INTRODUCTIONS
Why do you care?

Pick a partner that you don’t know, and take 2-3 minutes each to ask the following questions about each other:

{Name and title/board role}
{What is your dream job?}
{Why are you here today?}
{Why do you care about your organization’s mission? (One statement about why you think your job is important or interesting)}

Now introduce your partner to the group.
RESOURCES YOU WILL TAKE AWAY

Binder Review
The Story of Philanthropy

Beginnings

and

Trends Today
“Philanthropia” was coined in ancient Greece by Aeschylus, the playwright of Prometheus Bound.

*Philo*: “loving” as in “caring for”  
*Anthropos*: mankind/humanity

**Philanthropia** – the love of humanity, in the sense of caring, nourishing, developing, and enhancing what it means to be human.
Philanthropy means voluntary action for the common good\textsuperscript{1}. It is the act of imagining, and implementing through strategic investment, systems and methods that elevate programs to the highest standards of excellence in order to enhance the quality of human life, for every human life.

\textsuperscript{1}Keep Your Donors: The Guide to Better Communications and Stronger Relationships, by Tom Ahern & Simone P. Joyaux
1630: John Winthrop - City Upon a Hill sermon aboard the Arbella, heading en route to Colonial America
1630: John Harvard - bequeaths library and half of his estate to newly founded school in Cambridge, Massachusetts.
1630: John Harvard bequeaths his library and half of his estate to newly founded school in Cambridge, Massachusetts.

1643: Harvard University conducted what is believed to be America’s first recorded fund drive. It raised 500 pounds and was thought a “great success.” That same year Harvard creates the first scholarship fund with a gift from Ann Radcliffe & Lady Mowlson.
George Washington’s Endowment, 1796 – Liberty Hall Academy receives its first major endowment - $20,000 worth of stock.

Benjamin Franklin’s Bequest, 1789 – £1000 (about $4,400 at the time) donated to endow funds in Boston and Philadelphia.

Thomas Jefferson’s Legacy – Re-established the Library of Congress, 1814; founded the University of Virginia, in 1819, at the age of 76.

Paul Newman & Newman’s Own – 100% of profits from Newman’s Own to charity; Newman’s Own Foundation – 35 years of giving, $530 million in donations.

Ima Hogg – The Bayou Bend House Museum (American decorative arts); the Varner Hogg Plantation (donated to the state of Texas in 1958)
PHILANTHROPIC TRENDS

Donor types include:

- Individuals,
- Bequests,
- Corporations,
- Foundations.

Which of these do you think donates the most annually?
2018 contributions: $427.71 billion by source
(in billions of dollars – all figures are rounded)

- **68%** Individuals
  - $292.09 billion
- **18%** Foundations
  - $75.86 billion
- **9%** Bequest
  - $39.71 billion
- **5%** Corporations
  - $20.05 billion

PHILANTHROPIC TRENDS

In the following pie chart, sectors/recipient are categorized as:

- Religion
- Education
- Human services
- Animal welfare
- Gifts to grant-making Foundations
- Health
- Public society benefit
- Arts/culture and humanities
- International affairs
- Environment/animals
- Individuals

What sector gets the largest share of contributions?
2018 Contributions: $427.71 billion by Type of Recipient (in billions of dollars – all figures are rounded)

- **Human Services**: 12% ($51.54)
- **Education**: 14% ($58.72)
- **Religion**: 29% ($124.52)
- **Unallocated Giving**: 2% ($6.53)
- **To Individuals**: 2% ($9.06)
- **Health**: 10% ($40.78)
- **Gifts to grantmaking foundations**: 12% ($50.29)
- **Public-Society Benefit**: 7% ($31.21)
- **Arts, Culture & Humanities**: 5% ($19.49)
- **International Affairs**: 5% ($22.88)
- **Environment/Animals**: 3% ($12.70)

Source: Giving USA Foundation | Giving USA 2019
From 2017 to 2018:

- Total Giving up 4.3%, from $410.02 billion to $427.71 billion
  - Religion down 1.5%, to $124.52 billion
  - Education down 1.3%, to $58.72 billion
- Human Services same as last year (-0.3%), to $51.54 billion
  - Foundation down 6.9%, to $50.29 billion
- Health Organizations same as last year (-0.1%), to $40.78 billion
- Public-Society Benefit Organizations down 3.7%, to $31.21 billion
- Arts, Culture & Humanities same as last year (+0.3%), to $19.49 billion
  - International Affairs up 9.6%, to $22.88 billion
  - Environment and Animal Organizations up 3.6%, to $12.70 billion
  - Individuals up 15.1%, to $9.06 billion

Development & Fundraising: The “Why” and the “How"
Philanthropy means voluntary action for the common good\(^1\). It is the act of imagining, and implementing through strategic investment, systems and methods that elevate programs to the highest standards of excellence in order to enhance the quality of human life, for every human life.

\(^1\)Keep Your Donors: The Guide to Better Communications and Stronger Relationships, by Tom Ahern & Simone P. Joyaux
Development is the essential partner of philanthropy. Fund development makes philanthropy possible by bringing together a particular cause and the prospects and donors who are willing to invest in the cause. The goal is to acquire donors of time and money who stay with the charity. This is done through the process of relationship building. With the donor at the center, fund development nurtures loyalty and lifetime value, thus facilitating philanthropy\(^1\).

Fund development is concerned not only with raising money, but doing so in a way that develops reliable sources of income that will sustain the organization through the realization of its long term mission and vision. It requires a strategic plan that relates funding to the purpose and programs of the organization.

\(^1\)Keep Your Donors: The Guide to Better Communications and Stronger Relationships, by Tom Ahern & Simone P. Joyaux
Fundraising is the activity that is conducted with the intention of raising money for a nonprofit organization or charity. It usually involves asking people for donations, using a variety of communication methods, asking people to purchase a product or service that supports the charity, or having people participate in an event of some sort.\(^2\)

---

2. *Fundraising or Fund Development – What’s the Difference*, by Ron Strand
Our Job/Goal as Fundraisers

Engage people who are very interested in, preferably passionate about, our organization (philanthropists), build lasting relationships between them and our organization (development), with the goal of matching their interest with our organization through a gift (fundraising).
MAKING THE CASE – WHY DO WE NEED TO RAISE MONEY?

