missionary in 1892 and shared their own memories of life under the Mennonites. One Comanche man said, "You know more about our history than we do." The CHC, working with the QPT, has shared information about campsites and sacred sites, reference materials, local history and anecdotes, artifacts, and folklore. Some of the photos are posted on the QPT website. It's been a wonderful exchange of cultures, bringing new respect for a people who called this their homeland. | Feb 15, 2012 11:05 PM |

| 95 | Early in 2011, I was contacted by the Winters ISD about preservation of their earliest school records, dating back to 1914 and going to 1971. Later records had been preserved in another way. We went to look at the records and then arranged a meeting with the school board. I contacted the West Texas Collection at ASU in San Angelo about the appropriate methods of preservation. In the meeting with the board, we recommended they get them digitized. They unanimously voted to do that. The old records were deteriorating and this was a way to make them accessible for research. When anything about Runnels County comes up, the WTC makes the RCHC copies. With this information, we were able to locate some missing schools and also find how long they were in existence in the district. To date, we have identified 102 schools that existed at some point in time in Runnels County. We are also working to get pictures of each school. The Winters ISD, the West Texas Collection, some local residents and the RCHC have all been involved in the work on this very interesting project. | Feb 15, 2012 7:36 PM  |

| 98 | This year the CHC focused on the needs of the Terrace Cemetery. Street signage for all of the lanes. We also have applied for a historical marker and that is in progress. Funding for this project was achieved through a grant from a local charitable foundation. Recently we were awarded a grant from THC that paid for the new cemetery brochure as well. In 2012 we will be shooting for funding to create a data base of all burials in the county. We are pleased that our citizens are very excited the project as well. Our county is rich in history, and blessed with multi tourism attractions, such as museums and live theatre and two giant arrows designating Garza County as part of the Quanah Parker Trail.  | Feb 15, 2012 10:35 AM |

This museum will house archeological, historical, and heritage items specifically dedicated to this area. The present one is housed in the library collection. This was mostly accomplished by the initiative of one of HCHC Board members and local librarian with the assistance of a couple of other HCHC Board members and a couple of the property owners. | 102 | The Erath County Poor Farm Cemetery was a cultural resource that most citizens of the county did not know existed, and very few knew the history behind the Erath County Poor Farm. Two CHC members became involved in the Poor Farm Cemetery Association which began efforts which cleared the cemetery with the help of the sheriff and his crew. County commissioners were also a big help in working on the road giving access to the cemetery, and a company from Hico donated large metal crosses to put at the graves that could be identified. A dedication ceremony drew a large crowd and publicity in the local paper educated even more of the public about this long abandoned historic site. Application for a historic cemetery designation was approved, and hopefully a historical marker will be the next step.  | Feb 9, 2012 10:31 AM |
| 103 | We received the THC request for updated photographs and information regarding the 50th Anniversary of the RTHL project. We photographed all but 2 of the properties. After completion of this project, we were able to obtain from the THC, original scans of all of the marker applications for Comal County. Our Comal County webmaster developed a CCHC link on the Comal County website and posted the photos of the RTHL properties. We requested permission to post photos from private property owners where the property was not visible from a public street. During the summer and fall of 2011, we continued to photograph the remaining markers in Comal County which will be added to our website. Partners involved in the endeavor included THC for scanning the original documents, Comal County for developing our website and the property owners for allowing the contact and posting of information. Our group decided to give CDs of all the information obtained to the Sophienburg Museum and Archives for research purposes. Obtaining all of this information provided one of our local historians multiple opportunities to write stories about the markers and properties in our local newspaper, the New Braunfels Herald-Zeitung. The stories are also posted on the www.Sophienburg.com website under "All Around the Sophienburg and Archives". Through these websites and newspaper articles, we have educated ourselves and the public concerning our valuable historical resources. The positive feedback and excitement concerning these endeavors from citizens and public officials has been enormous. A result of these projects | Feb 8, 2012 3:08 PM  |

This is so important since we have recieved no funding from the county in the last two years.	Feb 4, 2012 1:01 PM
108	The Dallas County Historical Commission surveyed properties for the Recorded Texas Historical Landmarks project. All 69 sites in the County were accounted for, with the exception of one that burned down more than two decades ago. This information was submitted to THC on CD. We began featuring photos and brief articles on these properties in our quarterly newsletter and plan to continue this practice as we increase the scope of our readership in 2012. The information was also placed on the Commission website.	Feb 4, 2012 11:59 AM

All of the towns and many of the communities are covered in the presentations. Partnerships include museums, newspapers and individuals who assisted in collecting the information and pictures. The catalyst for the project was to provide "virtual" fieldtrips for teachers and students since funds for fieldtrips have diminished. The project provides a way to educate students and adults on th history of Matagorda County. At present time we have a Courthouse display that has some artifacts and items of age but we feel it would be more appealing to have more space to properly contain the vast number of items that could be secured. We are partnering with the elected officials about space in the Courthouse, as well with the City to identify possible building in the City of Jayton. To be able to display numerous items will enhance education to the community as well as be attractive to anyone passing through. 2	Burleson County Archeology Awareness Week, Oct. 3-7. Held in conjunction with TAM. We once again had a week long display up at the courthouse with lots of free brochures on archeology. Our theme was Hidden History, still promoting the idea of doing more research and reading, because local stories are often unknown, distorted or routine. The museum was open two full days, and a public presentation was given by TxDOT archeologist Al McGraw, attended by about 25 people. Good newspaper coverage was provided. McGraw gave numerous examples of little known stories of Texas history, some in our county. A question and answer period followed. Some Cub Scouts attended. | 9  | The local CHC during 2011 collected, cataloged and displayed over 600 Black African American funeral home obituaries reaching back into the 1950s. In collecting these papers contract was made with more than 50 Black African Americans, mainly older women, who had collected these obituaries over 60 years. These obituaries provide an interesting history of the black community since they provide much more information than the typical Anglo funeral home obituary. This project gave the participants a better feeling of ownership in the Sabine County Center. | 11 | In 1976 the Mason CHC published a book, Mason County History. Since that time, we have published five supplements to that book since not all the Mason families and pioneers were in the original. Supplement V as completed and published in 2011. We had a committee of six CHC members who chose the writings and stories for this supplement, and two of the committee members wrote several of the historical stories. Each supplement we publish helps to complete the history of our county. We hope to publish Supplement VI this year.  | Mar 28, 2012 1:51 PM  |
| 12 | The chairman of the CCHC proposed a project entitled "The Top Ten Most Endangered Building/Sites in Colorado County". The function of this project is to identify, document, and publicize the most endangered building/sites in our county. This will be an ongoing survey of the county to identify such sites whether endangered by neglect, nonsympathetic restoration or renovation or destruction. We will partner with libraries in the various communities and city governments to assist in identifying the sites. The resulting list will be updated annually and spotlighted through local newspaper articles. This project has potential to mobilize various resources in the county to help identify and publicize those sites. This project will bring public awareness that the lost of historic buildings or sites is both a loss of history and community enrichment. | Mar 27, 2012 3:06 PM  |
| 13 | The Bandera County Historical Commission completed a map with a list of historic homes located in the City of Bandera. Land records and permits were searched to locate the historic homes within the city. This information was then put on a city map with directions and names of the historic houses for a "Walking Tour" in the City of Bandera. The City of Bandera and the planning and zoning committee worked closely with the Bandera County Historical Commission on this project for four years, which was finally completed in 2011. The map will be featured on pamphlets and flyers which will be available for tourist and local residents at the Chamber of Commerce and the Bandera County Convention and Visitors Bureau. The City of Bandera Walking Tour educates the public about the historic homes within the city and provides them with information on       | Mar 24, 2012 12:21 PM |

the homes history. City of Bandera Mayor, Horst Pallaske, has been a strong supporter of this project and helped start and guide this project to its completion. A Walking tour is a special attraction and will add to the other historical attractions/sites located in the City limits.