Mission Support

- Fundraising enables hundreds of thousands of organizations across the world to serve billions of people – serve their mission
- Helps connect people to the vital work of the organization

Organizational Sustainability & Stability

- Need capacity to get the job done
- Perpetual crisis management in conflict with effective mission delivery
- A stable funding base, an ongoing and predictable income, fundraising opportunities for special projects critical for long term mission delivery
The Fundamentals and Key Principles of Development & Fundraising
THE FUNDAMENTALS & KEY PRINCIPLES

SOURCES OF FUNDING FOR NONPROFITS

- **Earned Income**
  - Sales of products
  - Services for a fee
  - Special events

- **Philanthropy/Fundraised Income**
  - Individuals
  - Foundations
  - Corporations
  - Government
  - Organizations

- **Investment Income**
  - Interest
  - Equities/Bonds/Real Estate
People
Fundraising is all about people and building relationships

Participation
Involving and engaging potential supporters in your mission

Process
“Fundraising is not an event; it is a process.” - Edgar D. Powell

Plan
Your organization needs a good fundraising plan in place in order to succeed
Good organizational management key to a successful fundraising program

Relationship based – connecting the interest of donors to the work of the organization

Critical building blocks
- Commitment and leadership
- A clearly defined need
- Credibility and track record
- Constituency

People give to people
- Peer asks
- Success comes to those who ASK
- Stability in diversity
THE FUNDAMENTALS & KEY PRINCIPLES

- There are people who give and those that don’t - the engaged vs. the disengaged
  - Philanthropy a personal culture
  - Demonstrating a desire to give

- People that give will continue to give
  - A trend towards increasing generosity
  - Question – not whether they will give but how much and to whom

- People that give, do so freely and happily
  - Personal choice; voluntary
  - Making a difference in the community
  - Would do more if they could

- People who give will seek out wise “investment” opportunities
  - Organizations that show effectiveness and efficiency will succeed

- Attitude more that strategy
  - Fundraising an honorable tradition
  - An opportunity for donors to make a difference
  - Fundamentally an exchange – investment of resources for a “piece of action”
THE FUNDAMENTALS & KEY PRINCIPLES

- In order to build a strong development program, an organization needs:
  - A well thought-through **strategy**
    - What is your vision and mission
    - What are your long term funding needs
    - What are the immediate funding needs
  - **Capacity to implement** the strategy
    - Leadership
    - Infrastructure
    - Funding Sources
  - **A strong story to tell**
    - Case in words
    - Case in numbers
    - Case in impact
Building Capacity
Capacity

A 3-year development plan will identify resource needs in:

- **Leadership**
  - Building strong management and governance; Board
  - Clarify expectations of board/leadership’s role in fundraising
  - Staff vs. Board – clarify roles in fundraising

- **Infrastructure** – Putting Systems and Human Resources in place
  - Human Resource needs – What level of staffing do you need?
  - Identify infrastructure requirements – IT, Databases, accounting
  - Guidelines for donor management

- **Sources**
  - Prospects – Donors, grants, sponsorships
Relationship Management....

- Applies to all of your constituencies (board, staff, volunteers, donors)
- Offers a framework for management of resources
- Develops and reinforces shared values between you and your donors
- If good relationship management is absent, the relationship deteriorates
- Managing relationships is everyone’s job – it cannot be delegated
At the Board Level

- Every Board member has a role to play
- Recruit a development chair from the board
- Assign a committee to assist the chair in managing the process
Never forget that fundraising is the primary responsibility of all boards. It cannot be delegated. Everyone must participate for success. The person managing the development process is not solely responsible for fundraising.
Infrastructure Needs

- **Human Resources**
  - Hire a development officer OR
  - Hire a development coordinator OR
  - Hire administrative staff
  - AND/OR (if you don’t have staff)
  - Hire a development consultant to manage the process OR
  - Assign a Board Fund Development Committee to lead development efforts

- **Information technology**
  - Database – what should you use
  - Accounting systems
  - Research resources
The Types of Sources

- **Individuals**
  - Few or no formal guidelines
  - No unsolicited proposals
  - Less formal proposal (if at all)

- **Institutional donors**
  - **Government**
    - Formal guidelines, deadlines
    - May not be as personal
  - **Corporations**
    - Strategic – marketing/community relations-based proposal
    - Local gift vs. corporate foundation
  - **Foundations**
    - Formal guidelines, deadlines
    - Accessible grants administrators

- All of these may inter-relate – know your donor
BUILDING CAPACITY – SOURCES

- **Individuals**
  - Annual Gifts – unrestricted operating
  - Major Gifts – unrestricted/restricted program/capital

- **Foundations**
  - Charitable Fdns
  - Corporate Fdns
    - Operating grants – unrestricted & Restricted
    - Restricted grants – Programs/ Capital/ Endowments

- **Corporations**
  - Partnerships – long-term programs
  - Sponsorships – event specific

- **Government/ Agency**
  - Restricted grants – programs/capital/scholarships
  - Research/Planning/Technical Assistance
BUILDING CAPACITY – SOURCES

Unrestricted Operating
- Annual Gifts from individuals
- Annual Gifts from foundations, sometimes corporate partnerships

Restricted Operating
- Foundations (typically annual)
- Corporations (typically annual, though not common)
- Individuals and Foundations (major gifts), Corporations (long term)
- Public Agencies/Allied organizations

Restricted Program

Capital
- Individuals (capital gifts)
- Foundations (capital gifts)

Endowments - Sustainability
- Individuals (planned gifts)
- Foundations (major gifts)
The Development Process
Development Vs. Fundraising
What’s in a word? A lot, actually!!

A “fundraiser” is one who solicits contributions or pledges.

‘Development,’ on the other hand, encourages us to think about our work in ‘relational’ terms—the building, over time, of a continuous, powerful and life-long connection between a donor / philanthropist and the organization or cause we represent. When we approach our work as ‘development,’ the process includes extended cultivation, thorough education, and attentive stewardship — as well as appropriate solicitation!

Source: Zach Shefska, Fundraising Report Card
Whichever your donor type, and whatever your funding needs, the development process is the same for all.
THE DEVELOPMENT PROCESS

Personal visits
It’s Just Like Dating!
With an important difference: Instead of looking for your one personal soul mate, you are looking for **multiple lifetime friends** for your organization!

**First “Date”**
- Staff/natural partner
- Get to know each other
- Inquire about the donor’s interests
- Share your vision
- See if there is mutual interest to continue the conversation…

**Second “Date”**
- Create shared experiences between the donor and your nonprofit
- Communicate with your donor
- Understand each other’s needs
- Involve donors in decision making process
- Ask their opinion or seek feedback
Make your contacts meaningful

- **Communicate**
  - Thank you letters, phone calls, holiday cards, annual report, email updates, newsletter, website, social media...be thoughtful

- **Provide Substance**
  - Impact made; Accomplishments; Challenges your organization faces; Appreciation for their support

- **Engage**
  - Invite your donors to participate

Remember......

- **Amount of time** spent with donor is in direct correlation to the **size of the gift** you intend to solicit.

- To **make each donor feel special and important to your organization** no matter their gift potential, while allocating your limited resources effectively.

- Donor retention - **be a friend** to your donor in **good times and in bad** and **when you don’t have a request**

- The goal is not to get a **gift** but a lifelong **donor** (James Gregory Lord, “The Raising of Money”)
THE DEVELOPMENT PROCESS – SOLICITATION

- Written Proposal
- Email
- Personal Visit
- Phone Call
- Letter

Solicitation
THE DEVELOPMENT PROCESS – STEWARDSHIP

Stewardship: Personalize it!

- Invitations
- Thank You Letter
- Written update on impact of gift
- Thank You Phone call
- Tax Receipts
THE DEVELOPMENT PROCESS – BACK TO CULTIVATION

Cultivation: Personalize It!

- Letters/Notes
- Social Media
- Site Visits
- Newsletters
- Affinity Groups
- Special Events
- Personal visits
The Process

- Preparing
  - Cultivate the prospect – listening and learning
  - Understand the case
  - Know the donor – motivations and giving history
  - Know your team

- Asking
  - Warm up
  - Present the case
  - Ask for a specific amount
  - Pass the floor

- Negotiating
  - Focus on terms, not the amount
  - Meet the donor’s needs
  - Find a “yes”
  - Summarize the deal
  - Thank the donor

THE DEVELOPMENT PROCESS
The Process (cont’d)

- Following up
  - Thank again
  - Capture key information
  - Send necessary materials and information
  - And the cycle begins again – the next phase of cultivation
Break – 10 Minutes
Stories are to nonprofits what statistics are to corporations.
To be effective as a fundraiser, you need to be able to talk about:

- Why your mission is unique
- What you are trying to accomplish - a measurable goal
- How your work relates to the donor’s interest
- The impact a gift will have in the community, on the constituents you serve, on people’s lives. How you will contribute to a better world

To be effective as a fundraiser, you need to be able to be a great storyteller
What makes narrative so powerful?
- Stories help us remember
- Stories influence how we decide
- Stories link us to our sense of generosity

Elements of a great story
- Character
- Desire – to change something
- Conflict – the obstacles to accomplishing the change
In developing and telling your story, think as the donor

- Do I belong here?
  - Do I see myself in the story? Do I feel a genuine pull? Is it personal? Is there a relationship?

- What do YOU stand for?
  - Does the organization reflect my personal values and worldview? Does its work reflect who I am?

- Are you for real?
  - The cause may be worthy, but is the organization worthy of contribution? Where is the money going? Are you demonstrating authenticity and legitimacy?
  - Is your story one that I can be proud of?
Developing a good story

- Gather your information from people your organization has helped
- Storytelling is a craft – practice and perfect
- Giving is mostly emotional and sometimes irrational; Do not be afraid of emotion in your storytelling
- The hero of the story is the person who benefits from your organization’s work, and not the organization itself
- Focus on your central narrative – do not overdo the stories
- Create a sense of urgency – set a goal and a deadline; make it close; create scarcity, an opportunity that is running out; be specific – make your call to action clear, quick and easy
- USE VISUALS – humans are visual first; good visuals make people feel first and think second; visuals are most effective in evoking emotion and getting people to take action – use them intentionally and strategically
- Listen to your donors’ stories – they will tell you about their priorities and how to position your ask; listen to their stories before telling your own
Storytelling on Social Media

- Pair your storytelling with social media to engage supporters and to inspire them to take action
- Social media works because
  - *It's dynamic* – you can combine visuals with text to make a story richer
  - *It puts your story front and center*
  - *It's easy to consume*
  - *It provides instant feedback*
  - *It is shareable*
- Use social media to
  - *Connect your donors to your work*
  - *Showcase your constituents*
  - *Showcase your donors*
Emotion – The Premium Storytelling Fuel

“Storytelling is the language of emotion.” — *Mark Rovner, founder of Sea Change Strategies*

“The more vivid the story—through narrative or through imagery—the more emotionally arousing. And emotions are what triggers the impetus to help. The more surprising finding is that showing statistics can actually blunt this emotional response by causing people to think in a more calculative, albeit uncaring, manner.” — *Deborah Small, University of Pennsylvania*

Emotion is power. Remember:
- Give your donors the opportunity to feel good by doing good
- Don’t just talk in numbers or statistics – a cerebral case for your cause is less effective than a heartfelt story
- Personal connections and stories have a big effect on a person’s inclination to give – If you’ve got ‘em, use ‘em
The Case for Giving – Developing Your Story
The Story in words – The “Case”

The Story in numbers – Budget

The Story in impact - Evaluation
The Story in words – The “Case Statement”
The Story – Building a Strong Case/Narrative for Support

- Does the constituency understand the need and the urgency?
- Outreach – Is there an awareness problem?
- Is the outreach of the organization an isolated aspect of the organization’s work?
- Are you speaking the language of your audience?
  - Make issues simple to understand, not simplistic
- Invest in outreach
- Important AND urgent
- Community engagement a priority
The Case Statement…. 

- Is donor-oriented / donor-facing (written for donors)
- Clearly illustrates your organization’s mission and vision for the future
- Tells donors why you need funding and what outcomes you are seeking from their investment
- Offers strong reasons why prospects should make gifts to your organization.
- Is a 2-7 page document that tells donors who your organization is, what it has accomplished in the past, outlines your vision for the future, tells the donor why your organization’s vision matters and why the donor should care, and gives the donor a chance to get involved by making an investment in your non-profit.