A committee within the commission regularly attends meetings and workshops on this. One member has written a book on the trail. Brochures have been distributed throughout the county by members. The DCHC held one meeting during the year at the Yorktown Museum where a video was shown about the trail and members were given a tour of parts of the trail within the county.  | Mar 22, 2012 8:16 AM |

| 17 | UHC is working to be partners with the Texas Pecos Trail. We hosted one of the board meetings in Rankin in 2011. The members planned and prepared the meal for about 20 participants. They then learned more about the trail and how it brings tourists to the area and how that helps towns. It helped them understand how important to preserve what few buildings, arenas, museums, and other land marks not only for historic reasons, but for economic reasons as tourists visit the area. This was not a big project, but an important one. Remember we are a very small county and the leaders are doers and older and few in number. We do what we can and throw out new ideas for other organizations, for which we are also members. It is an ongoing project. | Mar 20, 2012 8:37 AM |
| 18 | Our CHC produced a video, about 15 mins. with photos of the city block prior to any demolition - photos of the earliest buildings on the block - the ground-breaking ceremony, phases of construction and preservation of 2 old buildings - the Masonic Ceremony for the "Leveling of the Cornerstone." The video also included photos of the planning committee members and the Commissioner's Court and Judge John Thompson. The video was professionally put together with appropriate music, and was shown at the Grand Opening and offered to the public for a donation. This became an excellent fundraiser for the Polk County Museum (over 2,500) and also educated a large number of people. | 24 | Our Nueces County Archives Project is the preservation and cataloging of historic governmental records and research materials collected by Nueces County Historical Commission so that they can be made available for current and future generations. Former County Judge Richard Borchert procured storage and exhibition space within the Nueces County Courthouse, and the NCHC procured shelving, and Nueces County has supplied file cabinets and supplies, and members volunteered their time to sort and catalog oral histories, old county ledger books, photographs, scrapbooks, maps and Commission files and minutes. The NCHC Archives was under the guidance of NCHC member Robert Whistler, a former Archivist for the National Park Service who passed away in December of 2011. Commission members diligently volunteer their time to process materials on to computerized inventories and assist researchers as well. In 2011, we began work on the digitization of our oral history tape collection and the upgrade of computerized inventories to computer databases. The Archives is a resource for research of early ledgers of governmental records that were saved from a non climate control warehouse that should prove to be vital resources for interpretation of the 19th century Nueces County. Some of these records include cattle records and brands that are extremely important in our South Texas ranching history. Preservation   | Mar 18, 2012 6:51 PM |

These history capturing methods will end up in our libraries and genealogical groups as easily accessible digitized media rather than lost living history opportunities. | 29 | The CHC and Historic Scurry County, Inc. work to make the annual SCHOOL DAZE (for 4th graders) one that each child will remember. This program has been annual off and on for over 20 years. It is designed to partner with 4th graders who study Texas History and bring their local history to their attention. SCHOOL DAZE is held on the grounds of the Scurry County Heritage Village and allows students hands-on experiences including: making butter, (they think it comes in plastic tubs) home made biscuits (they think you POP them open) wash clothes on a scrub board using home made lye soap and hang on a line (they think you use a dryer) They get to play games of days gone by. The buildings at the village include the oldest home in Scurry County, a barbershop, barn, bunkhouse, calaboose, school house, oil field "doghouse", a church, a beautifully refurbished windmill and a outhouse built by the WPA. The structures themselves brings wide opened eyes of curiosity and smiles that we all remember. The Village design and plan is to grow and become a true representation of all of Scurry County. The annual SCHOOL DAZE helps us promote the village to students who long remember "coming to the village in the 4th grade." | Feb 29, 2012 9:14 PM |

| 33 | In 2011, we celebrated the Centennial of the town of Ralls and the life of John R. Ralls who was a pioneer, he was born to build. In 1906 John R. Ralls traded his merchandise and store in Ryan OK., for 10,000 acres in Crosby County that he ran as a ranch in the beginning, but in 2011 built the town of Ralls on this land. He was instrumental in the building of all of the brick buildings that still exist and used on the square today, that house the Ralls Historical Museum. We had a Centennial Board who consisted of the City Administrator, the Museum Director and several people that their families were instrumental to the beginning of Ralls. The Centennial Board worked together to plan the Centennial Celebration and all of the festivities that would take place. The Centennial of Ralls has brought in many curious about Ralls and how it was started. We have started having classes of Ralls ISD come to the Museum again and have been able to educate them on Ralls and how life was in the early days. How times have changed and how we must keep the heritage of Mr. Ralls and the city of Ralls going. The project of our Centennial has made some of us that are natives of Ralls more appreciative of our Founder and how he worked to build a town that could prosper. It has been a learning experience for everyone involved and has made me more aware of how it all started in the beginning and how learning about our history can be fun and enlightening so that I can better teach the youth of tomorrow about our history. | Feb 28, 2012 2:28 PM  |

As several other groups had tried and failed due to dissent by past polititians, this was a precarious positions for them to undertake. they were in constant contact with Union Pacific officials as well as anyone that had an idea of what to try next. they secured funding for the relocation of the building with hopes that UP will not take any further steps to raize the structure. Our town was created to house the depot and would be devastated by its destruction. Local politians have stayed out of the efforts since it was such a hot bed of conflict by the last administration. They seem surprised that efforts from across the country are being made on behalf of our symbol of history.  | Feb 28, 2012 1:05 PM  |

This program has evolved from our participation in the Visionaries program from a number of years ago--our mission is to locate and catalog any and all historic sites in the county The survey is being conducted using the criteria of the National Registry of Historic Places and Collin county may be the only county in Texas to undertake such a project. We are making our information available to the public on the county web-site under the historical commission section. Data is collected by volunteers and submitted via a packet   | Feb 28, 2012 10:48 AM |

of forms to be transferred to computer cataloging with pictures and information and then our coordinator sends it to the county for placement on an interactive mapping system superimposed on the County's aerial map. This in turn links to the narratives to describe and give information on the numerous sites. We couldn't do this without the Volunteers!! They are the ones who know their areas and can talk with the locals to gather the information. We hold meetings in various locations within the county to interest and educate volunteers to help with the project. It is getting a lot of support and involvement throughout the county. We are bringing in new people who find out about the project and want to help and learn.

Two of the three structures needing to be demolished to make this possible were National Register structures. The third was Keiler's hotel and restaurant that suffered damage in a fire. The bank contacted the CHC early in the process and worked with the THC to ensure everything step they took was appropriate. Permission was granted to destroy the two structures which were not inhabitable and dangerous. They could not be saved and they were torn down in December 2011. . Partnerships - Fayetteville Bank, CHC, City of Fayetteville - these groups are working to ensure the integrity of Fayetteville's town square is preserved when the bank builds its new facility. . Educate - This phase is in its infancy. Agreement between the bank, THC and CHC is that the bank will provide a "Heritage Room" within the new facility for use by the town as a meeting room and will contain artifacts from the old buildings. Additionally, historical markers are to be obtained for both sides of the building to "remember" what occurred in them in their hay days. . Miss Yeary's remarkable publication was a compilation of 900 pages of first hand accounts and recollections of Texas Confederate Veterans. She traveled across Texas, wrote thousands of letters, seeking stories from veterans before they became lost forever. A real daughter of the Confederacy, Mamie Yeary was indeed a sweetheart to the Confederate veterans who returned to or removed to Texas following the war. Both organizations deemed her worthy of more prominent recognition and determined she should be honored during the Sesquicentennial of the War Between the States. Fund raising efforts began, research was done by members of the SCV and the CHC. The greater part of 2011 was spent raising funds and researching Miss Yeary. The workshops were varied; from landscaping to painting and window repair to historic research. The CHC developed and presented an historic research workshop for the homeowners. It was presented in the Harrison County History Museum Research and Genealogical Library. The CHC developed a notebook with varying items related to research, marker application writing, guidelines for historical research, how to use newspapers, photographic collections, how to use Sanborn maps, census records, chain of ownership, documenting local history and such. The notebooks were given to the attendees as a reference tool. The workshops were limited to approximately 20 people for about 3 to 4 hours. | 45 | The Texas Historical Marker program has, again, been a major, concerted effort by the Bell County Historical Commission to promote and preserve history. The Marker Committee consists of members from various communities within Bell County. Each member is the primary contact with individuals or organizations desiring to apply for a historical marker. The historical marker committee members provide expertise on markers within their geographical area of the county, and sometimes within their personal area of expertise or interest. They answer questions and provide guidance about the process and are the primary county-level contact, until the applications process is nearly complete. The Marker Coordinator can then call upon the entire committee for a review of the application to ensure it is complete, thorough, and ready to submit to the Texas Historical Commission. The process of gathering the information for a historical marker is primarily fact-finding, by nature, but contact must be made with several individuals, organizations, and county entities. This effort, in itself, raises awareness of the project and of the subject matter and serves to educate entities and individuals even before the marker is approved. Partnering for each marker is, primarily, left to the marker applicant with some applicants partnering with organizations and within their families to raise the necessary funds for the project. The end result is a well researched and documented, very visible marker for the public to appreciate and enjoy. This year, Bell County was fortunate to have four historic markers approved. | Feb 27, 2012 8:33 PM |

| 50 | Robert E. Lee Sidewalk: The Robert E Lee Sidewalk is located on Sycamore Street between Locust and Industrial Streets, on the easement for the First United Methodist Church. The school, which is no longer at the site, was built around 1923-24 and the sidewalk was built in 1938. There were originally 93 blocks and there are 43 remaining blocks. Each block is stamped with name of the sponsor. Early newspaper articles provided list of names of sponsors for the 93 blocks. The report includes information on the sponsors, which include brief biographical information, photos of sponsors, advertisements, photos of each of the sidewalk squares and copies of news articles. In addition to the proposed printing of the report, the Marker Committee has contacted the First United Methodist Church regarding a potential marker for the site of the school. City of Denton staff has been notified of the historic sidewalk. The DCHC hopes to encourage the community to continue to preserve the remaining historical structures and events in the city of Denton. | Feb 27, 2012 10:22 AM |

| 52 | The Hays County Historical Commission produced it's third documentary video, "Vox Pop: The Story of Parks Johnson". A sell-out crowd was on hand for the premiere of the video at the Wimberley Community Center in October. Richard Kidd, the editor and director told the story of Parks Johnson, the creator of Vox Pop, a radio program that was on the air from 1932 starting in Houston and then moving to New York in 1935 and then retiring to Wimberley in 1948. This video teaches the public about our nation's history and as well about the rural communities of the 1940's in Texas. During the year, we have showed our video in all of the communities in Hays County. We have also produced a teacher's guide to compliment the video and this has passed into the school districts of Hays County. Sales of the video has brought in more that \$3500 to fund future Hays County Historical I Commission projects.   | Feb 26, 2012 6:08 PM  |