Case statements cast a bold vision for a better future, and invite donors to get caught up in that vision.

Source: How to Write a Case for Support for Your Organization, by Joe Garecht
Key Elements of a Strong Case Statement

- What is the need that you are trying to address?
  - Manageable so that the grantor feels they can make a difference

- What evidence is there that this is a pressing need?
  - Why now?

- How is your organization uniquely qualified to address this need?
  - Track record; alignment with mission and past programs

- What will be the benefits of your action?
  - Talk about positive consequences, big and small
  - Be realistic about what can be guaranteed and what can fail

- What are the consequences if you fail?
  - Clearly lay out negative consequences, major and minor, of you do not act

Source: How to Write a Great Case Statement, by Joanne Fritz
The Structure of a Case Statement

- An emotional opening
  - The first one or two paragraphs are critical – pack an emotional punch
- Your mission and vision
  - Why does your organization exist? What is your big, bold vision for the future?
- History of the organization
  - Talk about accomplishments till date
- A description of current programs and proof of impact
  - Talk about the impact of these programs; why are they worthwhile? Build credibility
- What is the critical need in your “community” that you have to address
  - How much money does your organization need? What will it be used for? Why now?
- Clear programmatic goals and Objectives
  - SMART objectives – Specific, Measureable, Achievable, realistic, Time-bound
- How will you evaluate success?
  - What are the changes you will see if you program is successful?
- Use the case statement to develop proposals

Source: How to Write a Case for Support for Your Organization, by Joe Garecht
Define your project in measurable terms

- State your **Goals and Objectives for the project** as they relate to the mission.
  - **Specific**
  - **Measurable**
  - **Achievable**
  - **Realistic**
  - **Time-bound**

- What is the **purpose** of your project?
- What are the expected outcomes? What do you hope to **accomplish** with the grant funds?
- When will your project be completed?
Define your project in measurable terms

- Who will be responsible for implementing the project?
- Will implementation affect other staff, volunteers, or require outside contractors?
- What percentage of time will be needed from each staff, contractor, vendor?
- How many will it impact/help?
“A lack of method is not the problem itself.”

Is this the Problem? Instead of:
- There is no tutoring program
- Museum does not have enough space
- There is no training program for avocational archeologists
- There is no Museum at San Felipe

Describe the current situation:
- Juvenile crime rate is increasing
- Public does not have access to a large portion of an art collection
- There are not enough professional archeologists in the state to address the research needs
- The significance of San Felipe will be lost to future generations because there is no extant structures to be preserved, only the archeology and the archival research
It’s a bear!

The Story in Numbers - the Budget and Financials

What is the need in $s?

How is the financial health of your organization?
BUDGETS – WHY DO YOU NEED ONE?

Never forget that you are using *other people’s money* to accomplish your organization’s goals!

- Can the project be completed with this budget?
- Are expenses reasonable for the market and project – or too high or too low?
- Is the budget consistent with proposed activities?
- Is there sufficient budget detail and explanation?
Grantee must…

- Know the project components and associated costs

- Have the ability to
  - Track the progress of the project and
  - Complete the interim and final reports

- Be able to answer any financial question the donor may have at any time during the project.

Grantors have a right to question each line item.
Budgets and formats will vary by donor
- Federal Grants
- State Grants
- Private Foundations
- Corporate Foundations
- Individual Donors

Types of grants will vary with donor
- Immediate disbursement
- Reimbursement grants

Some are simple, some are complicated
- Requested amount in a letter
- General budget on donor’s form with narrative
- Specific budget that auto-populates another part of the application
- Capital vs. programmatic vs. operating
BUDGETS – ACCURATE AND REALISTIC

- Prepare the **Revenue Budget**
  - The “known budget” and the “what if” budget
  - Known budget includes all revenue in hand
  - “What if” budget includes money that might come in

- Prepare the **Expenditure Budget**
  - Include all projected expenses (staff, services, rent, utilities, supplies, etc.)
  - Include a line items for contingencies
  - Try breaking down into fixed and variable expenses
  - Include expenses in the time period they are incurred

- Prepare **Overall Budget**
  - Planning tool

- Prepare a **Budget Report**
  - Compare actuals to budgeted amounts
  - Controlling tool

- Avoid vague, all-encompassing categories
Total Project Expenses

- Staff (who is responsible for the project)
  - Project manager (hourly + benefits)
  - Program staff (hourly + benefits)
  - Project administration (hourly + benefits) (accounting staff, staff time for reports, bank fees)

- Services
  - Marketing
  - Design
  - Printing
  - Evaluator
  - Sub grantees

- Facility rentals & Equipment
- Postage & Supplies
- Travel (mileage + gasoline + hotel + food)
- In-Kind supplies and services
- Other
Total Project Revenues supporting the project

- **Cost share** (what YOU pay for)
  - Project expenses you plan to cover
  - Staff time & benefits used during project
  - Volunteer time: in 2010, each volunteer hour was valued at $21.36*
  - Ergo, you must keep very specific records of volunteer time

- **Match**
  - Other monies you have secured or requested for this project
  - In-kind contributions of supplies and services

- **Donor** (what THEY will pay for)
  - The specific amount requested
  - What that amount will pay for
  - Donor’s grant should apply to the overall project budget; do not restrict it to a specific item in the budget
BUDGETS – ACCURATE AND REALISTIC

Do not pad your budget!
Do not underestimate!
Get bids/quotes!
Keys to a successful budgeting process

- Clearly Identify objectives that are aligned with the mission and strategic plan
- Determine the financial resources that are needed and available to reach the goals and accomplish the objectives
- Involve staff and board in the process to improve accuracy and build commitment to the plan and project
- Document! Do not rely on memory. Write down assumptions and formulas. This will be very important in managing the budget throughout the life of the project
- Customize your process to your organization.
BUDGETS – IT’S THE DONOR’S MONEY

What happens when unexpected costs come up or something changes??

CALL YOUR DONOR AND DISCUSS IT!

Don’t be afraid!

Launch the project as soon as possible after receiving funding.

Get permission first from the grantor if you want to spend the money on other related expenses.

If they expect excess, immediately begin to plan how to expend the funds.

Hey! Great news! The workshops cost so much less than we thought!

Um, yeah. We just found out that our contractors are delayed by 6 months.....

We found asbestos when we pulled off the bricks! This dramatically changes the cost of the project!!

Don’t be afraid!
Avoid needing to return money!

- Maximize your award by searching for most cost effective ways to deliver a quality project.
- Launch the project as soon as possible after receiving funding to avoid holding their funds too long and/or having an excess at the end without enough time to identify a legitimate way to spend it.
- Early on, make sure sub-grantees are going to use all of their allotments.
- If they expect excess, immediately begin to plan how to expend the funds. Can you serve more people? Can you acquire additional equipment that can be used now and in the future?
- Get permission first from the grantor if you want to spend the money on related expenses that are outside of what was specified in the original grant. Don’t be afraid!!
What is the organization’s financial health?

- Does the organization conduct an annual audit?
  - What is the financial health of the organization
  - How is the organization managing its financial resources
  - How is the organization’s fundraising ability
- Does the organization file its IRS tax form 990 each year?
  - What grants has the organization received
  - Who provides oversight and governance
- Can the organization provide copies?
The Story in Impact

How do you evaluate the impact and therefore the success of your project/program?
Why conduct an evaluation?

- Was the hypothesis correct? Did you actually do what you set out to do?
- Determine if the methods specified were used, and if the objectives were met.
- To find out if an impact was made on the identified need.
- Obtain feedback from the people served and other members of the community.
- Maintain control over the project (evaluations are done at various points in the project).
- To make changes in the program midstream, if necessary, to ensure the program's success.

Carlson and O'Neal-McElrath, authors of Winning Grants, Step by Step
Questions to ask as you design the evaluation

- What is the evaluation's purpose?
- How will you use the findings?
- What will you know after the evaluation that you didn't know before?
- What will you do as a result of the evaluation that you couldn't do before because you lacked the relevant information?
- How will the program better serve the clients and community?
Outcomes, not Output

- Benefits for participants during or after involvement in your program
- Relate to changes in knowledge, skills, attitudes, values, behavior

❖ How will you define concrete, measurable outcomes for your program?
❖ What data-collection strategies will you use?
❖ What uses will you make of your findings?
❖ Qualitative vs. quantitative data – use those anecdotes!
  ➢ Describe the qualitative and quantitative methods used; rationale for use
  ➢ Make sure the evaluation component of your proposal connects with the proposal's objectives and methods. If those objectives and methods are measurable and time-specific, the evaluation will be easier to design
Points to Ponder

- Define the problem you are trying to address. Who is your audience? How does your project or program address it? What is the funding need and what will you use it for?

- What is your “hook”? What do you want the visitor to your project/site take away from your program/site, and therefore the reader from your narrative?

- What makes your project/program/site relevant today? Is there something you want visitors to find that is relevant to their own lives?
Lunch – 30 mins

Out to lunch
Understanding Grants & Grantors
**Contract**
- The agency puts out a Request for Proposals, broadly defining the project goal, and the specifications.
- The Contractor proposes a way to meet the organization’s goal, describes how the job can be done within their specifications, the contractor gets paid to do the job.

**Grant**
- The Grantor defines their goals with basic guidelines, and usually with few specifics.
- Grantee describes why and how their project fulfills grantee’s mission, how much it will cost to do the job. If they’ve made a successful case, they’re paid to the job.
TYPES OF GRANTS

Individuals
- Annual Gifts – unrestricted operating
- Major Gifts – unrestricted/restricted program/capital

Foundations
- Charitable Fdns
- Corporate Fdns
- Operating grants – unrestricted & Restricted
- Restricted grants – Programs/ Capital/ Endowments

Corporations
- Partnerships – long-term programs
- Sponsorships – event specific

Government/Agency
- Restricted grants – programs/capital/scholarships
- Research/Planning/Technical Assistance
TYPES OF GRANTS

- Operating Grants
- Planning Grants
- Program Development/Project Support
- Capital Grants
  - Bricks and Mortar
  - Endowment
- Technical Assistance Grants
TYPES OF GRANTORS

Government

Tax-Exempt Organizations
(Foundations, Organizations)
Federal
- 26 federal agencies offer more than 1,000 grant programs in 21 categories.
- NEH: National Endowment for the Humanities
- National Park Service
- IMLS: Institute of Museum and Library Services
- National Science Foundation

State
- Texas Historical Commission
- Texas Parks and Wildlife
- Humanities Texas

Local
- Austin Parks Foundation
- Capital Metro Transit Authority
- City of Austin
Potential for very large grants

Staff time and administration in managing government grants

Have been diminishing overall for decades

Subject to Congressional and Legislative influences

Competition is fierce and becoming fiercer

Often judged by panels of reviewers
Foundation Fundraising
TYPES OF FOUNDATIONS

- **Public Foundations**
  - Another name for a public charity

- **Private Foundations** (Non-Operating Foundations)
  - A nonprofit corporation or a charitable trust
  - Principal purpose – making grants to unrelated organizations, institutions, or individuals for scientific, educational, cultural, religious, or other charitable purposes
  - Derive their funding support from a single individual, or family
  - Managed by their own Board of Directors

- **Family Foundations**
  - Funds derived from a single family
  - Family members as trustees

- **Corporate Foundations**
  - Derive their funding support from a corporation

- **Operating Foundations**
  - Undertakes charitable activities
  - Significantly engaged in own projects in a continuing and sustained fashion

- **Community Foundations**
  - Non-profit philanthropic org, charities
  - Builds permanent named funds for the benefit of residents in a given area
They have to give it away!

- Grant managers are required under the tax code to give away their grant monies by the end of the year.

- Offer them a great project to fund at an organization they trust to do an excellent job.

- Develop a reputation for your organization as a great place to support projects.

- Build relationships with foundations, so that you can work collaboratively with the grants officer on a request for funding.
WHAT DO FOUNDATIONS LOOK FOR?