Jack County regarding the numerous one-room schools that existed years ago. It is important that interviews be conducted with pioneers and their descendants in order to preserve this important history. The stories and accounts of past activities must be preserved while these individuals are available to share their memories. The Jack County Historical Commission is in the process of developing a 'script' and question 'checklist' for use in documenting the history of One Room Schools in Jack County. Once these interviews are completed and transcribed the information gathered will be shared with residents of the area. A preliminary list of early schools/school districts within the county is already available. There is additional reference material available from both retired teachers and residents of Jack County that include similar listings which will be used as background information.

| 54 | <p>Oakwood Cemetery Tours Oakwood Cemetery is one of Texas' most historic and beautiful. It is, of course, the burial place for Gen. Sam Houston, and his grave is marked with a monument by the sculptor. The Cemetery is also the burial place for many early influential Texas political, business and legal leaders, including Henderson Yoakum, the author of the first history of Texas; Pleasant Kitterell the legislative father of the University of Texas; a Joshua Houston, former slave of Sam Houston and later influential businessman and community leader who established an African-American educational tradition in Huntsville; and James Addison Baker, founder of a Texas legal dynasty. It is also home to only one of five copies of Thorvaldsen's sculptural masterpiece, "The Christus." We worked with the City's Cemetery Board and the Sam Houston State University Webb Society to develop the tours, which are conducted on special occasions and by appointment. We see the Cemetery as a history book that you can walk through, and the tours provide visitors insights into Huntsville and Texas history that can be obtained in no other way. We believe that Oakwood Cemetery is one of the area's most important and least developed tourist attractions. We believe that the tours will help to elevate it to a premier stop for visitors to Huntsville.</p>   | Feb 26, 2012 4:37 PM |
| 55 | <p>In 2011, we committed to getting the message out to every community and ethnic group possible that our county has an active and viable historical commission. Several members of the HCHC made a commitment to attend as many homecomings, dedications, business meetings and openings, and community events as possible in order to promote the efforts of our commission. We also continued our efforts to educate our patrons with information about such tools as Find-a Grave, genealogical research using original documents as well as those on credible web sites, our local libraries, and our HCHC library. We were proud to be named one of the notable historical commissions in the state of TX, and gave out as many brochures about county historical commissions as possible. We also made an effort to collect and document artifacts given to us and preserve them in a manner that makes them available for display in our office as well as for use when deemed appropriate. The HCHC sent representatives to the 10 year THC Planning Session in Jefferson County. The HCHC was also represented, at the invitation of the County Judge, in grant hearings in Austin where we to help in securing a grant for the Houston County Courthouse. One HCHC member was very influential in helping to get a historic designation for this structure. We also began a "Friends of the Houston County Historical Commission" group that has gotten off to a very good start.</p> | Feb 26, 2012 4:24 PM |

| 56 | <p>Project 3 has been a project for the past 6 years. The goal was to publish an edited version of our Cemeteries of Newton County-2005 and add the names of those buried in Newton's cemeteries up to 2010. NCHC appointees and volunteers (including NISD students) visited every cemetery in the county taking inventories and photos of all the headstones and markers. The histories of the cemeteries were updated and GPS readings taken. With complications such as volunteers trying to learn a newly installed computer program, old members leaving, new members coming on board - the Cemetery Book Publishing Committee ran into many setbacks and the project came to a halt. In mid-2011, NCHC's Cemetery Committee offered to re-visit all the cemeteries checking each inventory and taking any photos where needed. By the end of 2011, the Cemetery Committee entered all the information into a data base. Now NCHC has the ability to publish and sell a cemetery book with each cemetery's updated history and GPS readings with a compact disk containing an alphabetical index of all those buried in Newton County. This new book and its CD can be sold for a very reasonable price. Also, NCHC will have the ability to quickly locate information as well as print out specific information such as one cemetery's inventory, or all people with the same family name, or veterans of a particular war, or people who were born in certain years, etc. Also by adding names on a weekly basis to the cemetery book's database, the information will always be up to date when the book and its CD are purchased. This project will be considered completed other than updating the database as people are buried in the county.</p>  | Feb 26, 2012 4:16 PM |
| 57 | <p>This year the MCHC made a concerted effort to work with the El Camino Real de las Tejas Trail Association to publicize the trail and especially the trail through Milam County. Two of our members are on the board of the El Camino Real de las Tejas Association (ECR) and many of our members are members of the ECR Association. Members have met with National Trust for Preservation and NPS personnel to give tours of significant historic sites in Milam County. MCHC members attended the ECR Annual meeting and an El Camino Real de las Tejas Symposium held at Texas A &amp; M University. We have distributed county maps and brochures showing the El Camino Real trail through Milam County. A MCHC Preservation Grant was awarded to the ECR Trail Association for signage of the trail in Milam County. Members of the MCHC wrote marker applications for two of the sites listed as places of significance in the NPS Comprehensive Plan. During school visits the ECR Trail was emphasized and discussed with students. We provided schools, libraries and county buildings with maps of Milam County showing the ECR Trail. We continue to provide Dr. Kathleen Gilmore's research book to the public, we sell copies and have given the libraries copies of her research. The MCHC worked with the Nature Festival of Milam County providing a 'dig' for the children. As we introduced the archaeology element we discussed the early settlers and the ECR Trail, showing the map of the trail. . The impact on our community is that the citizens are becoming informed about the history of the trail and more positive that the ECR Trail can be an economic boost for our county. We are dedicated to informing our county about the wealth of ECR history Milam County has. Even though there are many threads to our efforts with the ELC Trail, they tie together our commitment to preserve and promote the history of the ECR Trail through Milam County.</p> | Feb 26, 2012 4:03 PM |

brief histories of the cemeteries. We had planned to have it available to the public by the end of 2011, but it will be March of 2012 before it will be published. We did not partner with others on this project. The cemetery book will be a valuable tool for those doing research and genealogy. It will also serve as a record of all known cemeteries in the county, making it more difficult for someone to destroy them.

| 59 | The Historic Old Jail Museum is open after the Fort Stockton Lighted Christmas Parade. The PCHC members serve hot mulled cider and cookies to all who attend. Being open after dark allows people who may never been able to visit the museum to see inside. The project allows the PCHC to support one of the Chamber's main projects. As a result of visiting with the families who came through this year we have had an increase in Cub Scout Troops wanting to set up a time to visit when the whole troop could be there. As an added feature this year we had a special Native American artifact display in one of the rooms. The collection belongs to one of our PCHC members. We will have it on display until the end of March, 2012. Although the Old Jail has been in Fort Stockton since 1883 we always have people at the Christmas Open House who have never been inside. Being held in connection with the parade helps, in my opinion, for some people to feel more comfortable visiting a museum.   | Feb 25, 2012 5:41 PM  |
| 60 | In our last hurricane 1500 copies of "Picturing Orange Apictorial history of Orange" were destroyed the books had been given to the County history museum at no cost to them. They sold them for \$35 each. Due to the demand our Commission elected to reprint 500 of them at a cost of \$15,000. We obtained grants from city and county hotel motel funds. Other funds were obtained from citizens. After 6 months we had the necessary funds. We then made arrangements with The wind river press to reprint the book. After the books arrived they were given to the County museum.. It was also destroyed in the hurricane but is being rebuilt. The books are selling well and show Orange's past history. Also the funds from book sales are helping restore the County Museum.  | Feb 25, 2012 12:40 PM |

| 62 | EARLY SCHOOL PICTURES PROJECT: ACHC did a Historical Marker for a beloved man in our area, Dr. Bonner Frizzell, a Principal (1913) and Superintendent (1919-1950). In the schools, he would circulate collecting each child's school picture each year for several years. ACHC found this collection, scanned, named and dated almost each picture. Six schools were involved, dating during the 1940's. Data was entered into a spreadsheet, connecting it to the on-computer picture of the student. A Bulletin Board in our building showed samples, and advertised these pictures as being available to the public. A newspaper article was written. During a community event, our booth attracted many locals who had attended these schools, and were anxious to see their pictures. Or other family members would ask about a loved one. Each picture was inserted into an appropriate protection sheet, within the appropriate school notebook. Many remarked how they remembered Dr. Frizzell, his love for the children, his interest in all they did. | Feb 24, 2012 4:53 PM  |