- Capable Leadership
- High Quality Programs
- Innovation
- Impact
- Collaboration
- Evaluation
- Accountability
- Sustainability
- Giving by peers
You and Your Grantor: Building a Sustainable Partnership
LIFE CYCLE OF A GRANT

1. Letter of Inquiry (LOI)
2. Request for a Full Proposal
3. Proposal Development
4. Submission
5. Notification
6. Announcement
7. Grant Term begins
8. Progress Reports
9. Site Visits
10. Final Report
11. Project Development
12. Internal Review and Approvals
13. Institutional Endorsement
Spring Cycle Foundation A:

1. Applicant Informed: Jan 18th
2. Letter of Inquiry Due: Dec 15th by 5PM
3. Proposal Due: Feb 17th
4. Board Meeting: Jun 6th

GRANT PERIOD: July 1 - June 30th

Fall Cycle Foundation A:

1. Applicant Informed: July 6th
2. Letter of Inquiry Due: June 15th by 5PM
3. Proposal Due: Aug 10th by 5PM
4. Board Meeting: December 6th

GRANT PERIOD: January 1 - December 31
Guidelines: *I can just skim through these, right?*

The answer is *Never!* Don’t take the guidelines lightly! They will tell you:

- Submission deadlines
- Eligibility
- Proposal formats
- Budgets
- Funding goals and priorities
- Grant awards levels
- Evaluation process and criteria
- Contact information
- Other submission requirements
- *Whether you and your funder are a good match*
Think of the **funder as a resource.**

**Identify a grant officer** who will address your questions.

**Don’t guess** - ask your grant officer.

**Remember the contacts** you make may prove **invaluable**, even if not for now.
Questions to ask your Grants Officer

- Inquire about how proposals are reviewed and how decisions are made.
- Inquire about budgetary requirements and preferences. Are matching funds required? Are in-kind contributions acceptable as all or a portion of the applicant’s share?
- Learn about payment processes, including cash flow.
- Some funders offer technical assistance, others do not. Ask for technical assistance, including a review of proposal drafts.
- Find out how the funder will notify you about the receipt of the proposal and status after review.

Writing Your Proposal

On the advice of his readers, Jeffery decided to adopt a more formal writing style.
GRANT PROPOSALS – OUTLINE

**Cover Letter** (1 page, signed by one or more VIPs – not the grant writer)

**Executive Summary** (1 page, 3 paragraphs)

**Proposal Narrative** (5 pages)

- Organization/Program history/credentials (1/2 page)
- Case Statement (1/2 page)
- Project Description, Outline of activities, Timeline, Personnel (2 1/2 pages)
- Goals, Objectives, Outputs, Outcomes (1/2 page)
- Planning and Evaluation (1/2 page)
- Reporting and Recognition (1/2 page)
- Project Budget (1 page)
Read your guidelines, take notes BEFORE you write.

- IRS Determination Letter
- Texas Secretary of State Letter
- Audit, IRS 990 Tax Return
- Board of Directors and affiliation
- By-laws
- CVs of key staff and consultants
- Letters of support
- Annual Report and/or brochures
- Media coverage
- Photos, charts and graphs

Start early! You or your colleagues will need time to gather information.
“We are absolutely overwhelmed by grant proposals. The cover letter better be good, because sometimes we never get beyond it when we review proposals.”*

*Actual quote from a foundation executive*
Include Charts and Graphs!

- More charts and graphs rather than more narrative.
- Use a chart to plan the work.
- Organizational chart allows the grantor to find the program in the agency and the project in program.
- Baseline data would best be collected prior to the project and used as a basis of the project.
1. **Be sure**: review the application guidelines at least twice to be sure you understand them

2. **Be obedient**: follow the funder’s instructions and formats, even if they are not logical

3. **Be concise**: a Council on Foundations study states that the average proposal is reviewed for **5 – 7 minutes**

4. **Be focused**: don’t lose sight of your mission or the project goals

5. **Be factual**: be certain that your assertions, statistics, and citations can be backed up
6. **Be positive**: don’t whine or be overly dramatic, even when discussing serious issues.

7. **Be fiscally responsible**: check your numbers several times to **be sure the figures are correct**; don’t try to “pad” the budget.

8. **Be clear**: avoid jargon, slang and **unexplained acronyms** – if they don’t understand it, they won’t fund it.

9. **Be humble**: ask a colleague or “The Person from Mars” to review your draft – remember, even Hemingway had **editors**!

10. **Be a partner**: invite the foundation to be your collaborator in planning, implementing, and evaluating the project, as well as being a funder.
ASK YOURSELF…

Would you stake your personal reputation and credit on a project like this with your bank?

Self Assess Like a Banker

- Could you get a bank loan for this project?
- Does your application look professional?
- Would you stake your personal reputation and credit on a project like this with your bank?
- Would you drag your boss, and your boss’s boss with you to the bank for this application?
The reputation and successful projects of the nonprofit organization

The innovative nature or critical importance of the proposed project

The appropriateness of a funding source

The number of prospects/donors

The competition in a particular grant making cycle

The grant writer’s skill in building a compelling case

Relationships

Source: www.GrantProposal.com
Is it true I no longer have to apply using PDF forms?

You are Ready to Submit!
Success is the ability to go from one failure to another with no loss of enthusiasm.

– Winston Churchill

- Follow up – Confirm receipt; inquire about the status
- Remember that competition is tough
- If declined funding, request feedback; ask about resubmission
- Start again – different project, same funder

We conclude, as we have in the past, that, in making our final decisions, we are still able to choose between the excellent and the excellent.

While this sustains us in making difficult choices, it is of little solace to the five out of six applicants we must refuse. They understandably find it hard to be buoyant when their reward lies only in the good company they keep.

William H. Baldwin
Corporate Partnerships and Sponsorships
Corporate Sponsorships
Payment by a business to a nonprofit to market the business through visibility at an event or program; recognized by the nonprofit with an acknowledgment that the business has supported the nonprofit's activities, programs, or special event.*

*Source: National Council of Nonprofits
Corporate Partnership

A corporate partnership is a longer term commitment by a business, to a non-profit’s mission. Focuses on mission compatibility; could support the organization broadly, or a specific program of the organization.
Corporate Sponsorships

- Short term marketing strategy for a business;
- Event focused funding opportunity for the non-profit;
- Event/program specific, and usually one-time, at a time;
- Usually with a quid-pro-quo (logo featured, tickets to event, etc.);
- The QPQ only in relation to the event sponsored;
- Offers public recognition of the business during the event/program;
- The benefit to the non-profit entity should outweigh the benefit to the business/corporation;
- The donation = $ amount given less the value of the goods and services.

Corporate Partnership

- Long-term business development strategy for a business;
- Support for the nonprofit’s mission;
- May be affiliated with the non-profit overall or with a specific program of the organization;
- Developing corporate partnerships is like cultivating major donors;
- Co-branding opportunities;
- Focused on mission alignment;
- Corporations look for improved image, employee retention, media coverage, investments;
- Requires involving the business in opportunities across the organization (media, events, etc.);
- May include cash gift, volunteer support, corporate match for individual gifts, in-kind donations, workplace giving, etc.
The 2019 Subaru Outback
Built to take you to the place you’ve never been

The 2020 Subaru Ascent.
Love is now bigger than ever.

Love is out there.
Find it in the 2019 Crosstrek.
1. **Find the right partner.**
   - Not every company is a good fit – find companies with a strong presence in your community and a commitment to your cause
   - Identify mission alignment, in order to offer brand alignment

2. **Clarify your goals for the partnership.**
   - What are you looking for? Long term relationship, funding for an event, etc.
   - What are they looking for? Recognition when? How? How often?
   - This is a give and take – brand alignment; symbiotic relationship; risks and rewards for both

3. **Create your story**
   - Craft an agreement that articulates why you are good for each other
   - Identify benefits and solutions that create value for both parties
   - Identify how the sponsorship/partnership will achieve business objectives, engage employees, add brand value, and impact a social cause

Source: www.raffa.com
4. Engage at all levels.
   ➢ Build a solid relationship that can withstand turnover
   ➢ Connect deeply with employees at all levels

5. Communicate! Connect & deliver what you promise.
   ➢ Create benchmarks and track progress; find solutions jointly
   ➢ Communicate regularly, measure successes, and celebrate

Be aware
➢ In order for a corporate sponsorship to be legal and appropriate, the benefits to the sponsor should not outweigh the benefits to the non-profit.

➢ There may be tax implications if the sponsorship does not qualify as a charitable contributions.

➢ Remember to account for the impact of goods and services received in lieu of contribution
Are you ready to solicit sponsorships?

- What is your value/unique selling proposition to the potential sponsor?
- What are your goals? Contributions/publicity/volunteers/pro-bono assistance/in-kind gifts?
- Document expectations (both sides) in writing
- Find natural allies

Source: www.affa.com
Why are Corporations Partnering or Sponsoring?

*Because reputation is everything!*

- Companies are spending more cash on sponsorships every year – even in a struggling economy.
- Customers want to do business with organizations that consistently show they care.
- More brands are investing in corporate social responsibility strategies that help them to showcase their unique values.
- Customers are on the search for socially responsible companies and brands

*Source: www.fabrikbrands.com*

CHALLENGES IN FUNDRAISING

- **Competition**
  - More organizations need more money!!
  - Over a 14% increase in the number of 501(c)(3) organizations from 2007 to 2017
  - Non-profits filling vital gaps in service – lower costs+greater efficiency
  - Greater responsibility to existing organizations; formation of new ones

- **It ain’t easy, AND it takes time!**
  - Fundraising a long term investment in organizational capacity
  - Fund development takes time, with results seen way down the road
  - Balance between immediate and urgent needs and important long term sustainability

- **“I don’t like to ask for money!”**
  - Perceived taboo
  - Handout versus investment
  - Pushing outside the comfort zone

INDIVIDUAL GIVING – UNDERSTANDING MOTIVATIONS

- There are people who give and those that don’t - the engaged vs. the disengaged
  - Philanthropy a personal culture
  - Demonstrating a desire to give

- People that give will continue to give
  - A trend towards increasing generosity
  - Question – not whether they will give but how much and to whom

- People that give, do so freely and happily
  - Personal choice; voluntary
  - Making a difference in the community
  - Would do more if they could

- People who given will seek out wise “investment” opportunities
  - Organizations that show effectiveness and efficiency will succeed

- Attitude more that strategy
  - Fundraising an honorable tradition
  - An opportunity for donors to make a difference
  - Fundamentally an exchange – investment of resources for a “piece of action”
INDIVIDUAL GIVING – UNDERSTANDING MOTIVATIONS

- **The Communitarian** – A sense of belonging to the community; Consider non-profits to be effective in delivering services and in tune with needs; History in, ties to, the community; Typically support cultural, human service, educational and religious organizations

- **The Devout** – Its God’s will; Moral obligation – a responsibility to create a better world

- **The Investor** – Philanthropy as “good business”; Motivated by personal tax and estate benefits; Looking for non-profit caused and organizations which are business-like and effective

- **The Socialite** – Its fun – entertainment and socializing; Typically charitable at heart, but motivated more by the social visibility

- **The Altruist** – A sense of purpose and fulfillment - giving promotes spiritual growth; Unfettered by business considerations or personal gain

- **The Repayer** – Do good in return for all received – for example, gratitude for medical or educational benefits received; Insist on cost effectiveness and a focus on clients’ needs

- **The Dynasts** – Philanthropy a family tradition; Philanthropy provides a positive self identity and strong family values
UNDERSTANDING MOTIVATIONS – WHY DO PEOPLE GIVE?

- Personal belief in project/organization
- Personal involvement with the organization
- Gratitude – “I have been served”
- Image or appeal of association with the organization
- Recognition, tax deduction, parties
- Guilt
Because you **ASKED** them to!
Ask me. I am going to give it to you, to another non-profit or to taxes. And frankly, the government has enough of my money.