| 63 | Our county judge suggested an annual award for "Bosque County Junior Poet Laureate". The Collection manager was appointed by the judge and with the approval of the BCHC, set up a committee to set criteria and judge nominations from high school age students. Three poems are entered, all of decent subject matter, with one poem about Bosque County. The committee works closely with high school english and drama teachers and school administrators. Winners are announced the first of May. This has been a very rewarding and successful venture, and continues to grow. The mission is to stress the importance and preservation of the written word through poetry.  | Feb 24, 2012 10:41 AM |
| 64 | November 1, 2011 was an important day in Pleasanton, Atascosa County. It was the Anniversary of the integration of the Pleasanton School District under a new law passed by the Texas Legislature. An official Texas Historical Marker was placed on the grounds of the high school. In collaboration with the school district and the Alumni Association the dedication ceremony took place in the new high school auditorium. The program, open to the public had many returning graduates in attendance. This marker was obtained through the "Untold Story" program. A slide show of photos of the integration day was presented. A showing of colors by the new JROTC and the program identifying some of the African-American students enrolled that first day. This was one of the neatest dedications that I have had a part in. A Great Learning Experience.  | Feb 23, 2012 2:56 PM  |
| 65 | In preparation of Jefferson County applying for Certified Local Government Status, January 2011 began with the Jefferson County Historical Commission (JCHC) revising the Bylaws to include a Certified Local Government (CLG) Committee. This committee would be responsible for coordinating all JCHC activities with the Texas Historical Commission in compliance with all Federal and State laws and regulations pertaining to the Texas Certified Local Government program and would also include the request of CLG Grant Funding to develop a Historic Preservation Plan for Jefferson County. Even though Jefferson County already had two cities with CLG status (Beaumont and Port Arthur), this Committee would be responsible for the remainder of Jefferson County as well as working with the aforementioned cities. On February 14, 2011 the Jefferson County Commissioner's Court approved the revised Bylaws and the JCHC immediately began work in appointing a chair and group of JCHC members to research and perform the duties for applying for County CLG status. During the 2011 THCA Annual Preservation Conference, the newly appointed Chair and one member visited with THCA staff for guidance in applying for CLG status. After months of research by the CLG Committee Chair and members, gathering and compiling information on the county's historical resources required to be submitted with the CLG application, a letter was hand-delivered to the County Judge and Commissioners in early November 2011 asking for their continued support of historical preservation in Jefferson County and their approval of the attached Certified Local Government Status application. JCHC received significant support and technical assistance from the County Engineer's office in compiling maps, pictures and location coordinates of numerous historical markers and sites throughout the county. Our combined efforts have produced a comprehensive searchable document which will be posted to JCHC's website for public access and research. The CLG application was approved, executed, received and filed and forwarded on to THCA. In late December, the County Judge received notification THCA had approved our CLG application and had forwarded same to the National Park Service for final | Feb 23, 2012 1:27 PM  |

approval. Pursuant to the CLG certification agreement, Commissioner's Court appointed a Historic Preservation Officer in January of 2012.

| 67 | One of the commission's on-going projects has been the researching and publishing of books and booklet. These publications' topics vary from historic sites, rural communities to general history of the county. This gathering and sharing of historic information has been a challenging and rewarding project. While many of these publication are sold as this is the main source of our revenue, some are given for free. All of the county schools have donated publications by the CHC. We strive to reach out to all generations , to acquaint them with the diversity of our county's history. With the county's many special events and festivals, commission member have numerous opportunities to open booths to sell our publications throughout the county..This allows us to reach more people. The greater the distribution, the more read and learn. One of our proposed publications in progress is the collecting of old school pictures. We hope the gather old photos of each of the 100+ rural schools that once existed in the county. This will serve to preserve a special part of our local history for generations to come.  | Feb 22, 2012 10:56 PM |
| 68 | Two of our Commission members were involved with the research and writing of The First Exploratory Oil Well in Taylor County marker (David Morris and Jay Moore). They worked with the oil libraries and members of the geology community to locate the exact site of that well. It was set and dedicated on Vinson Road in the Potosi area near the site of that first well. At the dedication many members of the local geology group were in attendance, as well as members of the county Sheriff's department for traffic control. About 100 were at that dedication. Taylor County has a long history of involvement in the oil and gas industry, and it was great to have so many of them in attendance.  | Feb 22, 2012 9:36 PM  |
| 69 | Celebrating History of Cherokee County November 15, 2011 was a time to honor history in Cherokee County. Two events were held on the same day in order to capitalize on attendance and interaction with the exhibits. First, historic photos were unveiled at a dedication held at the county courthouse in Rusk, Texas. Almost a year in the making the Courthouse Photo Preservation Project culminated in many historical images hung in the hallways of the courthouse, some 11 x 14 matted and framed photographs while others are large canvases. Also part of the courthouse project is a newly installed bulletin board for historic photo displays to be changed monthly, along with a 'mystery or unknown' photograph shown in order to illicit more historical information for the archives. The board also provides an opportunity for county citizens to display their family photos which will be scanned for the archives. This CCHC project was a multi-tiered effort; private funds were raised for the project; participants and/or supporters included local judges, lawyers and private citizens. Concluding the day was an Open House held at the newly renovated CCHC office. After the courthouse photo dedication attendees walked around the corner for refreshments and a tour of the office. Oral history videos were played and everyone informally enjoyed 'video' history of the county. In addition many large 20 x 24 photos representing each community in the county were on display. | Feb 22, 2012 4:48 PM  |

Landowner Logan Stevens had given permission to MCHC to work on the site. Tom Green MCHC member Gerron Hite met with MCHC for an historic Texas cemeteries workshop prior to the first scheduled workday. Members of the local Boy Scout group led by an Eagle Scout hopeful participated in this project without proper MCHC supervision, resulting in overclearing of native vegetation. MCHC hopes to reseed wild flowers. A MCHC member has offered to donate part of the fencing materials needed to prevent further livestock damage to this cemetery. MCHC members also consulted with local law enforcement concerning vandalism at Rochelle Cemetery in McCulloch County and Live Oak Cemetery in the City of Brady.  | Feb 22, 2012 3:49 PM  |

| 72 | Our CHC worked with some of the early pioneer families of White Deer on the Texas Land Heritage Program for families who had owned and operated their land for 100 years or more. We put information in the local newspapers and printed out applications to give them to encourage them on this project. Some were elderly and needed help to write, so we helped them fill out the information, which was a rewarding experience. The partnerships included: working with the Texas Department of Agriculture on newspaper articles and info about the ceremonies held in Austin in October; working with family members; and working with local and area newspapers. This project helped to educate the public about how our area was settled, who the early pioneers were; how and when they came to this area; and the hardships they endured when they came to the plains of Texas. Through this project we were able to recognize two of our earliest Polish families who came in 1910 as well as another family who came to this county in 1907. It was the White Deer community's first landowners to be recognized and it brought a lot of pride to the community to honor the Urbanczyk, Haiduk, and Hodges families, who had the opportunity to share a bit of our history with the younger generation. | Feb 21, 2012 10:16 PM |
| 73 | We had the county records on microfilm transfered from Henderson County Memorial Library to the Henderson County Historical Commission office. This film could only be viewed upstairs in the library and it was not handicap accessible. | 74 | We continued our community outreach this year by hosting small bi-monthly events throughout the county featuring programs on historical preservation and awareness. Each event focused on a different area of the county and was opened to the general public. For these programs we have partnered with individuals from other CHS's, other non-profit groups of our community (for host facilities) and with members of our community. Our program topics touched on cemetery restoration and preservation; document preservation; historical readings; restoration and preservation of historical locations such as sawmills and iron working forges; and general historical knowledge of the county. This initiative helps bring history out of our museums and encourages interaction with a broader range of individuals. We have successfully averaged an attendance of well over 50 people at each event.   | Feb 20, 2012 10:46 AM |

76	A couple of years ago a member of the Historical Commission who grew up in the Fouke Community, a predominately black community, became a school teacher and is now 92 years old told me that the present community center in the community had once been a Rosenwald School that she attended. Another member of the community contacted me about the small general store that was built and run by her family and friends over 70 years ago and had been not only the store, but a beauty shop and now a private residence. We contacted Greg Smith at THC and discovered this community might be eligible for National Register designation. Some research has been done but much more needs to be done before an application can be submitted. We really need some outside help on this project. The writer is doing research about Rosenwald Schools in Wood County, particularly the one in the Fouke Community and would like to see it get recognition as an untold story and give more weight to a possible National Register Nomination. We feel this would give recognition to both the community and the communities where Rosenwald Schools were located in Wood County. Many in the county are not aware or have knowledge of Rosenwald Schools and of this small community.	Feb 19, 2012 10:20 AM
77	The Commission and the staff at the San Felipe de Austin Historic Site in the county were very concerned about a historic site in the area. The site is the Old San Felipe City Hall, which existed before 1847. Because the building was deteriorating so badly we applied to have this building placed on the 2012 Endangered List. Historic site staff, Commission members, City officials and officers and members of Friends of the San Felipe de Austin Historic Site all worked in getting supporting documents for this nomination. The people in the community realize the importance of this site and hopefull will work for its preservation.	Feb 18, 2012 7:47 PM

have worked with multiple families wishing to procure these designations for cemeteries or other historical sites. Most recently, we partnered with descendants of the Chandler family to help them secure a historic cemetery designation and then a Texas Historical Marker for the small Chandler family cemetery. Once the marker was received, we partnered with the City of Rockwall for placement and then we organized and hosted a dedication ceremony. We followed up with news coverage in our local media in order that all citizens would be able to see the preservation efforts in our community.

| 85 | A tour of ranch country for West Texas Historical Assn. members began at the edge of the county at a historical marker of the founder of the Matador Ranch, proceeded to Mott Camp Line Camp of the Scottish owned Matador Land & Cattle Co., and then to the current Matador Ranch, owned by Koch Industries, for a tour of the hunting lodge. Refreshments at Hotel Matador provided a chance for the Friends of the Motley County Jail to show a trailer used in fund raising for restoration of the 1891 structure. A quick visit to the Motley County Museum provided, among other subjects, an overview of medical care in the county in 1927. One lady said, "It was rather primitive, wasn't it!" Many ladies were interested in the quilt made of blocks depicting historical sites in the county, while the men were interested in the ranch history and veterans room. The heritage tourism event provided an opportunity for people to visit little know places within an hour and half of their city, broadening their knowledge and improving our economy.   | Feb 15, 2012 11:18 PM |
| 86 | The Beyer steam-run workshop and contents were donated to the Menardville Museum when the land was given to West Texas Rehab due to the death of the owner. Before 1900, Oscar Beyer, a German immigrant, built a steam-run workshop with canning, leather making, sewing, corn-meal grinder, windmill machine, and a grape press. The stove and blacksmith area were included in the building. He also build one of the first windmills. Family members and their businesses donated money to help with the project. CHC members helped document by filming, volunteering equipment and time, and moving the items to the Menardville Museum location. Wood from an old building was donated by three of the CHC members. A building to house the contents was built by volunteers (mainly CHC members). Menard County and Menardville Museum members donated in-kind equipment and personnel, also. When the project was completed, family descendants presented the Beyer's Program. Many relatives from various areas attended (some had not previously met each other). The event had several articles and pictures in newspapers. The relatives and general public were very impressed and appreciated preservation of the workshop, project, and program. | Feb 15, 2012 10:29 PM |

pictures of the bridge that was being bypassed with the new structure to go with the articles. These articles created a lot of interest, as the research took everything back to the 1650's and the Indian influence in this area. That always creates a lot of interest when you mention Indians.

Not only were we able to share a photographic history of the county, but in the process there seemed to be an awakening of our citizenry that sparked an interest in the real history of the area. This led to a weekly newspaper article called Legends that has developed into a large readership was well. | 91 | Part of the Nacogdoches heritage involves the story of the Space Shuttle Columbia tragedy of February 1, 2003. It is sad that many of the new incoming students to Stephen F. Austin are unaware that this event happened over the skies of Nacogdoches County. Although national monuments have been approved for East Texas, congress has yet to fund them, and perhaps never will. Recognition and remembrance of the Columbia is needed. I have acquired much of the memorabilia related to that incident and plan to place this in the Columbia Memorial Museum also in downtown Nacogdoches as part of the Columbia Corridor. I have the support from the NCHC to augment the commemoration with a marker and have been in meetings with the NPS concerning this. Although this is a national byline, there is a local story of those that participated in the surrounding communities that participated in the recovery that is not told in the museum at Hemphill. | Feb 15, 2012 9:49 AM  |
| 92 | We tried to get the old Fort Graham replica materials released to our care. Photos have been taken of the building and contents. Letters have been written to try to preserve the contents and have them released to the HCHC for the future. So far, we've not been successful but possibly with time and persistence we can get the contents before they are totally destroyed. The building is in a horrible location along with the marker. The Corps is willing to give/lease us the building and the contents but we are not in the financial position to take on that. Suggestions are so welcome!  | Feb 14, 2012 4:17 PM  |

| 94 | <p>With the encouragement and support of the CHC, the Bluff Dale School conducted an Oral History Project. Our chairman met with the students and conducted several classes on oral history interviews so the students would be prepared for the project. Students came up with a list of possible interviewees and questions that might be included in the interviews, and letters were sent out to those invited to participate. Ten interviews were recorded, both on audio and video, and students gave a program on their project at the Bluff Dale Homecoming in September. Although this did not involve that many members, it was publicized that it was sponsored by the Erath CHC, and it has received very good response.</p>  | Feb 9, 2012 10:38 AM |
| 95 | <p>In 2007, the CCHC entered into an agreement with Hardy, Heck and Moore (HHM) to formulate a historic resource survey plan for Comal County. In the fall of 2010, the final plan was received by the CCHC. The CCHC requested from HHM a proposed work plan, schedule and cost for the historic resource survey. This survey would create a database of previously undocumented resources and determine eligibility for the NRHP. The survey will be 8 phases with the first 4 phases establishing property significance prior to 1945 and the last 4 phases from 1945-1967. In 2011 a survey subcommittee of our group approved the survey pending funding. The group requested funding from the Comal County Commissioners and received \$40,000 budgeted to begin Jan 2012. We then requested a THC matching grant for our project and received the matching \$40,000. Most of the preparation steps to begin our survey in 2012 took place during 2011 and was a significant project that will become our biggest project of 2012. We partnered with the Schertz Historical Group and the Comal Settlement Association regarding the upcoming survey and have helped them obtain a cemetery designation with marker and a subject marker. These groups are in phase I of our survey and are very supportive. We have also met with significant historians in a different segment of the county which is the area of Spring Branch and they are in phase II of the survey. This group also obtained a marker this past fall. The most significant partnerships developed for this project were the CLG department of the THC and our Comal County Commissioners. Both groups have been supportive with funding for our project. Comal County has a significant number of undocumented historical resources. If these resources are destroyed, they cannot be retrieved. Comal County is changing fast and it is important to preserve the remnants of our past. The results of this survey will be posted on our website and will engage a significant number of Comal County citizens during the process.</p> | Feb 8, 2012 3:08 PM  |

The marker could not be repaired and a new one had to be ordered. The state was very very slow in meeting with us with answers on placing the marker back. They wished to place it in a spot much too far from the hwy and could not be seen or read from a car and a person would have had to</p>  | Feb 6, 2012 9:48 AM  |

This was an important first step to preserve its special heritage for this small community, one of the first to be settled in Cameron County. Now an ongoing effort is being made to complete the work by promoting the allocation of funds to re-point the brick mortar in the whole structure. | 1 | <p>Our challenges are members not attending meetings, and most of them not doing much work. This year we were steamrolled by the local society, who in fact took away several of our projects. We had to back away from numerous things because of that group, so everyone worked more on individual interests, and actually logged more hours. Society officers have changed and we hope that we will be back on track in 2012. By the half-dozen of us logging more hours on our own, we have accomplished alot, and laid groundwork for several future projects. emailed info on survey 4-23-12: While we all have a copy of the Survey form, we didn't use it per se for last year's work....only as a guideline. So far, my CHC members are not organized enough to use detailed forms! But I did try to get them to gather a lot of the information on the form, in hopes we could use one for various sites (cemeteries, churches, gins, etc.) in the future. This year, we're mapping old school locations, and also some churches, gins, stores, etc. ....everyone has one of the forms again....but we aren't to the point of using them yet. Right now we're trying to find basic locations of about 120 schools. We'd then like to go back and GPS locations, and fill out the survey forms....don't know if that will happen or not. I'm attaching the form we filled out for our cemeteries, starting in 2009 and running through 2010....I had to simplify and devise something to record basic info that applied more to what we were doing. A sheet for each of our 120 cemeteries is in a notebook and now at the Appraisal District office so they can map cemeteries, find landowners for tax breaks, etc....I have the names, locations, GPS coordinates in an Excel file. I based this form on the Survey form, and the cemetery designation app....The school project this year is kinda slow, but steady and we have a working map in the museum, to write in schools and other sites....we hope to start the next phase of GPSing and survey forms this summer.</p>   | Jun 7, 2012 4:03 PM |
| 2 | <p>I would really like to see the annual conference re-instated. I always learned a lot. It seems that the staff is much better about calling back and being available. A few years ago, I always got an answering machine and not a real person and no one would call back. Now I always get to a person and I get a call back if I don't get the person I want. Many of the museum people and private groups who have sought help from the Texas Historical Commission for projects have been very complimentary on the service they have received. It is frustrating to us that the rules seem to change every year about historical markers and they seem to be discouraging the filling of them now rather than encouraging them. We do a lot of work with the limited resources that we have. If the people didn't have their heart in these projects, they certainly wouldn't get done if we expected to be reimbursed for our services. info added from email dated 4-23-12: We did not do actual printed up forms. We had about 20 determinations as to whether a particular place was historically significant to allow government funded loans to be approved. We put the request on our public notice agenda and the members of the commission went by and did an exterior inspection and then we did a vote at the meeting after a discussion and then a letter to a group or organization that requested it. We don't have anything except our monthly agendas and the minutes of the meetings. We also had 3 requests form TxDot about bridges that we inspected. We also worked with the city of Early to create a list of historic properties for them to include in a 50 th year anniversary of their incorporation. That resulted in one article for the paper and a couple of pictures for the chamber of commerce office. We are also compiling a list of buildings that were once part of Camp Bowie, a WW II training facility that was declared surplus in 1946 and most were sold off by 1950. We haven't gone and taken pictures of the buildings, most of which were moved to different locations and private owners.</p> | Jun 7, 2012 3:54 PM |

All we did in 2011 was to compile a list of building we could document. So you want these ? One project by one of our members is obtaining historic buildings from the town of Zephyr and moving them to the community center location. The old post office and log cabin school have been moved there and she has been looking for old pictures of the bank . She has all the rock from the building and she wants to create at least the facade of the bank if she can find a picture. She has also been locating the graves where the community of Zephyr was originally located before it was moved. She knew of 3 graves that were written in a book but they have found 33 graves. She is attempting to get the bridge located at the same place eligible for a listing on the national register.