The Annual Fund Program
Definitions
- Annual Giving
- Annual Campaigns
- Annual Fund

Why is Annual Giving Important?
- Covers Operational Expenses
- Supplements other more focused fundraising efforts
- Mission-focused rather than project-focused
- Increases donor retention
- Opportunities for donor “upgrades”

The Myths and the Truth
- The Size of the campaign will be proportionate to the size of the organization
- Donors will give for mission support and for specific projects
- An average of 70% of giving is from individuals – focus on individuals
- An investment well worth making

INDIVIDUAL DONORS – ANNUAL FUND PROGRAMS

- **Objectives**
  - Funds for the organization
  - Establish and track giving habits
  - Identify major gift prospects
  - Increase donor participation rates
  - Clean and updated data
  - Stewardship tool for deeper donor relations

- **Building Blocks**
  - A clear goal
  - Fundraising team
  - An analysis of existing base
  - A calendar
  - Infrastructure
  - Best practices

- **Components**
  - Marketing & Outreach
  - Fundraising events
  - Direct asks

INDIVIDUAL DONORS – ANNUAL FUND PROGRAMS

- **Start From Scratch**
  - Identify your current donors and likely prospects
  - Know your donor profile

- **Direct Mail**
  - Far from dead, but will not last forever
  - Use to acquire new donors and information
  - Get familiar with other channels

- **Strengthen Communications**
  - Build/acquire email lists
  - Strong online presence
  - Online giving platform
  - Multi-channel = the new normal
  - Don’t forget social media

- **People give to people**
  - Peer-to-peer giving
  - Crowd funding

INDIVIDUAL DONORS – MAJOR GIFTS FUNDRAISING

- Training for the ask
  - Core group of staff and volunteers (board)
  - You are asking for your organization and its mission, not for yourself

- Identifying Major Gift Prospects
  - Start with your existing donor base
  - Board member relationships
  - Donors as relationship builders

- Cultivating Major Gifts – the 4 pillars
  - Meeting face-to-face
  - Seeing program in action
  - Volunteering
  - Communicating

11 QUESTIONS EVERY DONOR ASKS

- Why Me?
- Why are you asking me?
- Do I trust you?
- How much do you want?
- Why your Organization?
- Will my gift make a difference?
- Is there an urgent need?
- Is it easy to give?
- How will I be treated?
- Will I have a say over how you use my gift?
- How will you measure results?

Never forget that you are using other people’s money to accomplish your organization’s goals!
Capital Campaigns
What is a Capital Campaign?

- A targeted fundraising effort, taking place over a defined period of time
- Used by organizations to raise funds for:
  - constructions and renovations (brick-and-mortar projects)
  - Land Acquisition
  - Large scale equipment/supplies
- Unique because donors know, before giving, exactly what they are helping accomplish
- Most effective if organization can combine the power of effective fundraising with the incentive of addressing an immediate and tangible need
Capital Campaign Process

- Planning
  - Feasibility study
  - Assemble the team
  - Set goals, deadlines, budgets
  - Screen your prospects
Capital Campaign Process

- **Quiet Phase**
  - *Focus on major gift leads*
  - *Can take upwards of a year*
  - *50-70% of the goal to raised within this phase*

- **Kick-off**
  - *Make the campaign public*
  - *Major gift fundraising continues*
  - *Get to about 80-85% of goal*
Capital Campaign Process

- **Public Phase**
  - *Reach the community*
  - *Bring small donors into the fold*
  - *Use this time to follow up with donors from the kick-off phase*
  - *Wrap up*
The Capital Campaign Team

- **In-House**
  - Board members
    - Day-to-day planning; execution; tied to the mission
  - Campaign Chair
    - Oversee the committee; ambassador into the community
    - Typically an early major gift donor
  - Staff
    - Development professionals; committed to the success of the campaign; ongoing management of the campaign

- **Committee-Related Team**
  - Campaign planning Committee
    - 10-15 members who plan the campaign
    - Includes top staff, board members, volunteers prominent in the community
  - Steering Committee
    - Will include some planning committee members
    - Will run the campaign
Campaign Feasibility

- Surveys, usually by a consultant, to:
  - gauge whether organization has the capacity to accomplish the goals through a capital campaign

- Typically interviews of 20-40 “stakeholders”
  - board members, community members, past donors, etc.

- Recommendations:
  - The steps forwards – strategy
  - A potential $ figure that is “feasible” for the organization o take on as a goal
Setting a Budget

- Budget with the total goal in mind
  - Campaign will cost upwards of 10% of overall goal
  - For a $10 million campaign goal, the budget will be $11 million

- Map out your campaign costs

- Consider hiring a consultant
  - Added staffing
  - Expertise in managing campaigns
  - Expertise in certain geographies
  - You can define the scope and role of a consultant to fit your needs

QUIET PHASE
70% of goal accomplished

PUBLIC PHASE
Coming Full Circle – Ethics in Fundraising and in Storytelling for Fundraising
AFP Code of Ethics

- Public Trust, Transparency & Conflicts Of Interest
- Solicitation & Stewardship Of Philanthropic Funds
- Treatment Of Confidential & Proprietary Information
- Compensation, Bonuses & Finder’s Fees
AFP Donor Bill of Rights

I. To be informed of the organization’s mission, of the way the organization intends to use donated resources, and of its capacity to use donations effectively for their intended purposes.

II. To be informed of the identity of those serving on the organization’s governing board, and to expect the board to exercise prudent judgment in its stewardship responsibilities.

III. To have access to the organization’s most recent financial statements.

IV. To be assured their gifts will be used for the purposes for which they were given.

V. To receive appropriate acknowledgement and recognition.

VI. To be assured that information about their donations is handled with respect and with confidentiality to the extent provided by law.

VII. To expect that all relationships with individuals representing organizations of interest to the donor will be professional in nature.

VIII. To be informed whether those seeking donations are volunteers, employees of the organization or hired solicitors.

IX. To have the opportunity for their names to be deleted from mailing lists that an organization may intend to share.

X. To feel free to ask questions when making a donation and to receive prompt, truthful and forthright answers.
Ethical Considerations for Storytelling and Fundraising

I. Is the house truly on fire?
   - Be honest in your messaging
   - The perils of panic programming

II. Maintain brand voice during crisis
   - Do not deflect from mission during a crisis
   - Do not chase the money

III. Don’t cry wolf
   - Focus on good stewardship
   - Value-based cultivation

IV. Manage urgency vs. donor fatigue
   - Is the sky truly falling?
   - Constant urgency = poor planning
“Why do you Care?”
Part II

Think about this question in the context of our workshop today.

Turn to someone other than the person you talked with at the beginning of the workshop, and give them your answer (2 minutes)

Discussion (5 minutes)