| 27 | Since becoming Chair it has become increasingly difficult to excite and motivate the membership. I think this primarily because the average age is mid 70's. Most, at one time, were very active and now just "come to meetings" with little or no desire or the energy to participate in various initiatives. We will be getting our marker soon, this will give us an opportunity to bring the importance of markers to the public and hopefully spur some new enthusiasm. I miss the THC annual conference. I understand the cuts. The workshops that have been scheduled ALL sound wonderful. I HOPE THAT THC WILL BE ABLE TO TAKE SOME OF THESE ON THE ROAD AND OFFER throughout the state...maybe within the Trails Regions. Keep up the good work in Austin. Please know that the troops out here in the trenches with our boots on work hard to keep the importance of TEXAS HISTORY in the forefront. Both of these were widely covered by local newspaers and were well attended. The CHC hopes this brings attention to preserving local history and brings public attention to preservation. After the HTC approval for Union Grove Cemetery to be presented in 2012. We hope for even more success. Our CHC needs to get more local citizens involved and more active. We need to be more literate about the programs offered for our benefit. We will try to get a younger generation invloved to suceed in this effort. We need better communication with the county and city employess and elected officals. We hope for more success in 2012.   | Feb 28, 2012 4:41 PM |
| 30 | OUR MAIN CHALLENGE IS SIMPLY NOT HAVING ENOUGH TIME TO GET EVERYTHING DONE. WE ARE LUCKY TO NOW HAVE FARILY GOOD FINANCIAL SUPPORT FROM OUR COUNTY (\$5K / YEAR) BUT MOST OF OUR CHC MEMBERS ARE ALSO VERY BUSY WITH OTHER ACTIIVITIES OR FULL-TIME JOBS AND OUR IDEAS AND PROJECTS SEEM TO STALL SIMPLY FROM LACK OF TIME.  | Feb 28, 2012 2:45 PM |

32	The THC has provided much support on the efforts to save our depot from meetings with their architects at the Annual Conference to endless emails and phone calls giving us direction. This organization is invaluable to the preservation efforts of CHCs. Tourists from across the globe come through our region looking for history that can't be found anywhere else in the world. The THC helps us keep them coming.	Feb 28, 2012 1:12 PM
33	Our Historical commission is made up of individuals from various parts of the county. We come together and work on committees and projects and develop lifelong bonds. Our county is growing at a rapid rate and our friendships and ability to work together has made a tremendous impact on the preservation of the county's historic assets. We are on top of things quickly because we are scattered about the county. We engage all parts of our county with our Coalition group meetings and bring everyone together to share information and opportunities. Our challenges are get more students and younger people involved, and we are working on that! Its a great Commission to be on!	Feb 28, 2012 10:54 AM
34	The biggest challenge is financial - finding the funding for the renovation of the old clerk's building. Another challenge is that there are longtime members on the CHC who want to remain, but wish to do minimal work. We have been successful in having named to the CHC some new, young and enthusiastic members who do wish to work. Also, we are reaching out to the African-American descendants of the black early settlers to work with us on the history book project.	Feb 28, 2012 6:34 AM
35	THIS HAS TAKEN ME 4 HOURS AND 45 MINUTES TO ASSEMBLE. THAT IN MY PROBLEM, BUT I DON'T HAVE ANY MORE TIME AT THIS STAGE.	Feb 28, 2012 2:52 AM
36	Our greatest success has been in taking something we learned at the last THC Conference to heart. Volunteers come for many reasons and for many lengths of time. Some have specific projects they want to address or support and some have only snippets of time to share or volunteer. By acknowledging these new ideas, we have been able to draw Associate Members to our CHC. Many worked on specific projects for a week, a month, or even six months. When 'their' project was completed, they went on to other projects, some not ours. But they all said one thing.... We Will Be Back. Keep us on the email list, invite us and we will be back. Lesson Learned -- Voting Members may act as the guiding force or team leaders, Associates offer expertise, talent, and time for specific projects. Together, we make things happen! Together we have common goals of historic preservation that can be obtained and achieved. In 2011 these "Associate Members" delivered 1916 volunteer hours. Together we donated 9823 volunteer hours to Tom Green County! A real success story. Thanks to the THC Conference we learned there are all kinds of CHC members and they don't all have to be appointed voting members!	Feb 27, 2012 11:13 PM
37	I feel that the continued changing of the Annual Report form we are unable to be prepared to complete the form. This is the third report I have submitted and have never received a hard copy as promised. Am unable to print a complete report beause of the areas with text larger than space will not spread print. cemeteries are being included as well as a short history and photos each one. The PCHC began a commemorative brick project for the courthouse a few years. This is an ongoing project.

| 40 | Tour with descendents of Anson Taylor Brothers , who were from our county and fought at the Alamo. Compiled list & map of Historic homes in Chambers County. Conducted Open House for Museum. Developed Inventory Database for Museum items. Recognized Double Bayou Dance Hall with Recognition Sign. Conducted tour of Museum & Historic sites for Seniors Group with Lee College. Entered Chambers county Chamber of Commerce Annual Christmas parade, won 2nd place with float. Cemetary clean up project with Adult Probation Department. Recognized Scherer Home with Recognition sign. Attended and participated in The Old Rivers Founders Day.   | Feb 27, 2012 10:58 AM |
| 41 | Our successes have been in securing the markers for locations such as for the Del Rio Bank and Trust (they paid for their marker). Several other markers have been placed and we continue writing marker applications. We have received requests from distribution sites for the leaflets that we have printed in the past, however the County Commissioners NOT funding us at all with any Hotel Occupancy Tax money is going to have to put a halt on any further printing expenses   | Feb 27, 2012 3:36 AM  |
| 42 | We also make Preservation Awards to those who have worked to preserve and restore buildings and architectural features in an effort to public and encourage such efforts. In 2011 we presented awards to • Gina Garza and Autumn Dubcak of Haute Boutique for restoration its pressed tin ceiling and John Smither for restoration of his art deco office building. We are also filing for Historic Cemetery status for the Joe Byrd Cemetery, where deceased TDC inmates whose bodies are unclaimed have been buried since the 1850s. I don't see it on the form, but there was a question about a county cemetery survey. There is a survey prepared by the Walker County Genealogy Society, and all cemeteries are placed on county maps as they are identified. | Feb 26, 2012 4:37 PM  |
| 43 | In the summer of 2011, we were given a new office space that is much larger and which will help us provide better access and work room for our patrons. The move was a joint effort between several county entities. This was a challenge, but it went as well as could be expected with the movement of materials acquired over almost fifty years. After this move, we were able to locate the documents presented to our county by both the TX House of Representatives declaring Houston County as the first county established in the New Republic of Texas. Copies were made, framed by one of our members, and presented to both the Crockett/Wooters Library, as well as to Houston County. The original hangs in our office.                               | Feb 26, 2012 4:24 PM  |
| 44 | NCHC has a website with basic information about our commission. New pages were added in 2011 which included a price list of our in-house publications and "gift shop" items for sale. A new goal for the website is to add pictures and upcoming events throughout the year. In 2011, NCHC joined the Nation in commemorating the Civil War by setting up a display of "The Civil War's Effect on Newton County and Its People" in our museum. As we locate documents, pictures, and artifacts pertaining to the Civil War era, we are adding them to this  | Feb 26, 2012 4:16 PM  |

display and will continue to do so for the next three years. A 2011 goal not reached was to access all of our artifacts, documents, and photographs. A new volunteer is in the process of learning the art of accessing and entering the data in the Past Perfect Program. NCHC is making plans for a Summer Day Camp in the museum with projects like making paper, create a family tree, and visit with People From Newton's Past (volunteers dressed in period clothing and tell stories of that era). There are plans to clean and restore two cemeteries that were damaged by Hurricanes Rita and Ike. Also NCHC wants to have photographs of all unidentified graves and keep a separate count of them. It is hoped that the County Courthouse Rededication will be celebrated in 2012 so the last chapter can be written and NCHC can publish the pictorial history of Newton's County Courthouse. Not only did NCHC see an increase in new volunteers and an increase of the total of volunteer hours as compared to 2010 and 2009 but we also had an increase in visitors. In 2011 there was a total of 1394 visitors – which is 226 more than 2010 and 745 more than the year 2009.

| 45 | The three projects that we have reported on are all tied together. One benefits the other. Every time our members work independently, in groups or all together to inform our citizens in Milam County we are helping to preserve our history.   | Feb 26, 2012 4:03 PM  |
| 46 | Sharing our information has made me more aware of some areas we need to examine more closely. I will be sending out copies of the questions that pertain to the Statewide Preservation Plan. We need to take another look at our Program of Work. Other than that, I am concerned about the cost of gasoline for an area as spread out and sparsely populated as ours. As always, we appreciate all THC does for us.   | Feb 25, 2012 5:50 PM  |
| 47 | Since the Hurricane we lost the county museum in the historic WOW lodge. The fifty year old local hotel. The city fire station. Many houses were lost in the historic district. The museum is almost restored. Another great museum has become open to the public. It is the Paul Courmier museum being operated by the Orange Hills School district. AA historical marker has just been approved for them.  | Feb 25, 2012 12:49 PM |
| 48 | Bosque County Celebrates Texas Independence Week is also an annual event. Communities, government, schools organizations and business all work together to present programs and events for an entire week in March that focus on Texas and local history. The participation has grown and is an excellent way to share and educate, the Collection and the BCHC are proud to be sponsors. Special programs this year sponsored by the BCHC: Valentine Luncheon for women, featuring in the Collections display area old wedding pictures and a program on women's special heart health issues presented by County Extension agent. Programs for Bosque County Genealogical society on preservation of family photographs and documents and "The Hardships of the Civil War in Bosque County" Programs for schools on Texas Rangers and the Chisholm Trail Program for the 4-H summer day camp. | Feb 24, 2012 10:41 AM |
| 49 | Launched a website and facebook page to share county history and continuously display vintage photo and stories. The site has been great for advertising our upcoming events. We have some great plans for 2012.   | Feb 23, 2012 3:00 PM  |

blocks from downtown Beaumont between the Port of Beaumont and the railroad tracks leading into town over the Neches River, it stands tall and proud. Dedicated in 1931, the Art Deco building is a great source of pride to Jefferson County. Because the building does not stand alone but is connected to the much needed Annex through a two-story connector which was approved by the Texas Historical Commission at the time it was built, Jefferson County does not qualify for grant funding through the Texas Historical Courthouse Preservation Program. Not sitting back and feeling sorry for ourselves, the Jefferson County Commissioners Court worked very diligently in squeezing funds out of an already tight budget to do the necessary restoration. The County and local citizens feel a source of pride in knowing that we were able to meet the challenge. Our hope for 2012 is to find additional funding for the interior restoration. THC has tried to assist us in suggesting ways to qualify for funding but due to the research and hard decision making by our Court, at this time the County will continue to do the interior restoration in phases. Because of media coverage concerning the restoration, the JCHC has had more requests for tours and information than in years past. • The Sabine Pass Battleground State Historic Site continues to be a point of pride for Jefferson County. Since the transfer of the Battleground from the Department of Parks and Wildlife to becoming a State historic site under the control of the Texas Historical Commission (THC), the Battleground has never looked so good. The THC continues to support and encourage the Dick Dowling Days' celebration held in early September as a way for public participation in this very important part of Jefferson County history. Working closely with the JCHC and the Friends of Sabine Pass Battleground, 2011 ended with THC's reinstallation of historical markers in concrete that were damaged due to Hurricanes Rita and Ike. The JCHC is very appreciative of THC's help.

| 51 | Our little county jail museum is open on Fridays and Saturdays or by request. Nearly 500 visitors have taken advantage to tour this museum, at no cost. We have a "sub-group" within the CHC., it is a cemetery board. Their purpose is to preserve our rural, historic cemeteries. We have been able to use trustees from the county jail to maintain and clean many of our abandoned cemeteries. This has been an extremely challenging but important task as there are so many.   | Feb 22, 2012 10:56 PM |
| 52 | In January of 2011 the TCHC received 41 'scrapbook' binders of newspaper clippings (indexed) photographs of cemeteries, homes, ranches, and buildings from the estate of Novaleen Franklin, a native of Taylor County who had kept the collection for many years. This collection is valuable to anyone doing research. We have an intern working with our Commission from Abilene Christian University, Gabriela Lane. She has been helpful with helping us organize the archives, technical support and updated information. | Feb 22, 2012 9:36 PM  |
| 53 | Oral History- Educational programs for people that are blind and or deaf.. We have transferred all tapes; video to DVD's to be used for schools, clubs and any one interested in history. The conference provides an opportunity to network with others across the state. The exchange of ideas leads to motivation to continue the work of preservation of Texas and local history. Please start the Annual Meetings again!   | Feb 22, 2012 4:48 PM  |

and cultural heritage.

| 55 | As of now, the economy and water take up most of the energy available. The Old Jail project will have to suffice at the present.   | Feb 22, 2012 8:30 AM  |
| 56 | One other project we were successful in was the RTHL Survey in our county that we worked on and completed for the Texas Historical Commission in April and May of 2011. Our CHC is still working to finish our Carson County Historical Marker Brochure project. We spent 2011 getting bids, bringing it before the Commissioner's Court, and gathering the information and pictures to be put in the brochure. We have a committee and we are ready to begin typing the information and putting it on a CD for the printers. We have been saving money for this project for several years and now have the funds needed to have it printed. The Commissioners said to present the final bill to them when we are finished and they might help us to pay for it. The biggest challenge we face in the coming year or so is to try to find help to save a one room school, the Liberty School, located in our county. We can't find a place to move it, and need funding to even begin. | Feb 21, 2012 10:25 PM |
| 57 | Our biggest challenge is educating the public. This includes the media and some city officials. Our office was updated with new heating and air which will protect the county records stored here  | Feb 20, 2012 12:22 PM |
| 58 | We have had some success in 2011 with getting more involved with the local school and with area youth organizations. We had over 700 children through one of our facilities during Halloween by serving as a treat stop. We also sponsored a Heritage Christmas Tree show for area youth organizations during Christmas which drew a nice crowd during the town Christmas parade. The challenge that we continue to face however, is being able to remain involved with kids as more and more of the schools curriculum is mandated by TAKS/STAR testing materials. There are also increasing economic challenges that face us as schools cut back on their field trip budgets.  | Feb 20, 2012 10:51 AM |
| 59 | We have provided the public with a Dickens County Historic map which designates the markers and locations and historic places- these have been popular with visitors to our county.  | Feb 20, 2012 10:11 AM |
| 60 | This past year as chairman we have been reaching out to those in the community that would like recognition for their home, building, family, etc. with an offer that the Commission will help and assist them with the research and writing of the narrative for the marker but that the owner would be responsible for payment. We at present are helping a cemetery with their designation, and think there may be interest from several to pursue either a subject marker or RTHL designation. Also to hopefully encourage more of the Commission members to attend meetings as well as a way for everyone to learn more about each community, we are going to have lunch meetings in each community where we will discuss needs, plans and also visit the historic sites there.  | Feb 19, 2012 10:21 AM |
| 61 | We are pleased with the markers we have been approved for, and all of the cemeteries that we have gotten historical statuses for. There are still more marker topics to pursue and more lone graves to document. We are excited about the upcoming picture book, and hope to have our cemetery and marker brochures completed by the end of the year.  | Feb 18, 2012 7:29 PM  |

63	Completed phase three of the Clock Tower project on the Courthouse lawn in Hempstead. Continue collecting videos of oral history of the county.	Feb 17, 2012 12:44 PM
64	We have found some World War I photos of two soldiers killed and buried in France and then brought home in 1921. Our Memorial Day display will be featuring WWI, with emphasis on the funerals of the two soldiers brought home in 1921.	Feb 16, 2012 1:22 PM
65	Following one CHC meeting in 2011, appointees toured the offices of the Webb County Clerk. We saw how historic records were being digitized. We were aware of the need for preservation action on historic records located at several sites in the County.	Feb 16, 2012 11:42 AM
66	This has been a very exciting year for us with many projects networking with other groups. That has proved beneficial for us, being a poor county with few resources, bringing new life and encouragement to our efforts. The internet has brought many inquiries about county history or people who once lived here and has provided research opportunities not readily available by other means. Many of our CHC members are older and not too energetic so just a few carry the load, but our older ones are the institutional memory, and therefore terribly important to grass roots history.	Feb 15, 2012 11:24 PM
67	Preservation events have been a lot of work but are very successful and worthwhile.	Feb 15, 2012 10:29 PM
68	A big challenge during 2011 was the heat and we did not get to restore any historical markers, but have that as high priority for this year if possible. Several of our appointees are called upon to research various topics for residents. We strive to record any historical information we receive from the public. When I completed the project as requested about our county's RTHL's that was sent to the THC, I contacted Bob Brinkman and he said I could do whatever I wanted with the information such as newspaper articles. I wrote articles about the history of each one, and our county newspapers published it along with a picture of each. It was a very impressive series. I am continuing by writing up articles of the history of each marker here in the county and submitting those articles. When finished, we have checked into putting together a small book for the public that will have all of that information included. We continue to sell our book that was published in May of 2010 and have a few remaining. We look forward to possibly attending a workshop if that is possible.	Feb 15, 2012 8:09 PM
69	This is a very important historic county but the City is actually more interested in preservation. The City recognizes the importance of preservation for tourism and regularly includes BCHC in planning. The City is a CLG but the County has not wanted to be involved. Maybe someday the county will provide an office for BCHC with some sort of funding for staff. We have suggested to the County that a regional history museum in the old federal building on Alamo Plaza would be a great asset for the city and county.	Feb 15, 2012 3:31 PM
70	Now that our town has surpassed the 100 year mark, actually 105, we are beginning to show some age on many of our old buildings. Fortunately the Post Sanitarium building that houses the museum is in great condition because I have	Feb 15, 2012 1:54 PM

made it my life's work and with the financial support from the county, we have been able to replace all 54 windows, restore the basement and even install a three-stop elevator. The Algerita building is another story, it will be torn down in the near future. It is on the National Register. This is a sad thing for it is one of the first buildings in the town of Post. We really do appreciate the many resources provided to us by the THC. Thanks

| 71 | Last year was very slow for us. I was not reinstated as chairman until late in the year and the members have not had time to devote due to work or illnesses in families but this year is going great with BIG plans well under way for our 150th celebration.   | Feb 15, 2012 1:50 PM  |
| 72 | One of the major challenges is that projects are begun with including the Historical Commission.   | Feb 15, 2012 1:03 PM  |
| 73 | The NCHC has been in existence for many years but was recently reestablished as an active community entity about three years ago. The diversity of our group allows for a broad impact, and we are still seeking household identity throughout the community. Thank you for the opportunity for allowing our members to serve others.  | Feb 15, 2012 9:49 AM  |
| 74 | OUR CHC BOARD IS BECOMING MORE ACTIVE WITHIN THE COUNTY THUS INCREASING THE AWARENESS OF THE COUNTY IN PRESERVATION AND HISTORY.   | Feb 14, 2012 2:37 PM  |
| 75 | Due to the various involvements of the commission members, we feel we have been successful in our endeavors to inform the public about our goals and interests of the county. Many of the activities of members include and involve history preservation and sharing knowledge with others about the importance of preserving our history.   | Feb 14, 2012 10:26 AM |
| 76 | To be honest, due to the extreme heat and drought, 2011 seemed like an "off" year! Our area is largely agricultural so many were affected and the heat made it difficult to plan many of our activities. We are looking forward to a better year! One question I have concerns the survey we did of RTHL's I think in 2010? Many of my members worked really hard on getting me that information and we submitted it on time, but I don't think we ever heard anything about it-or did I miss something? Just seems like after all that work, there should have been some feedback. Sorry if I missed something. | Feb 9, 2012 10:43 AM  |
| 77 | We have received much help from the marker department, cemetery department and the CLG department at the THC and have had successes in those areas. We are very appreciative of the help. We are very excited about our upcoming countywide survey and know it will be a challenge.  | Feb 8, 2012 3:09 PM   |
| 78 | Right now we are in need of having our building/office windows repaired. Over time the sills have rotted out and when it rains, the water leaks down from the upper story to our offices below. This is endangering our records as well as the building itself. The county has been slow in getting this repair done but, hopefully after another meeting just this past week with the county judge we might see some repairs  | Feb 6, 2012 9:51 AM   |

our existing commission members. Efforts are ongoing to bring in new, energetic volunteers with sufficient time to take on these initiatives. There are many programs that we would like to take on.

| 80 | In these difficult economic times money (or lack of) is always in the fore front and the most challenging issue to overcome. This CHC has always operated on low income, like many others, and still managed to accomplish a great deal. We plan to accomplish even more in the future regardless of the economy. We'll always have history to record.  | Feb 2, 2012 7:32 PM  |
| 81 | One of our challenges is to interest younger residents in the history of our county and our CHC. We are hoping the Matagorda County For Kids presentations will develop an interest in students who will take leadership in the years to come. It would be beneficial for all CHCs if you could somehow make the three project responses from all of the submitted reports available to all CHCs so unique ideas could be tried in other areas.   | Jan 25, 2012 6:50 PM |
| 82 | LINDA AND MARK STONE PRESERVED A 19TH CENTURY BUILDING FORMERLY LOCATED AT 433 WATER ST. IN KERRVILLE. THE KCHC RECOGNIZED THEM WITH A CERTIFICATE OF APPRECIATION. WE HAVE CONCERNS ABOUT DEVELOPERS AND ELECTED OFFICIALS ATTITUDES ABOUT SAVING HISTORIC BUILDINGS AND SITES. THIS IS A CHALLENGE BECAUSE WE DON'T HAVE FUNDS. WE MUST RESORT TO PUBLIC PRESSURE.  | Jan 25, 2012 4:36 PM |
| 83 | Our biggest challenge is keeping an interest in history alive. The proposed publication of a new history book has sparked a new interest. There are historic homes in the county and the commission is working to develop a county recognition project.   | Jan 25, 2012 3:35 PM |
| 84 | Publicity of CCHC efforts and the obtainment of THC markers for the county have brought forth a renewed effort in Brownsville that has seen more and more restorations being conducted privately of commercial and residential structures in the community. This is totally a new attitude and is wonderful to behold. In San Benito the historic Andrew Jackson Hotel is being renovated by its new owners. In Harlingen the 1928 Reese-Wil-Mont Hotel has been completely renovated into a very beautiful and useful structure that has become the focal point for the downtown area. | Jan 25, 2012 3:28 PM |
| 85 | We really have the public, schools, and our elected officials behind us. We want to continue to grow and do more for our County and State. I really do not see funding as a problem!  | Jan 21, 2012 4:04 PM |

| 87 | As mentioned 2011 has been challenging, Drought, wildfire and the loss of our dedicated workhorse Historical Commission Chairman has caused all of the members to become complacent..I have been challenged with the task of recharging the group and I have not been very effective. I have been able to find many who will serve on the committee but have not found the right chairman to energize the group. No Excuses other than my lack of leadership, We are concerned and dedicated to protecting and preserving our heritage. Don't Give                                      | Jan 16, 2012 3:38 PM |

| 88 | The JDCHC is in some ways unique as Jeff Davis County is small, has a low population, and only two towns - one incorporated (Valentine) and one unincorporated (Fort Davis). Most importantly, a high percentage of its population is preservation minded. The JDCHC has few challenges. It holds a very favorable position in the county. It is looked up to for advise and guidance on preservation matters and it is supported and works well with county officials and the National Park Service at Fort Davis National Historic Site.  | Jan 15, 2012 8:01 PM |
| 89 | Other accomplishments of the Navarro County Historical commission for 2011: 1) Negotiated an agreement to move a headstone (Cook girls) to its original location from Frost cemetery to Old Pevehouse Cemetery. 2) Negotiated and completed the relocation of the Hamilton-Bragg historical marker which was placed in the wrong location. 3) Completed the Texas Historical Commission project to inspect, photograph, and report the condition of all twenty (20) Recorded Texas Historical Landmarks (RTHL's) in Navarro County. 4) Received and installed three (3) replacement historical markers: a. Oak Valley School-Oak Valley (Hit by a car) b. Battle Creek Burial Ground-Dawson (Stolen several years ago) c. American Well and Prospecting (Hit by Fed-Ex truck) 5) Received and installed one (1) new historical marker: a. Gen. Lucian Truscott (Chatfield) 6) Submitted two (2) new marker applications: a. Davidson Family Cemetery b. Dunn-Johnston Cemetery c. Installed information board 7) Repaired headstones at the Dunn-Johnston Cemetery and provided a sign for the cemetery. 8) Repaired headstones at the Anderson Family Cemetery. 9) Cleared brush at the Sloan Cemetery near Powell. (This was a complete cleaning of one of the most overgrown cemeteries in the county). 10) Installed a sign, near Dawson, at the site of the William Richey Home and Cemetery circa 1842. (This cemetery was reported destroyed, and a barn placed on top of it). | Jan 15, 2012 9:37 AM |
| 90 | We are working on getting the Travel Guide entitled "Red River Wars--1874-1875--Clash of Cultures" printed for all of the Region 16 Schools in the Panhandle (26 counties) and our Museums and Visitors Centers. This Booklet is about our Area and it is a Great Teaching tool for our teachers and Visitors to learn our local history .. We have partenered with the Texas Plains Trail Region Group to obtain funding fo accomplish this very worth while project. We are writing grants and have permission from THC to do this project. It is a very worth while project !!!  | Jan 14, 2012 5:33 PM |
| 91 | We are affected by budgetary constraints. For example, our funds are adequate enough for us to invite only one guest speaker from Austin or some other area and pay their travel expenses in order for that person to address the CHC. Also, the THC Historic Cemetery Designation Form requires a \$25 application fee. In some cases, we (as opposed to the property owner) may have to pay that fee in order to receive the designation. I have been interviewing veterans in the county and recording my meetings with them, making a DVD of the interview and submitting it, along with paperwork and some personal memoirs, etc., to the Library of Congress in Washington, D. C., for the Veterans History Project. I give copies of the DVD to the veteran and to the county historical museum for public use. The county reimburses some of my expenses, but I imagine I will not be able to count on that in the future.  | Jan 14, 2012 2:11 PM |
| 92 | Attracting younger members to our CHC is an issue. More cemetery work needs   | Jan 12, 2012 5:06 PM |

to be done in the County and our members are getting too old to walk these locations and do the needed work.

| 93 | We feel that 2011 was a huge success with events, historical training, fundraising, moving into our new courthouse office. We have one major challenge this year: update a current list of Bee County cemeteries and place them online. We want to provide community understanding of marker projects, protection of cemeteries and other information to advance historical preservation in this area. We are "challenged" also with no THC conference. While the PT conference is great to attend, we may need additional training. We hope to continue a dialogue with THC to have training in summer and/or next fall. | Jan 10, 2012 11:58 AM |
| 94 | Titus County is presently faced with more challenges than preservation probabilities... funding is not in our future...   | Jan 10, 2012 5:33 AM  |
